PRESENT: SRI P. R. MUKHERJI,
Judge, Industrial Tribunal.

By Government of West Bengal order No. 526-Lab., dated the 7th February 1949, the industrial dispute as above was referred to me as a Tribunal constituted under sections 7 and 10 of the Industrial Disputes Act.

Notices were issued on the Howrah Metal Workers' Union under registered cover on 9th February 1949 but none appeared on behalf of the Union. Then again, a second registered notice with acknowledgment due was issued on the same Union in their address given in the petition but the postal receipt shows that there was nobody to receive the notice and that the addressee has left.

I waited later on for considerable time but none appeared on behalf of the Union to submit the written statement.

I, therefore, presume that the dispute, if any, has been settled amicably between the employer and the employees or the employees do not want to proceed with the application before this Tribunal.

The case above referred to is struck off as there is nothing to adjudicate.

P. R. MUKHERJI,
Judge, Industrial Tribunal.

The 26th April 1949.

By order of the Governor,
D. S. P. MUKHERJEE, Jt. Secy.

It is now proposed to consider the case of Messrs. W. & T. Avery, Ltd., being No. 19 list 1. In this case we have received a copy of a letter written by Sri M. K. Majumdar, Secretary of the W. & T. Avery, Ltd., Employees' Union.

the General Secretary of the Federal Mercantile Employees' Union, dated 27th April 1949, intending to settle the disputes and withdrawing from the present proceedings. On 20th April 1949, it was told by Sri S. K. Mallick (Junior) of Messrs. Andersons & Morgans, Solicitors for the Union, and Sri M. K. Majumdar, Secretary of the Union, that the disputes had been amicably settled. This was confirmed by Sri P. K. Ghosh, Secretary of the Federation. As the settlement could not be obtained we are in a position to incorporate the terms into the award. However, the fact remains that the disputes have been settled and that there is at present no dispute.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the officer's grade. We award that there should be no bar to promotion from clerical grade to the officer's grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the officer's grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17.—Recognition of the Union as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Issue No. 18.—Jurisdiction of the Tribunal to adjudicate against some mercantile firms of which Messrs. Lovelock and Lewes is one.

We decided at an earlier stage that this Tribunal is competent to adjudicate on this firm.

Conclusion.

In view of the peculiar type of work undertaken, the following also shall be deemed to be misconduct for which the maximum punishment may be dismissal:—

(a) untrustworthiness of any description, e.g., when he has stated that he has attended at a client's office and has checked certain records when in fact he has not done so;

(b) when he divulges information, which he has obtained from his examination of the records of a client, to outside parties;

(c) when the standard of work is such that the firm cannot rely on the accuracy thereof and it is therefore dangerous for the firm to employ the clerk for the purpose of checking records and documents which have to be certified as correct and accurate.

Service record.—We award that service shall be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

Inquiry before punishment, and**Iss. 14.—Dismissal, discharge and retrenchment or other punishments.**

In case of retrenchment, the principle of "last in, first out" shall be applied. Exceptions may be made in case of persons with exceptional service.

When comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the rules which must precede any punishment.

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the grounds on which this is based. The person proceeded against shall submit his explanation. Then a date should be fixed for the matter to be brought up. If the person proceeded against is innocent, the matter ends. If, however, he is found guilty, the employee concerned shall be furnished with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead in mitigation of punishment only at this stage. If the Enquiring Officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks fit. If the Enquiring Officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the coming into force of the order punishing the employee. If the Enquiring Officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass an order. If that authority be other than the head of the concern at Calcutta, an appeal shall lie with the head of the concern at Calcutta. In cases where the proposed punishment is dismissal or discharge the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass an order. The clerk proceeded against shall have the right to be defended by any other person or by any other retired employee. These are the matters and bringing outside matters is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the Enquiring Officer.

We hope that the rules framed by us will allay apprehensions about abrupt termination of service and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.—We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment rules: recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel however that transfer of clerks is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.—(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the officer's grade. We award that there should be no bar to promotion from clerical grade to the officer's grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the officer's grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Issue No. 11.—Travelling allowance on duty as also on leave.

Adequate travelling allowances on duty are paid. Claim for travelling allowance while going on leave be refused.

Issue No. 15.—Uniforms and umbrellas for menials.

Uniforms are supplied. Umbrellas are also supplied for official work during rains.

Issue No. 18.—Tribunal's jurisdiction to adjudicate on this firm.

We decided on an earlier date that we have jurisdiction to adjudicate on this firm.

Conclusion.

In view of the peculiar type of work undertaken, the following also shall be deemed to be misconduct for which the maximum punishment may be dismissal:—

(a) Untrustworthiness of any description, e.g., when an employee has stated that he has attended at a client's office and has checked certain records when in fact he has not done so;

(b) When he divulges information, which he has obtained from his examination of the records of a client, to outside parties;

(b) *Service record.*—We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) *Enquiry before punishment; and*

Issue No. 14—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the Head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the Head of the concern at Calcutta, an appeal shall lie likewise with the Head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the Head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us remove apprehensions about abrupt termination of services and will give to the employee a security which is essential for efficient work.

(d) *Retiring age.*—We decide that a man retire on completing 55 years. We do not extend extension of services, thereby blocking the younger people to get employments. In special cases where both the employer and employee agree, extension of services is granted.

Issue No. 13—Recruitment Rules: Retention, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be a transfer. We feel however that transfer is necessary for two purposes:—(1) to particular clerk know work of the various departments; and (2) for stock taking of arrears of one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Union or the Federation. The employer will select his own man.

Recruitment.—(i) Other things being equal, preference should be given to relations of an employee retired or in service. Between relations of an employee, the appointment shall go to the most qualified.

(ii) Preference should be given to retired employees, if qualified.

(iii) In the matter of appointment to the grades of clerk, promotion from lower grade to higher grade shall be the rule. Only in exceptional cases, appointment may be made from outside.

Then comes the question of promotion from clerical grade to the officer's grade. We decide that there should be no bar to promotion from clerical grade to the officer's grade or from subordinate staff to clerical grade. As selection depends on the management, we cannot dictate a certain percentage or a certain number of persons must be promoted to the officer's grade. It depends on suitability according to the needs of the management. We, however, like to see that such promotions do change the outlook of the clerk and are conducive to more efficient work of the clerical staff.

Issue No. 17—Recognition of the Union Jurisdiction of the Tribunal to enquire into disputes.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Subject:—Procedure for granting consolidated treasury receipts to P.W. Divisional Officers for Government monies remitted into the Treasury or the Bank by or on behalf of the Divisional Officers.

No. WM/148.—2nd May 1949.—Government money is sometimes remitted to the Bank or

Treasury through chalang on behalf of a Works Divisional Officer by his subordinate having cash books. The Treasury Officers and the Divisional Officers should adjust the amount by credit to the revenue head concerned and to "P.W. Remittance—Payments into treasuries". As a check against double adjustments in such the Treasury Officers and the Bank should in all such receipts in the consolidated receipts granted by them to the P.W. Divisional Officers so that both the Treasury Officer (Bank) and the Divisional Officers may detect and rectify any wrong or double adjustment on them on a comparison of the amount shown in consolidated receipts with that appearing in accounts under the head "P.W. Remittance—Payments into treasuries".

The award made by the said Sri M. C. Banerji, Additional District Judge, shall bind the Company and their workmen aforesaid as specified therein and shall remain in force for a period of one year, with effect from the date of its publication:—

ANNEXURE.

PRESENT: SRI MATISH CHANDRA BANERJI,
*Additional District Judge, Industrial Tribunal,
Calcutta.*

Industrial dispute between the United Board and Paper Mills, Ltd., and their employees represented by the United Board and Paper Mills Employees' Union.

AWARD.

The United Board and Paper Mills, Ltd., is a Company dealing with the manufacture of paper board and has in its programme also the manufacture of paper which has not yet been commenced. The present Company purchased the mills from its predecessor, the Standard Board and Paper Mills, Ltd., in 1946.

There are at present 427 workmen in the factory and 28 clerks. Many of the workmen in the factory have been in service under the Standard Board and Paper Mills, Ltd. The workmen formed themselves into a Union in May 1948 and had the Union registered in September of the same year. Shortly afterwards demands in regard to wages and other terms of employment and conditions of labour were made to the Company and disputes over those matters arose between the Company and the Union. The Labour Commissioner of the Government of West Bengal took up the matter and started conciliation proceedings to settle the disputes amicably and held several joint conferences with representatives of the Union and the Company. The conciliation proceedings did not yield any results and the Labour Commissioner recommended to Government for a reference of the disputes to the Tribunal for adjudication. Thereafter the Government of West Bengal in the Department of Labour by its order No. 509Lab., dated 5th February 1949, referred the disputes between the Union and the Company, under sections 7 and 10 of the Industrial Disputes Act, 1947, to me for adjudication.

Notices were issued on both parties and they filed written statements. Issues were framed on the disputed points on 17th March 1949.

The case was heard on 4th April 1949, 5th 1949, 6th April 1949 and 7th April 1949.

The appearances for the parties were follows:—

For the Union—Sri J. N. Mitra, Sri R. Mukherji, and Sri S. K. Chatterji, Secretary of the Union.

For the Company—Sri D. J. Banerji, Managing Director, Dr. D. K. Chatterji, D.Sc. (Paris), Technical Adviser of Company, and Sri R. N. Bhandari, Secretary of the Company.

The issues framed were as follows:—

ISSUES.

1. Security of service throughout the year.
2. Standing Orders.
3. Medical aid.
4. Provident Fund.
5. Provision for drinking water, wash facilities, lavatory and urinals.
6. Cheap canteen.
7. Gratuity.
8. Leave and holidays.
9. Revision of basic wages and dearness allowance. Grade scale of basic wages.
10. Payment of dearness allowance, with effect from January 1946.

DECISIONS.

Issue No. 1—Security of service throughout year.

The Union complained that all the workmen were not retained in service throughout the year and that there should be better security of service so that the workmen might expect employment throughout the whole year. At present there are 28 clerks and 427 manual workers including 31 durwans in the factory. This entire body of workmen are not retained in service throughout the year. The representatives of the Company tell me that on consideration of the matter they have come to the conclusion that they can keep in permanent employment a complement of 325 workmen including durwans, and 19 employees of clerical staff. The representatives of the Union did not object to this complement for permanent staff. It is, therefore, awarded that the Company should employ in its permanent service a full complement of the factory, which is fixed at 325 manual workers and 19 employees of the clerical and other staff. Employees not retained in the permanent service of the Company after a satisfactory period of probation of six months.

There is no doubt that a number of workmen will have to be discharged by way of retrenchment from time to time as being in excess of the requirements of the Company as there are at present about 455 employees in the factory. It is decided that in effecting retrenchment of particular type of worker, the principle of "first come first go" in that group shall always be observed, consistently with the efficiency of the establishment. It is, however, recommended that at the time of fresh appointment the Management should consider the claims of the retrenched employees, if they seek re-employment.

In all cases of retrenchment the workmen shall be entitled to one month's notice or in lieu thereof one month's pay.

This issue is accordingly answered.

Issue No. 2—Standing Orders.

of Standing Orders (Ext. A) for the Company submitted by the representatives of the workers and all the provisions were discussed by me and the provisions were amended in agreement with both the representatives. The agreed Standing Orders appear in Ext. A. It is awarded that these Standing Orders should be followed by the Company. This issue is accordingly answered.

Issue No. 3—Medical aid.

The workers demanded a provision for medical aid for the workers and their dependants. The Company states that arrangements for medical aid for the workers have been made.

The representatives of the Company stated that there is a whole-time compounder from 1940 to the present in a dispensary in the factory premises. A worker took advantage of this dispensary and the Company thereupon discharged the worker. The Company agreed to re-employ a whole-time certified compounder and to give accommodation in the factory premises. The Company also stated that an L.M.F. doctor is present every day to render medical assistance to the workmen.

It is therefore awarded that an L.M.F. doctor should attend the factory every day for one hour in the morning between 9 and 10 a.m. and there should be a whole-time certified compounder with accommodation in the factory premises. The doctor should have his quarters within the factory premises. Arrangements for first aid should be made in accordance with section 45 of the Factories Act and be kept.

Issue No. 4—Provident Fund and Issue No. 7—Gratuity.

The workers prayed for introduction of a scheme for a Provident Fund, in the management of which the workers' representative shall have a right to participate. In item No. 9 of the demands it is asked for introduction of a system of gratuity on retirement, resignation or discharge after a specified period of service.

The Company stated in reply that Provident Fund rules are being prepared and shall be introduced as soon as circumstances permit. The Company also states that the question of introduction of payment of gratuity is under its consideration and will be introduced as soon as circumstances permit.

Regarding both the parties it is awarded that the employees should have some kind of retirement benefit.

The Company should introduce the Contributory Provident Fund as a benefit for the workmen as soon as circumstances permit.

The rate of contribution with regard to Provident Fund is fixed at 6½ per cent. of basic wages. I am of opinion that the workers are entitled to only one kind of benefit and not both the kinds as demanded by the workers, namely, Contributory Provident Fund as well as in gratuity.

However, the system of Provident Fund is not sufficient for the benefit of the workmen. This system of Provident Fund should also operate in a complimentary manner to the system of Provident Fund to meet the needs of the employees in general under various circumstances of death or retirement on superannuation or on medical grounds, until the introduction of Provident Fund works for a long time. The provision for the gratuity shall be as follows:—

(1) *On retirement after continuous service for not less than 15 years.*—Gratuity at the rate of half-a-month's basic pay for each completed year of service, subject to a maximum of 15 months' basic pay.

(2) *On retirement before completing 15 years' service by reason of superannuation on medical grounds or owing to any other sufficient cause approved by the employer in this behalf.*—Gratuity at the rate of half-a-month's basic pay for each completed year of service.

(3) *On death.*—Gratuity at the rate of half-a-month's basic pay for each completed year of service (payable to the employees' nominee or nominees or heirs), subject to a maximum of 15 months' basic wages.

(4) The basis of calculating gratuity shall be the average basic pay, not including overtime wages or any allowances, bonuses or other benefits, during the last 12 months of service on full pay.

(5) For the period for which Provident Fund has been in operation in respect of an employee, he or his nominee or nominees or heirs will receive the whole amount at his credit in the fund including the amounts of the employers' contribution subject to operation of the rules of the Provident Fund of the Company in this behalf, but in calculating the number of years of service for which gratuity will be payable the period for which Provident Fund has been in operation in respect of the particular employee shall be deducted from the total period of service.

I consider that these rules will adequately supply the need of the retiring gratuity for the employees even though the Provident Fund may not be introduced immediately. The Company should introduce this system of Provident Fund as soon as their finances permit. It is recommended that this should be done within the next two years.

Issue No. 5—Provision for drinking water, washing facilities, lavatory and urinals.

In respect of the demands for drinking water and latrines and urinals, the Company should scrupulously follow the provisions of sections 18 and 19 of the Factories Act. The Company should also arrange for washing facilities for the workmen in accordance with section 42 of the Factories Act.

Issue No. 6—Cheap canteen.

The number of workmen in the factory are more than 250. As the workmen are not housed in the factory premises, the necessity of a cheap canteen cannot be over-estimated. The parties inform me that there is still a canteen in the factory premises but the Union is not satisfied with its management. The Company is agreeable to bestow the management of the canteen on the Union. It is awarded that the Company will run a canteen in the factory on a non-profit basis and shall supply the room, furniture, utensils, fuel and light and one cook for the maintenance of the canteen. The Union will be at liberty to take over the management of the canteen, but the Company should extend all assistance to the Union in managing the canteen, as I am sure it will not be possible for the Union to manage it without the active assistance of the Company. If the Union is not able to take over the management of the canteen, the Company should make suitable arrangements for its management. The Managing Director is requested to see that the canteen works smoothly and to the satisfaction of the workers.

Issue No. 8—Leave and holidays.

The Union demanded immediate introduction of leave and holidays at the same scale as granted to the employees of the Titaghur Paper Mills, Ltd. On a discussion of this matter the following leave and holidays are awarded:—

(a) For monthly paid employees of the factory—

(1) Leave under the Factories Act plus six days on full pay, cumulative for two years.

(2) Casual leave—Seven days on full pay.

(b) Other workers in the factory—

(1) Leave under the Factories Act.

(2) Seven days' casual leave without pay.

(c) For all workers—

(i) Fifteen days' sick leave on half pay on completion of a year of service cumulative for two years and to be discontinued altogether as soon as the Employees' State Insurance Act comes into full operation. The leave should be granted on the basis of a medical certificate from the Medical Officer of the Company or from a qualified registered medical practitioner approved by the authorities of the Company.

(ii) Festival holidays for eight days—On dates to be determined by the Company in consultation with the Works Committee.

Issue No. 9—Revision of basic wages and dearness allowance. Grade scale of basic wages.

The Union made the following demands on the claim in this issue:—

“Fixation of minimum wages and dearness allowance at the following rates:—

(a) Basic wages for unskilled workers including Peons and Durwans—Rs. 45 per month.

Dearness allowance for the above—Rs. 40 per month.

(b) Basic wages for skilled workers such as Fitters, Mechanics, Machine-men, etc.—Rs. 60 per month.

Dearness allowance for the above—Rs. 45 per month.

(c) Basic wages for highly skilled workers such as Mistris and Sardars—Rs. 75 per month.

Dearness allowance for the above—Rs. 50 per month.

(d) Basic wages for Head Mistry and Assistant Foreman—Rs. 125 per month.

Dearness allowance for the above—Rs. 50 per month.

(e) Basic wages for clerks—Rs. 70 per month.

Dearness allowance for the above—Rs. 45 per month.

Introduction of grade system and grade scale of wages and system of promotion according to seniority and efficiency as recorded in the service-book and/or established by a trade-test.”

The Company's statement in answer to these claims is as follows:—

“The wages given to the workers are on the same level as, and in some cases more than, those received by the workmen in other board mills. The Management has under preparation a scheme for maintaining efficiency charts and the promotion will depend upon the efficiency of the workers.”

It appears that the basic wage of the unskilled workers varies from Re. 1 to Re. 1-6 per day. The reason appears to be that some of the unskilled workers were given increments in wage rate while others did not receive such increments. The Company does not pay any dearness allowance at all. At the time of the hearing the workmen of the factory were agreed to be divided into categories as follows:—

Revision A.—Coolies, Durwans, Peons and others of the same categories other than unskilled workers, under Revision B, C, D, E and F.

Revision B.—Machine-man, Roll (Chemical Giver, Scale Sorter, Calender, Rotary Cutter, Electric Boy, Welder, Field and Picking Sirdar and Oil-man.

Revision C.—Machine Sirdar, Beater & Finish Sirdar, Digester Sirdar and Tindal.

Revision D.—Fitters and Carpenters.

Revision E.—Electricians, Assistant Fitters and other supervisory staff.

Revision F.—Foreman or In-charge (Mistry, Blacksmith, Turner, Wagon Pattern Maker, Viceman and others.

The Company agreed to raise the minimum emoluments of the unskilled workers to Rs. 50 per month in basic wage and dearness allowance. On giving my best consideration to the matter, I am of opinion that the unskilled workers in the Company should get a basic wage of Re. 1 per day of 8 hours, i.e., Rs. 20 for a month of 26 days or 208 hours, and all the workers in the category Revision A should get this basic wage, and it is awarded accordingly. The men shall also be granted a dearness allowance of Rs. 25 per month in addition to the basic wage. This grant of dearness allowance will not compensate for the reduction in the present wages of some of the workmen in this category. Dearness allowance shall not be increased though the workmen may have to work any day in the month.

There are also various salaries for the workers in the category of Revision B. I find the workers in this category are getting at Re. 1-8 per day, Re. 1-9 per day, Re. 1-10-6 per day, at Rs. 55 per month, Rs. 55 per month and also Rs. 60 per month. They do not get any extra dearness allowance. On a consideration of the matter it is directed that employees in this category shall get a fixed basic wage of Rs. 31 for a month of 26 days or 208 hours with a fixed dearness allowance of Rs. 25 per month. I shall make an exception in the case of one Khushial who is getting Rs. 60 per month at the present moment. He will get a special payment of Rs. 4 in addition to the scale allowed to ensure his emoluments do not suffer by this Award.

In the category of Revision C, I find the present emoluments are at Re. 1-10 per day, Rs. 50, Rs. 55, Rs. 60, Rs. 65 and Rs. 75 per month. There has been an increment in the wage of all the workmen in November 1947 and on one case, namely, Sekandar Mia, the pay was reduced from Rs. 90 to Rs. 75. It is awarded that the workmen in this category shall get a basic wage as it obtained in November 1947 or as at present whichever is less, along with a dearness allowance of Rs. 25 per month. For a new entrant the minimum basic pay should be Rs. 36 only.

In case of Revision D being that for Fitters and Carpenters, the basic pay is fixed at the same level as any worker used to get in November 1947 and a dearness allowance is fixed at Rs. 25 over and above this basic pay. For a new entrant the minimum basic pay shall be Rs. 45 per month.

The workmen in Revision E get basic pay varying from Rs. 40 to Rs. 100 and one worker

Rs. 200 per month. There are 3 Electricians getting a monthly pay of Rs. 60, Rs. 50 and Rs. 40 respectively. Of these the Electrician on duty was appointed only in February 1949. I consider that when the authorities appointed the Electrician (Phani Das) appropriate provision should have been made for dearness allowance, so that his colleagues get a much lower salary. I am awarded that the minimum basic pay of the Electrician of this category shall be raised to Rs. 60 per month. They shall also get a dearness allowance of Rs. 25 per month. The Electrician (Phani Das) who was appointed in February 1949 shall get a basic pay of Rs. 75 and a dearness allowance of Rs. 25 per month. The basic pay is fixed on the basis of a month of 26 days or 208 working days.

Category Revision F includes comparatively highly salaried workmen of the factory. In this category also the employees shall get a salary as in November 1947 or as at present, whichever is less, along with a dearness allowance of Rs. 25 per month. I do not find the salary of K. Chatterji in one set of papers although in another set it appears to be at Rs. 100. Sri Chatterji shall get a salary as fixed if it has not already been fixed plus Rs. 25 by way of dearness allowance. The clerical staff is included in category G. The minimum basic pay of a clerk shall be Rs. 55 per month and this basic pay should be the same for new entrants. No standard basic pay for other categories of employees of this factory.

What has been stated above it would appear that the employees have got a substantial increment in their salaries by the addition of the dearness allowance of Rs. 25 per month under this Award. I do not consider that any grade scale of salaries is called for at the present moment. The Company should be given sufficient time to stabilise itself before any scale of salary for any of the categories of employees might be demanded. No grade scale of salaries permitting automatic annual increments be granted to the manual workers in a factory. In view of the fact that in private industrial enterprises such enterprises stand or fall with the efficiency of the workers and efficiency does not automatically increase with the amount or period of employment. The claim for provision of grade scale of basic wages is, therefore, rejected.

10.—Payment of dearness allowance with effect from January 1946.

The non-claimed payment of dearness allowance with retrospective effect from January 1946. This claim is not justified. The accounts for the past years have been closed and it is not possible for the Company to reopen these accounts and increase the costs of these years at the present time. The claim for dearness allowance with the retrospective effect from the beginning of 1946 is not justified and is, therefore, rejected.

Conclusion.

The Company will be saddled with a considerable financial expenditure by virtue of the increase in salaries provided for in this Award. The management of the Company showed utmost consideration for the wellbeing of the workmen. The Company conceded the justification of the award of some dearness allowance to the workers in view of the rise in the cost of living. The Company should exert their utmost to increase their salaries and compensate the Company for the increase in their emoluments and the working costs of the Company. It is only then that the increase in emoluments allowed in this Award would be justified.

AWARD.

By Government of West Bengal, Department of Labour, order No. 1068Lab., dated the 9th March 1949, and order No. 1873Lab., dated the 18th April 1949, this industrial dispute between the Khardah Jute Mills, Khardah, 24-Parganas, and the machine-sewers in their employ represented by the Jute Mill Workers' Federation, Bengal, and the Khardah Jute Mill Mazdur Union, Khardah, 24-Parganas, has been referred to me as a Tribunal for adjudication. In January last the machine-sewers of the Khardah Jute Mills No. 1 and No. 2 were asked by the management to work on a particular type of bags known as valve-mouth cement bags in accordance with certain orders in respect of this type of jute goods received in recent times. It was not usual for the mills to manufacture this type of bags. There are 130 sewing machines in the two mills. The machine-sewers wanted a cooly or helper for each machine on the basis that a machine-sewer could not do the sewing work required on three sides of these special type valve-mouth bags without the help of a helper. The Company's case was that no helpers were provided on previous occasions on which cement bags of this type were manufactured, and in consideration of

the fact that the rate of 10-08 annas per hundred bags which the Company was prepared to pay on previous occasions was much less than the rate indicated by the Jute Textile Industry Tribunal on page 151 of its Award. As there was no justification for the machine-sewers to demand the employment of extra helpers contrary to the previous practice, a pronounced controversy arose over this matter and eventually the management issued discharge notices to machine-sewers who refused to work without helpers. Negotiations for a settlement were set up and the Company agreed to provide 30 helpers for the two mills for work on the valve-mouth cement bags, as a measure of temporary promise, and it was also agreed that as regards the rates and other matters relating to the employment of helpers the dispute would be referred to a Tribunal. That is how this industrial dispute has been referred to this Tribunal for adjudication. The proceedings were at first carried out in the presence of the Jute Mill Workers' Federation, and later on by a subsequent corrigendum order the Government added the Khardah Jute Mill Mazdur Union as a party to represent the workers. On the statements submitted by the Federation and the Union and by the Company, and in the light of further discussions, finding thereunto the following issues were framed:

- (1) Whether the machine-sewers should be paid strictly according to the table at page 151 of the Award on the Jute Textile Industry Tribunal enforced by Government order No. 1068Lab., dated the 20th September 1949.
- (2) Whether the said machine-sewers should be paid at the present rate (10-08 annas per hundred bags) less 30 per cent?
- (3) Whether the said machine-sewers should be paid at the prevailing rate of 10-08 annas per hundred bags?
- (4) Should a cooly or helper be supplied to each machine-sewer? If so, what should be the rate for machine-sewers?

2. If the chart of machine-sewing piece shown on page 151 of the Jute Textile Industry Tribunal Award were strictly followed the rate of machine-sewing per one hundred bags, the size of a bag being 27 inches by 20 inches, would be about 3-68 annas if a helper is employed. It is clear that the present dispute relates exclusively to the work of machine-sewing in respect of a special kind of bags known as valve-mouth cement bags, and this dispute has nothing to do with the subject of machine-sewing in respect of other varieties of bags. I inspected the mill and watched the work over these special bags. The sewing of the valve-mouth piece with the cement bag is done by machine-sewers on entirely different machines, and that part of the work has no connection with the present dispute. The machine-sewers who are concerned in the present dispute have sewed only three sides of the special type of bags, namely, the valve-mouth side, the counter side, and the bottom. At the time when I visited the mill, the Company was actually employing some helpers in accordance with the temporary compromise. On watching the different stages of the work I have got the impression that a machine-sewer is able to sew the valve-mouth side and the bottom without the assistance of any helper. It is not ordinarily practicable for him to arm and sew the counterlaid side without the assistance of a helper. The Company appears to have manufactured this special kind of bags on previous occasions and it is admitted that the rate for sewing this type of bags was 10-08 annas per hundred bags. It may be noted here that the reference to 10 annas in the Schedule in the Government order of reference involves a slight error in so far as the figure, as admitted by the

d. is actually 10.08 annas and not 10. I shall proceed on the footing of the figure. In accordance with the Jute Textile Tribunal's principle of maintaining previous rates, where such rates might be higher than decided upon in the Tribunal's Award, the Company is quite agreeable to pay the machine-sewers the previous rate of 10.08 annas per one hundred bags, which happens to be actually much less than the Award rates. The bone of contention in this dispute, however, is that the Company have demanded a helper for each machine-sewer noting that such helpers were provided on previous occasions, whereas the Company has stood on the proposition that no helpers were provided in the past for the sewing of this special bags, and the Company is not prepared to introduce any change of conditions of employing helpers. It has been pointed out by the Company that apart from the fact that employment of helpers would be a deviation from previous conditions of service, which would not justify the payment of unusually high wages for sewing, the cost of employment of extra helpers on the different machines would be an undue burden on the Company. What the Jute Textile Industry Tribunal laid down was that previous rates would be maintained on the basis of previous conditions of service would be maintained.

The question with regard to the present dispute, whether on past occasions of manufacture of special bags a helper was provided for machine-sewer as a matter of practice, as asserted on behalf of the workers. One or two have asserted before me that helpers were provided in the past. On the other hand, it has been stoutly asserted on the side of the Company that no helpers were provided. I have examined the wages books of the Company from the past years, and have found entries to the effect that sewing valve-mouth bags of the size 26 inches by 20 inches machine-sewers were paid at the rate of 10.08 annas per one hundred bags, and I have not found any note in any of the books to the effect that any helper was provided. It has been possible to find out whether the subject of payment to helpers was noted in any other part of the wages book. I consider it best to examine the matter from the point of view of probability in the light of the circumstances. As I have said, my impression in course of my examination of the actual work being done has been that it is not practicable for a machine-sewer, single handed, to execute the sewing work on the counterlaid side, which involves an operation of cutting the cut side of the bag, and I have presumed that on the past occasions of this kind of work the assistance of a helper must have been obtained with regard to the counterlaid side, though I agree that a helper cannot be said to be indispensable for the sewing of the other two sides. It is clear how the helper in respect of the counterlaid side used to be paid on previous occasions. The wages books, however, show that machine-sewers used to be paid at the rate of 10.08 annas per one hundred bags. Presumably those whose employment was necessary in the sewing of the counterlaid side were employed by the Company. I am not, however, satisfied that a helper was employed and paid by the Company with regard to the sewing of the valve-mouth or the bottom side of the bags or for any purpose such as arranging or carrying in-sewn bags. The decision with regard to the present dispute must be arrived at on the basis of these findings.

It does not appear that there was any practice of employing a helper in respect of sewing-machine, and I do not think there is any justification for the workers insisting on the employment of a helper for every machine. The employment of 30 helpers in respect of 130

machines in the two mills is the result of a temporary compromise arrived at for facilitating the reference of the dispute to a Tribunal. In coming to a decision this Tribunal should proceed on the basis of the findings arrived at to the effect that the previous practice must have involved the employment of a helper with regard to the sewing of only the counterlaid side of the valve-mouth cement pocket bags and for no other purpose. As regards the present dispute, therefore, the direction should be that helpers should be provided only in connection with the sewing of the counterlaid sides of these bags and for no other purpose. It is not practicable for this Tribunal to calculate the number of helpers that may be required on this basis for the machines in the two mills. The number required should be determined by the management in the light of the actual circumstances on the footing that the helpers will be employed only for the purpose indicated, and presumably the helpers will be allowed to help, by turns if necessary, the machine-sewers working at different machines over the valve-mouth cement pocket bags, and the helpers will of course be paid by the Company in accordance with the scales of wages determined by the Jute Textile Industry Tribunal in its award. As regards the rates of wages payable to the machine-sewers themselves, there can be no question of adhering to the table at page 151 of the Jute Textile Industry Award, the rates shown in that table being lower than the prevailing rates. There can also be no question of paying the machine-sewers at the rate of 10.08 annas per one hundred bags less 30 per cent. The machine-sewers should be paid at the prevailing rate of 10.08 annas per one hundred bags. There can be no question of supplying a helper for each machine-sewer, but, as already indicated, a sufficient number of helpers should be provided only in connection with the operation of sewing the counterlaid sides on different machines. I make it clear that the directions given in this award shall apply only to the question of machine-sewers sewing this particular type of bags, namely, valve-mouth cement pocket bags of approximate size 27 inches by 20 inches or a little more or less. I answer Issues Nos. 1 and 2 in the negative, and I answer Issue No. 3 in the affirmative. As regards Issue No. 4, I direct that a sufficient number of helpers should be provided to enable the machine-sewers to carry on efficiently the operation of sewing the counterlaid sides only, and no helpers need be provided for any other purpose. The second part of Issue No. 4 on the subject of the rate for machine-sewers has already been answered in connection with Issue No. 3. I make my Award accordingly.

Chairman, Industrial Tribunal.

The 7th May 1949.

By order of the Governor,

ORDER.

No. 2474Lab.—19th May 1949.—Whereas under the Government of West Bengal, Labour Department, order No. 11Lab., dated the 4th January 1949, the industrial dispute between the management of Messrs. Purushottam Ramji, Ltd., of 12, Raja Woodmunt Street, Calcutta, and their workmen represented by Purushottam Ramji Workers' Union of 14D, Jainuddi Mistri Lane, Chetla, Calcutta, was referred for adjudication to Sri S. C. Chakrabarty, Additional District Judge;

And whereas the said Sri S. C. Chakrabarty, Additional District Judge, has given the award as shown in the annexure hereto;

Now, therefore, in exercise of the powers conferred by sub-section (2) of section 15 read with sub-section (3) of section 19 of the Industrial

Disputes Act, 1947 (XIV of 1947), the Governor is pleased to make the following order and to direct with reference to section 17 of the said Act that the award be published in the *Calcutta Gazette*.

The award made by the said Sri S. C. Chakrabarty, Additional District Judge, shall bind the Company and their workmen aforesaid as specified therein and shall remain in force for a period of one year, with effect from the date of its publication.

ANNEXURE.

In the matter of the industrial dispute between Messrs. Purushottam Ramji, Ltd., of 12, Raja Woodmunt Street, Calcutta, and their workmen represented by Purushottam Ramji Workers' Union, 14D, Jainuddi Mistry Lane, Chetla, Calcutta.

(Government of West Bengal, by order No. 111ab., dated the 4th January 1949, under sections 7 and 10 of the Industrial Disputes Act, constituted a Tribunal with me to adjudicate on the industrial dispute between Messrs. Purushottam Ramji, Ltd., 12, Raja Woodmunt Street, Calcutta, and their workmen represented by Purushottam Ramji Workers' Union, 14D, Jainuddi Mistry Lane, Chetla, Calcutta.

For the Company—Sri V. P. Metha, Manager.

For the Union—Sri Bechanlal Jeoswar, Assistant Secretary of the Union.

The dispute came to me with the following prayers by the Union:—

- (a) Reinstatement of 59 workers discharged in the first batch.
- (b) Reinstatement of the worker discharged in the second batch but not reinstated.
- (c) Compensation for the period of unemployment forced on them.
- (d) Introduction of Provident Fund system.
- (e) Increment of basic wages at 4 annas per day.
- (f) Dearness allowance to be increased to Rs. 30 per month.
- (g) Gratuity after retirement.
- (h) One month's pay as bonus during Puja and Id festivals.

AWARD.

Demands (a), (b) and (c).

This is a small factory situated in Chetla in the suburbs of this town, manufacturing small metal articles like pad bolts, tower bolts, wire staples and hinges. In the year 1946 it had 148 workmen and in 1947, 139 and in 1948, 150 men. The Company, on account of paucity of raw materials, retrenched 59 workers. Thereafter another batch of workers were retrenched but on the intervention of the Labour Commissioner the Company provisionally took them back except one Kalipada Ghosh. The Company is willing to retain the services of the men taken provisionally. So far as reinstatement of these persons is concerned, the matter ends. Now, the question is about the reinstatement of the persons retrenched in the first batch.

Steel has been a controlled commodity all along and this Company obtain quotas. Formerly scrap iron was not controlled and the Company could purchase any quantity from the open market. Now, scrap iron has also been a controlled commodity. The only source of getting steel is now by permit. In the year 1946 the Company could gather 316 tons of steel and scrap iron and in 1947 it could get 415 tons. In 1948 it got 272 tons and the present quota is 38 tons per quarter which makes 152 tons in the year. The year 1948 was most advantageous for labour, because more people were engaged at that time and the Company got less steel. Retrenchment has been justified and it is not possible to give occupation to the retrenched men unless steel

position improves. It is agreed that for increase of one ton of steel quota per month the present quota of 38 tons per quarter, the Company will re-employ five men out of the retrenched staff. A register shall be maintained of the retrenched staff and men will be called in order of seniority unless a man with different special skill is required.

So far as Kalipada Ghosh is concerned, he has been working in the supervisory capacity with the retrenchment of workmen reducing the supervisory staff became inevitable. It is agreed that with the increase of quota by 3 tons in the month Kalipada Ghosh will be retaken. In view of the circumstances under which the Company was forced to take recourse to retrenchment, compensation for the period of unemployment should be granted.

Demands (d) and (g).

Both gratuity and provident fund have been granted and, this being a small concern, it is not feasible to start a Provident Fund. I award the following Gratuity Rules:—

- (i) On retirement after not less than 25 years of continuous service—Half-a-month's pay for each completed year of service subject to a maximum of 15 months' basic pay.
- (ii) On death of the employee while in service—Half-a-month's pay for each completed year of service, irrespective of the length of service but subject to a maximum of 15 months' basic pay, paid to the employee's heirs.
- (iii) On resignation or retirement at any time before the completion of 25 years of service, with the written consent of the employer, owing to illness, old age or any other sufficient cause—Half-a-month's pay for each year of completed service.
- (iv) On termination of service by the employer either as the result of reduction of establishment or in any other circumstance not justifying dismissal—Half-a-month's pay for each completed year of service, irrespective of the length of service.
- (v) No gratuity shall be payable if the employee is dismissed for misconduct.
- (vi) Gratuity is to be calculated on the basis of average substantive pay during the last 12 months of service.

Demands (e) and (f).

The press boys are the men who really handle the materials to the workmen for work. Their wages vary from Rs. 1-2 to Rs. 1-4 per day. The wages of coolies vary from Rs. 1-4 to Rs. 2-4 a day. The wages of vice-men or helpers vary from Rs. 2-4 to Rs. 3-6. There is only one man on Rs. 3-6 a day and most of the others on Rs. 2-10 or Rs. 2-12 a day. Over and above this, they get dearness allowance at the rate of Rs. 20 a month. In my opinion, the workers do not require any interference. Looking to the wages, I award that the workers shall get dearness allowance at the rate of Rs. 22-8 a month.

Demand (h).

This is a small concern and weathering is very badly on account of raw materials. I do not think I shall be justified to lay down any rule giving bonus permanently. This must depend on production and trade conditions which may vary in different years. The question of bonus is therefore, left outside adjudication.

NOTIFICATION.

Subject:—Correct preparation of P.L.I. Pro Schedule.

No. TM/159.—23rd May 1949.—It has noticed that schedules showing the deductions pay on account of Postal Life Insurance prepared and furnished by drawing officers with the bills are, in most cases, defective. certified lists of P.L.I. premium, which are prepared by this office on the basis of those schedules furnished to the Postal Audit Officer contain inaccuracies causing thereby not only inconvenience to all concerned but also much unnecessary and avoidable correspondence. In order to rectify this and also for the interest of the insured themselves, all drawing officers (both Central and Provincial) under the audit of this office are requested to take particular care in preparing P.L.I. Schedules correctly and completely and doing so they should observe carefully the following instructions:—

- (a) Correct policy number, amount, and name and designation of the insured should invariably be noted in schedule.
- (b) The correct policy numbers of all Government servants under a drawing officer should now be verified by him personally with reference to the actual policy and other connected documents in possession of the insured.

n cases where the name of an insurant is shown for the first time in the schedule the place at, and the date on which the premium was last paid and the designation of the last Civil Accounts Officer responsible for accounting for the premium should be noted in the schedule.

u cases where the insurant is a new subscriber and credit against his name is shown for the first time, a remark to that effect should be made in the schedule.

l Treasury Officers and Sub-Treasury u West Bengal should also note the above

AWARD.**Issues Nos. 1 and 2.—Pay and dearness allowance.**

These two firms of solicitors came to be associated with the Bengal Chamber of Commerce in their attempt to help the employees to get the benefit of cheap ration which the latter had been procuring for the employees of its members. The co-membership with the mercantile firms does not rest on the nature of the business. Fundamentally, the two are different: in one profit is obtained by exploiting capital while in the other money is obtained by rendering personal service. The question is how much a wage earner shall be asked to part with for the help in mechanical part of the work. Here the question is what one labour should give to another labour for the assistance the latter gives to the former and not what "capital" should give to the labour. The solicitors receive their fees for the work they do for their clients. For such work, they supply the brain and the staff supply the mechanical part of the work. The approach to these cases must be different from what we have adopted in capitalistic concerns. In this case we are confronted with the question as to what should be the value of the assistance, the staff renders to the solicitors. Sri B. K. Chowdhury suggested a ratio of the income of the Solicitors' firm (fees earned by the solicitors) for the clerks and menials. The acceptance of the ratio would not help the

In making the apportionment which means preparing the pay scales, we shall have to consider the following points:—

(i) There are too many matriculates in both the firms indicating that a very high degree of efficiency is not required. There may be very excellent non-matriculate clerks but, generally speaking, efficiency is the result of higher education.

(ii) There are numerous family groups amongst the employees. This shows that the firm offers places for these dependants of the employees who cannot find better occupation elsewhere. This is something like insurance of the family against unemployment and it is of great importance in a country which is full of unemployed with no scheme of unemployment insurance.

(iii) We had the advantage of looking to the scales of pay of some similar firms.

(iv) We fixed a higher pay for the mercantile firms for higher efficiency and absence of security of service. These elements are almost wanting.

Bearing in mind the above considerations we fix the following scales of pay and dearness allowance:—

For Clerical Staff.

Sub-normal grade—Rs. 50—2—96.

Lower division clerks—Rs. 65—3—125.

Upper division clerks—Rs. 100—5—150 E. B.—5—200.

Above Rs. 200 at the discretion of the employer.

Ordinary typists will rank as lower division clerks.

Stenographers.

Lower division—Rs. 80—5—140.

Upper division—Rs. 100—5—150 E.B.—5—200.

Non-matriculate stenographers shall be placed in the Lower Division. Non-matriculいたes, if found competent and efficient, shall be placed in other grade.

The following conditions must be satisfied before a Stenographer is placed in the Upper Division—

- (a) must be a matriculate;
- (b) must take dictation correctly at a speed of 100 words per minute;
- (c) must correctly type 30 to 35 words per minute.

Immediately after publication of the award, a test will be held and those who satisfy the above standard shall be placed in the Upper Division. Promotion of a non-matriculate to the Upper Division shall be at the discretion of the Company.

Immediately on the publication of the award, the clerks shall be placed in grades. No person whose present salary is above the maximum of any grade shall be placed in that grade. If the present pay of any clerk does not fall on any stage of the time-scale, he shall be placed at the next higher stage.

Probationers will get the lowest salary of the grade to which they are appointed.

Clerical staff shall draw Dearness Allowance according to the following scales:—

Salary up to Rs. 100—Rs. 45.

Salary up to Rs. 150—Rs. 50.

Salary up to Rs. 200—Rs. 65.

Salary up to Rs. 250—Rs. 70.

Salary of Rs. 300 and above—Rs. 90.

Subordinate Staff.

They shall get Dearness Allowance at the rate of Rs. 30 a month.

The pays of sweepers and washermen shall be affected unless they are whole-time employees.

The basic salary shall not be less than Rs. 25 and those who are getting less than Rs. 25 shall be pulled up to this figure.

Issue No. 3.—Retiring benefits and benefits on termination of service.

For all whole-time employees we award 40 per cent. Contributory Provident Fund. In the case of Sandersons and Morgans the life insurance premia for the staff shall be paid out of the firm. Whatever else exists in addition to what is covered by the award will be discretionary.

Issue No. 4.—Bonus.

The only claim was for profit-sharing which was given up. Some bonus has been given in the past and we recommend that in cases where income permits, some bonus in the shape of expenses be given.

Issue No. 5.—Canteen and tiffin.

According to our scheme we consider that there should be *ex gratia* and therefore left out of adjudication.

Issues Nos. 6 and 7.—Accommodation allowances and children's education facilities.

The claims under these heads are disallowed.

Issue No. 8.—Medical aid.

The existing facilities shall continue.

Issue No. 9.—Working hours and holiday overtime.

Working hours.

The present rules do stand.

Holidays.

On the basis of the recommendation of the Committee of Solicitors made in February, 1949 we award—

- (a) 21 days during the Pujahs including Bank holidays intervening, and
- (b) all other holidays under the Negotiable Instruments Act.

Overtime.

Overtime shall be paid when the employee is asked to work beyond office hours by the competent authority. (The firm shall notify the competent authorities.) The basis of payment shall be on the basis of the hourly basis of pay. For the purpose of this arrangement, the hourly basic pay of the individual's monthly basic pay divided by 30.

Work on Sundays and holidays shall also be paid at this rate.

Issue No. 10.—Leave.

We frame the leave rules as given below:—

Casual leave—Eight days on full pay.

Privilege leave—Fifteen days on full pay (accumulation up to two years).

Sick leave—Seven days on full pay. There will be no limit to accumulation and it shall be enjoyed in excess of seven days, if certified by the firm's doctor.

Issue No. 11.—Travelling allowance on duty and also on leave.

Travelling allowance on duty shall be paid at the rate of Rs. 10 per day. Travelling allowance while on leave shall be paid at the rate of Rs. 5 per day.

15.—Uniforms and umbrellas for menials.

Issue No. 12.—Service conditions.**(a) Probation and confirmation.**

(b) Service record.

comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the rules which must precede any punishment.

first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the evidence on which this is based. The person proceeded against shall submit his explanation. A future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the charge and the punishment proposed to be inflicted. The employee will get an opportunity to plead about the punishment only at this time. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and decide what he thinks best. If the enquiring officer is anybody other than the Head of the Department at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the competent authority to punish and that authority will then pass orders. The authority be other than the Head of the Department at Calcutta, an appeal shall lie likewise with the Head of the Concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the Head of the Concern at Calcutta who will hear the person proceeded against and then pass orders. The person proceeded against shall have always the right to be defended by any other employee or by a retired employee. These are domestic matters and bringing outside agencies is not to the person proceeded against. Any person may defend a person proceeded against without the permission of the enquiring officer.

hope that the rules framed by us will allay apprehensions about abrupt termination of service and will give to the employees a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing sixty years. An employee is given an option of retirement at 55. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment rules: Recruitment, Promotion and Transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of clerks is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The Employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's grade. We award that there should be no bar to promotion from clerical grade to the Officer's grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment.

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the Head of the Concern at Calcutta, an appeal shall lie likewise with the Head of the Concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the Head of the Concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13—Recruitment rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of staff is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's grade. We award that there should be no bar to promotion from clerical grade to the Officer's grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

The two companies have since been amalgamated and the award which we propose to give bind the employers and employees (clerical subordinate staffs) of the two companies amalgamated.

Pay and Dearness Allowance.

Both the parties have been paying all employees both clerical and subordinate dearness allowance, according to the Bengal Chamber of Commerce scheme and have substantially adopted the Bengal Chamber of Commerce scale of grades and scales of salary as they existed to the recent award. In modification of existing grades and scales of salary we lay down the following:—

Clerical staff.

Special Grade: Rs. 260 and upwards, the increment and the rates of increment being left to the discretion of the employers.

(Grade A: Rs. 160—10—260.

(Grade B: Rs. 110—7—180.

(Grade C: Rs. 70—4—134.

For fitting the members of the existing staffs to the revised grades and scales, we direct that members of the clerical staff shall be paid an increment of Rs. 10. If by such increment the salary of any member does not reconcile with any scale in the revised scales, he shall be placed at the next higher stage. All members of the subordinate staff drawing less than Rs. 30 shall be pulled up to Rs. 30 and by way of adjustment the dearness allowance shall be reduced by the amount which his pay is increased.

The clerks shall get dearness allowance, according to the Bengal Chamber of Commerce scheme and members of the subordinate staff shall get the Bengal Chamber of Commerce scheme less the amount by which his initial pay is increased. For future recruits to the subordinate staff dearness allowance shall be according to the Bengal Chamber of Commerce scheme less Rs. 10.

In the case of a clerk who has served for 10 or more years and who dies during service, his widow will receive full pension up to 5 years and thereafter one-third of the pension for life. In the case of a bachelor, this will apply where he has a widowed mother or invalid father.

In the case of an employee who has served for 15 years or more and who dies during service and whose wife has predeceased him, his full pension up to 5 years from the date of his death will be payable to his children, if any. In no case will the pension be payable to any children over 18 years of age.

Widows will not be paid to widows of menials. Pension may be paid entirely at the discretion of the firm to widows of menials, with satisfactory service, who die during the course of their employment with the firm:—

15 years' service and over—2 months' basic salary.

2½ years' service and under 15 years—2½ months' basic salary.

Over 15 years' service and under 17½ years—3 months' basic salary.

Over 22½ years' service and under 25 years—4½ months' basic salary.

Over 25 years' service and under 27½ years—5 months' basic salary.

Over 27½ years' service and under 30 years—5½ months' basic salary.

Over 30 years' service—6 months' basic salary or Rs. 500 whichever is the lesser amount.

There is slight difference in the rules. With the concurrence of both the parties, we direct that the existing rules shall govern members of the existing staffs. The rules of Messrs. Macneill & Co. which appear to be more favourable to the employees shall be adopted by the new Company. For future recruits, a recognised Provident Fund shall be started with contribution of 10 per cent. of the salary for a clerk and 6½ per cent. of the salary for members of the subordinate staff. The employers shall add to the contribution of the employees at the end of each year an amount equal to the contribution of the employees in the year. The rules of the Provident Fund shall be framed in consultation with the Union and the main feature shall be:—

(A) That the employer's contribution shall be payable to the employee in whatever way his service may terminate.

(B) The employer's contribution shall be paid according to the following principles:—

(a) If any subscriber resigns or leaves his employment at his own request otherwise than by reason of superannuation or on medical grounds or on the ground of age, deduction, according to the scales specified below, shall be made from the amount paid into the subscriber's account by the employer (including interest accrued to the employer's contribution):—

(i) Subscribers less than 10 years' standing—100 per cent.

(ii) Subscribers of 10 years but less than 15 years' standing—50 per cent.

(iii) Subscribers of 15 years but less than 20 years' standing—25 per cent.

(iv) Subscribers of 20 years' standing or more—Nil.

(b) If any subscriber be dismissed for serious misconduct, the Company will have the discretion to withhold the entire contribution of the Company together with interest that has accrued.

(c) In case of death or retirement due to old age or ill-health (to be certified by the Company's doctor) or retrenchment, 10 years' service shall be the minimum qualifying service for the entire of the Company's contribution. And deduction shall be made according to the following scales:—

(i) Subscribers of less than 3 years' standing—100 per cent.

(ii) Subscribers of 3 years but less than 6 years' standing—50 per cent.

(iii) Subscribers of 6 years but less than 10 years' standing—25 per cent.

(iv) Subscribers of 10 years or more—Nil.

Working hours, Overtime allowance, Leave and Holidays:

Working hours are:—

Week days: 10 a.m. to 5 p.m. with half an hour recess.

Saturdays: 10 a.m. to 1-30 p.m. with no recess. The existing hours shall continue.

In consideration of the Company's Scheme of tiffin allowance, we do not propose to lay down any rigid rule for allowance for overtime work on week days. The point is left entirely to the discretion of the employers. For works on Sundays and holidays, the Companies are agreeable to pay allowance according to the award recently given in the case of Bengal Chamber of Commerce.

"Any member of the clerical or subordinate staff required, on direct instructions from the Officer-in-charge of the department concerned, to work on a Sunday or recognised holiday to be paid $1\frac{1}{2}$ times his hourly basic pay, but subject to a minimum of three hours' basic pay and a maximum of six hours' work. For the purposes of this calculation, hourly basic pay will be the individual's monthly basic pay divided by 160, being the average monthly working hours."

The existing leave rules of the two Companies are substantially the same. There is however some difference in the case of the menial staff. The Companies are, however, willing to adopt the rules of Messrs. Macneill & Co. which are more favourable to the employees. The rules are:—

Clerical staff.

(1) Privilege leave—14 days per year on full pay, cumulative for 2 years.

(2) Casual leave—10 days per year on full pay, non-cumulative.

(3) Sick leave—Up to a total of one month on full pay and two months on half pay each year provided absence is supported by medical certificate. Additional sick leave with or without pay is at the discretion of the firm.

Menial staff.

(1) One month's leave after completion of one year's continuous and satisfactory service, cumulative up to a maximum of 3 months on full pay.

(2) After completion of one year's service, sick leave in genuine cases to the extent of 30 days in one year on recommendation of office doctor.

We award accordingly.

Both the Companies observe all gazetted holidays. Hence no interference is called for. The existing principles will continue.

Issue No. 12—Service conditions.

(a) Probation and confirmation.

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And

Issue No. 14—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal punishment. The employer has no doubt right of punishing an employee but we frame following rules which must precede any punishment:

The first thing to be done is that a charge be framed and the person proceeded against be furnished with a copy of the charge on facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the person to be enquired into. If the person proceeded against is found innocent, the matter ends. However, he is found guilty the employee concerned shall be supplied with a copy of the finding and the punishment proposed to be imposed. The employee will get an opportunity again to enquire about the punishment only at this stage. The enquiring officer himself is competent to impose punishment on the person proceeded against. He will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the Head of the Concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the matter to the authority competent to punish and that authority will hear the person again and then order. If that authority be other than the Head of the Concern at Calcutta, an appeal shall likewise lie with the Head of the Concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be submitted before the Head of the Concern at Calcutta. He will hear the person proceeded against and pass orders. The clerk proceeded against shall always have the right to be defended by any employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of service and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completion of 55 years. We do not favour extension of service thereby blocking the way for younger people to get employments. In exceptional cases where the employee and the employer agree, extension of services may be granted.

Issue No. 13—Recruitment Rules: Recruitment, Promotion and Transfer.

Transfer means allocation of different duties. The Federation wants that there should not be any such transfer. We feel, however, that transfer of a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Union or the Federation. The Employer will select his own men.

Recruitment.

(i) Other things being equal, preference shall be given to relations of employees, retired or on service. Between relations of employees, appointment shall go to the more qualified.

(ii) Preference should be given to retired employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grades shall be the rule. Only in exceptional cases, recruitment may be made from outside.

comes the question of promotion from the grade to the officer's grade. We award there should be no bar to promotion from grade to the officer's grade or from sub-grade to clerical grade. As selection must be on the management, we cannot dictate that a percentage or a certain number of clerks be promoted to the officer's grade. This must be on suitability according to the standard management. We, however, like to remind that promotions do change the outlook of the staff and are conducive to more efficient work by the staff.

10. 17—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

House rent allowance.

It has already been taken into account in fixing basic salary. Employees' demand on this point is rejected.

Children's Education Allowance.

It is an *ex gratia* payment. This is kept out of adjudication.

Canteen and Tiffin.

Two Companies are paying some tiffin allowance to the employees and we have been told that the Companies have no intention to change this. In consideration of this we did not lay down any rigid rule but allowance for work on week days. The employees of Messrs. Macneill & Co. are getting nine annas per day for the employees of Messrs. Barry & Co. getting eight annas per day from Monday to Friday. For the sake of uniformity, since the two Companies have been amalgamated, we recommend all employees be paid tiffin allowance at the rate of nine annas per day for five days in a week—Monday to Friday. Tea is supplied free on six days. This shall also continue.

Bonus.

Only demand in the written statement of the Company was for profit-sharing bonus, which was recently abandoned through Mr. N. De, Chairman. The Companies are however paying bonus and we have been assured that they do not contemplate to discontinue it. On this point we leave the question outside adjudication.

Medical Aid.

Two Companies have some arrangements and do not propose to enlarge on them.

Uniforms and umbrellas.

Uniforms shall be supplied to the menials and umbrellas for outdoor works.

Travelling allowance.

Travelling allowance shall be allowed for journey when on duty. The Union's demand for allowance to employees on leave is rejected.

AWARD.

Issues Nos. 1 and 2.—Pay and dearness allowance.

The Company had the following grades of pay which were not communicated to the employees:—

General Office Staff—

- Grade A—Rs. 200—10—300.
- Grade B—Rs. 101—7—250.
- Grade C—Rs. 66—3—135.
- Grade D—Rs. 30—3—100.

Stenographers—

- Head Stenographer—Rs. 250—10—350.
- Senior Stenographer—Rs. 100—7—250.
- Junior Stenographer—Rs. 80—5—115.

For the General Staff we award the following grades:—

- Grade A—Rs. 200—10—300.
- Grade B—Rs. 110—7—250.
- Grade C—Rs. 70—4—138.
- Grade D—Rs. 65—3—134.

The grades of Stenographers remain unaltered. Typists shall not be placed below C Grade.

We provide for D Grade as there are too many non-matriculantes. This grade is meant for non-matriculantes who cannot be promoted higher.

For employees drawing up to Rs. 100 per month as salary in C and D Grades, there will be an increment of 10 per cent. of the salary and for those drawing Rs. 101 or more, there will be 8 per cent. increase but not exceeding two increments in Grade C and 3 increments in Grade D. The salary thus increased shall not exceed the maximum of the grade. If, despite the increment

any man is below the lowest limit of the scale, he shall be pulled up to that limit. If the salary of any man does not fall in any stage in his scale, he shall be put at the next higher stage.

Probationers shall draw the lowest salary of grade to which they are appointed.

Clerks shall draw dearness allowance according to the Bengal Chamber of Commerce scale at present.

Subordinate Staff.

Except a limited few none gets below Rs. 60 as basic salary and the total emoluments do not go below Rs. 60. Total emoluments thus are confirmed. Those who are getting less than Rs. 30 as basic pay, shall be pulled up to Rs. 30 and the increments thus given being deducted from dearness allowance.

The emoluments of part-time workers shall be regulated by contract.

Issue No. 3.—Retiring benefits and benefits on termination of service.

For Clerical Staff.

As at present, after three years of service, employee contributes 5 per cent. of his salary and the Company contributes 5 per cent. and this as premium a life insurance policy is obtained.

On account of varying ages and health of employees all do not get equal advantage. Advantages now offered fall short of the standard laid down by us.

We award opening a Contributory Provident Fund wherein the employer and the employee shall each contribute 10 per cent. of the salary. The premium for the life insurance shall be out of the fund of each. The policies may be assigned to the trustees of the Provident Fund who will pay the premium or the trust deed so framed that the management may be provided with funds to pay premium.

The rules shall be drawn up on the model Government of India Rules for factory workers.

For Subordinate Staff.

We approve of the recent Gratuity Bill framed and given below:—

After 10 years' continuous service.—One month's basic wages for each completed year of service.

After 15 years' continuous service.—1 1/4 quarters of a month's basic wages for each completed year of service.

After 20 years' continuous service.—2 months' basic wages for each completed year of service.

The new arrangements may be introduced from 1st July, 1949, and when time comes, the past services of the Subordinate Staff will be counted and the benefit without restrictions.

Issue No. 4.—Bonus.

The Company pays some bonus which is intended to be withdrawn. We have been asked that if profits permit, this may even be increased. In view of this, we leave the matter out for adjudication.

Issue No. 5.—Canteen and tiffin.

These, according to our scheme, are in the nature of *ex gratia* payments and are left out for adjudication.

Issues Nos. 6 and 7.—Accommodation allowance and children's education facilities.

The claims under these heads are disallowed.

Issue No. 8.—Medical aid.

There is a doctor and we do not propose to create the burden.

9.—Working hours and holidays and overtime.

a. hours.—The present system is moved.

b.—All holidays under Negotiable Instruments Act shall be observed as holidays.

c.—When called upon to do overtime under orders of the Manager, it shall be paid on the basis of Bengal Shops and Establishments Act.

Issue No. 10.—Leave.

Accumulations as at present shall continue. Amend accumulation of leave for two months.

11.—Travelling allowance on duty as also on leave.

Travelling allowance while on duty shall be the same as for travelling allowance while going on leave. It shall be disallowed.

10. 15.—Uniforms and umbrellas for menials.

to be given.

Issue No. 12.—Service conditions.

(a) Probation and confirmation.

It is ordered that the period of probation shall be six months though confirmation may be granted if the candidate is found suitable.

(b) Service record.

It is ordered that service records be maintained and adverse remarks shall be incorporated giving the person an opportunity of explanation.

Enquiry before punishment: And

14.—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last in, first out" shall be applied. Exceptions may be made in case of persons with exceptional service.

It is ordered that the question about dismissal and retrenchment of an employee has no doubt the right of the employer but we frame the following rules which must precede any punishment.

The first thing to be done is that a charge shall be made and the person proceeded against shall be provided with a copy of the charge and the evidence on which this is based. The person proceeded against shall submit his explanation. Then a date should be fixed for the matter to be heard. If the person proceeded against is innocent, the matter ends. If, however, he is found guilty the employee concerned shall be provided with a copy of the findings and the punishment proposed to be imposed. The employee shall get an opportunity again to plead his defence. If the officer himself is competent to inflict punishment on the person proceeded against, he shall hear the pleadings and order what he thinks fit. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall be made to him within seven days of the coming into force of the order punishing the employee. If the enquiring officer is not competent to punish, he shall forward the proceedings to the authority competent to punish and that authority will hear the person again and then make an order. If that authority be other than the head of the concern at Calcutta, an appeal shall be made to him within seven days of the coming into force of the order punishing the employee. In all cases where the proposed punishment is dismissal or discharge the papers must be

laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel however that transfer of clerks is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the Clerical Grade to the Officer's Grade. We award that there should be no bar to promotion from Clerical Grade to the Officer's Grade or from subordinate staff to Clerical Grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Rule.

In the Konnagar Municipality, in the district of Hooghly, out of the nine seats to which Commissioners are to be elected under section 16 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), one seat shall be reserved for the Muslim community which is declared to be a minority community in the said municipality for the purpose of the election.

been held in the year 1946-47, the next general election will be as under sub-section (3) of section 24 of the said Act required to be held in the year 1950-51; but such general election cannot be held at that time as it would be of no use to do so in view of the fact that the four-year term of office of the present Commissioners of the said municipality, prescribed by clause (a) of sub-section (2) of section 56 of the said Act which commenced on the 31st January 1948, will not be completed until the 30th January 1952. Under the said sub-section (3) of section 24, therefore, the next general election cannot be held unless the term of office of the present Commissioners of the said municipality is extended beyond the 30th January 1952.

The Managing Director, Messrs. B. K. Paul & Co., Ltd.

Sir,

I beg to state that on the 11th January 1949, I lost my senses on hearing Bistoo Babu uttering "দরওয়ান দ্বারা গলা ধরে বের করে দেবে" to Swadesh Dass. As we considered that this was an insult to all clerical staff I protested and in doing so I might have offended Bistoo Babu and the management. I am however sorry for this and I hope to be excused for my unintentional offence under the peculiar circumstances stated above.

Yours obediently,

(Sd.) SACHINDRA MOHAN DUTTA.

AWARD.

Issues Nos. 1 and 2—Pay and Dearness Allowance.

Clerical staff.—We recast the grades as follows:—

Grade D—Rs. 70—3—130.

Grade C—Rs. 70—4—134.

Grade B—Rs. 110—7—180.

Grade A—Rs. 160—10—260.

Special Grade—Rs. 260 and upwards at discretion of the Company.

Grade D must be abolished after retirement of the persons in the grade. No new recruitment in the grade be made. This grade should be confined to Sircars and Jetty Sircars and employees of that nature.

A flat increment of Rs. 10 be given to all if the salary of any person does not fall in the time-scale, he shall be given the higher stage. As employees are already in different grades and some, on account of increments, have not been promoted to higher grades, they will be drawing more than maximum, they will be drawn those grades and the amount in excess of maximum of the grade shall be present pay. In future no man shall be kept in a grade more than the maximum of the grade.

They shall draw dearness allowance according to the Bengal Chamber of Commerce scale.

Subordinate staff.—No one gets less than Rs. 30 as total emoluments, though some get less than Rs. 30 as basic pay. Those who are below that figure and the amount of increment to be deducted from the dearness allowance is made.

Issue No. 3—Retiring benefits and benefits on termination of service.

The Company rules with modification made by stand at—

(a) Provident Fund—

5 per cent. of salary in first 10 years of service.

6½ per cent. of salary in second 10 years of service.

7½ per cent. of salary thereafter.

C. B.—The Company pays to each member of staff as salary, over and above his basic salary, an equal to his contribution to the Fund; in effect the Fund is therefore a non-contributing fund of from 10 per cent. to 15 per cent. of salary, paid by the Employer.

The Fund was instituted from 1st November 1947 and covers all staff.

b) To cater for service before the fund was started in November 1947 Company also contribute per cent. of total monthly salaries into a separate Indian Staff Trust Fund from which to provide monthly allowances, or retiring gratuities in respect of service prior to November 1947. Service after that date will be covered by the Provident Fund.

The undernoted scale of allowances is paid:—

Years of service completed at date of commencement of Indian Staff Provident Fund.	Percentage of basic salary at date of commencement of Indian Staff Provident Fund to be taken as basis for recommendation of a monthly allowance.
--	---

	Per cent.
20/24	... 32½
24	... 35
25	... 37½
26	... 40
27	... 42½
28	... 45
29	... 47½
30 and over	... 50

In case of death before or after retirement the staff will get monthly pension multiplied by 96 the amounts drawn as pension.

This scale does not cover staff with less than 20 years of service at the date of institution of the Provident Fund; such a case has not yet arisen but would be dealt with on its merits. We award a fixed scale on the following lines.

For employees retiring with the sanction of the Company, gratuities as follows to be payable in addition to Provident Fund in terms of the scale:—

5 years or over but under 20 years' service.—One month's basic pay for each completed year of service.

10 years or over but under 15 years' service.—Half a month's basic pay for each completed year of service.

15 years or over but under 10 years' service.—One-third of a month's basic pay for each completed year of service."

The award in these cases...

Issue No. 4—Bonus.

The only claim was for profit-sharing bonus which has been abandoned. The Company pays some bonus and we have been assured that there is no intention to discontinue it. We leave this matter outside adjudication.

Issue No. 5—Canteen and tiffin.

According to our scheme, these are in the nature of *ex gratia* payments and are left outside adjudication. The Company supply free tea during the day.

Issues Nos. 6 and 7—Accommodation allowance and children's education facilities.

The claims under these heads are refused.

Issue No. 8—Medical aid.

The Company employ qualified doctor who visits the office three times weekly in addition to which staff are free to attend his dispensary as necessary. Medicines prescribed by him for the subordinate staff are paid for by the Company. The Company also agree that in case of illness of clerical staff the doctor shall, on requisition by the employee concerned, through the Manager, attend him at his residence in Calcutta within 4 miles radius from the office. We do not propose to enlarge on the arrangements.

Issue No. 9—Working hours and holidays and overtime.

We award as follows:—

Working hours:—

9-30 a.m. to 5 p.m. on Monday to Friday and 9-30 a.m. to 1 p.m. on Saturday, with half an hour for tiffin except on Saturdays.

The Company allow 15 minutes grace for attendance.

We confirm this.

Holidays.—All holidays under Negotiable Instruments Act shall be observed as holidays.

(Overtime.)—The existing rules (quoted below) shall prevail: "Staff required, on direct instructions from the Departmental Heads, to work on a Sunday or recognised holiday, are paid at the rate of basic salaries with dearness allowance at current rates; Saturday afternoons are regarded as public holidays and count as half a day."

Issue No. 10—Leave.

The existing rules (given below) shall prevail:—

(a) Privilege Leave.—Each member of the clerical and subordinate staff is entitled to 14 days' privilege leave on full pay each year ending 31st December, increased by one day for every two completed years of service with the Company up to a maximum of 28 days inclusive of Sundays at the end of 28 years' service.

(b) Casual Leave.—In addition to privilege leave each employee is entitled to 10 days' casual leave per annum; casual leave will not be cumulative.

(c) Sick Leave.—Subject to approved medical certification one month on full pay and two months on half pay with discretion to extend the period with or without pay in proved cases of prolonged illness involving hardship.

Issue No. 11—Travelling allowance on duty as also on leave.

Travelling allowance on duty is allowed while on duty but it is disallowed while on leave.

Issue No. 15—Uniforms and umbrellas for menials.

These are given.

Issue No. 12—Service conditions.*(a) Probation and confirmation.*

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

*(c) Enquiry before punishment, and***Issue No. 14—Dismissal, discharge and retrenchment or other punishments.**

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the Head of the Concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the Head of the Concern at Calcutta, an appeal shall lie likewise with the Head of the Concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the Head of the Concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of service, thereby blocking the way for younger people to get employments. In exceptional cases people in both the employer and the employee agree, extension of services may be granted.

Issue No. 13—Recruitment Rules: Recruitment Promotion and Transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel however that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the officer's grade. We award that there should be no bar to promotion from clerical grade to the officer's grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the officer's grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17—Recognition of the Union as sole Jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

AWARD.

Issues Nos. 1 and 2.—Pay and Dearness Allowance.

Clerical Staff.—Messrs. Boots Pure Drug Co. (England), Ltd., had been manufacturer of medicines and had branches in India for selling medicines. That Company liquidated its business here and some of the men of that firm with others started in 1946 Boots Pure Drug Co. (India), Ltd. It began functioning from May 1946. Their main business is to import Boots' products and to prepare some medicines here. They have established a laboratory in Bombay and by this time 20 varieties of medicines have been prepared. As the English Company stopped business here, the new Company re-employed the staff.

In May to December 1946 the Company suffered a loss in India to the extent of Rs. 2,73,613-14-1 and in 1947, Rs. 2,11,121-15-2.

The loss attributable to Calcutta Depot from May to December 1946 is Rs. 37,794-6-4 and from January to December Rs. 69,096-12-6, thus making a total loss of Rs. 1,06,891-2-10. The Company made some profit in 1948.

The business in Calcutta consists of selling medicines imported from England and prepared in Bombay. This is purely and literally a shop.

The reference to us has been about the clerical and subordinate staffs. The salesmen of the Company do not come under our reference. This position is conceded even by the Union.

There are two grades of clerks, viz., Rs. 100—8—180—10—250 and Rs. 60—6—120. Another junior grade of clerks has been abolished.

Though the starting salaries are lower than what we have prescribed for the Bengal Chamber of Commerce, the incremental scales are better and in case of the higher grade, the outward limit is better. We consider that it would not benefit the employees to raise the minimum and reduce the incremental scales. We allow the grades to stand as they are. When the starting salaries are not raised, the question of flat increment fails. The Company gave one increment since its formation. In view of the losses sustained, this has been due to necessity rather than to perversity.

From now increments be given and nothing less than the full increment be given. Salaries of those persons which are not in stages of the time-scale be pulled up to the next higher stages.

The clerks shall draw Dearness Allowance according to the Bengal Chamber of Commerce scale.

Subordinate Staff.—Members of the subordinate staff get a fixed Dearness Allowance based on the Cost of Living Index. The present rate is Rs. 47-8 and liable to be varied by Rs. 2-8 for every variation of 10 pints.

Those whose pay is below Rs. 30 be pulled up to that figure and the amount of increment be deducted from the dearness allowance allowed. No other interference is made.

Increments may be stopped by way of punishment only for which the procedure to be adopted shall be gone into.

Issue No. 3.—Retiring benefits and benefits on termination of service.

We approve of the existing benefit granted by the Company, viz., Provident Fund contribution $6\frac{1}{4}$ per cent. to 10 per cent. on the option of the employee.

Issue No. 4.—Bonus.

The Company is struggling for its prosperity and paid $\frac{1}{2}$ month's pay as bonus despite loss. The Company have no intention to discontinue this unless business condition deteriorates. In this circumstance, we leave the matter outside adjudication.

Issue No. 5.—Canteen and tiffin.

According to our scheme, these are in the nature of *ex gratia* payments and are left outside adjudication.

Issues Nos. 6 and 7.—Accommodation allowance and children's education facilities.

The claims under these heads are disallowed.

Issue No. 8.—Medical aid.

We do not propose to force the Company to do anything beyond their desire.

Issue No. 9.—Working hours and holidays and overtime.

Working hours.—We award—

9-30 a.m. to 5 p.m. on Monday to Friday with one break for tiffin.

9-30 a.m. to 1-30 p.m. on Saturday.

Holidays.—All holidays under Negotiable Instruments Act are to be observed as holidays.

Overtime.—This should be paid as under Bengal Shops and Establishments Act when detained by order. It goes without saying that punctuality shall be observed. Late attendance without sufficient grounds cannot be encouraged.

Issue No. 10.—Leave.

The maximum leave allowable under the Establishments Act be allowed.

Issue No. 11.—Travelling allowance on duty and also on leave.

Travelling allowance on duty be paid. Travelling allowance while on leave is disallowed.

Issue No. 15.—Uniforms and umbrellas.

These be allowed for office work only.

Issue No. 12.—Service conditions.

(a) **Probation and confirmation.**—It is that the period of probation shall not be more than 6 months though confirmation may be made if the candidate is found suitable.

(b) **Service record.**—We award that records be maintained and that adverse remarks shall be incorporated after giving the person opportunity of explaining his conduct.

(c) **Enquiry before punishment:** And

Issue No. 14.—Dismissal, discharge and retirement or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exception may be made in case of persons with exceptional abilities.

Now comes the question about dismissal or punishment. The employer has no doubt the right of punishing an employee but we frame following rules which must precede any punishment:

The first thing to be done is that a charge be framed and the person proceeded against be furnished with a copy of the charge and facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the person to be enquired into. If the person proceeded against is found innocent, the matter ends. However, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is not a body other than the Head of the Concern at Calcutta, an appeal shall lie with him within 7 days of the communication of the order passed against the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the employee again and then pass orders. If that authority is other than the Head of the Concern at Calcutta, an appeal shall lie likewise with the Head of the Concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal, the papers must be laid before the Head of the Concern at Calcutta who will hear the person proceeded against and then pass orders. The person proceeded against shall have always the right to be defended by any other employee or by any retired employee. These are domestic matters and bringing outside agencies is not allowed. The person proceeded against shall defend himself. A person proceeded against with the sanction of the enquiring officer.

hope that the rules framed by us will allay apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

Retiring age.—We decide that a man shall on completing 55 years. We do not favour an extension of services, thereby blocking the way for younger people to get employments. In special cases where both the employer and employee agree, extension of services may be allowed.

No. 13.—Recruitment Rules: Recruitment, Promotion and Transfer.

Transfer means allocation of different work. The Federation wants that there should not be any transfer. We feel however that transfer is necessary for two purposes: (1) to enable a particular clerk know work of the various departments; and (2) for stock taking of arrears of work by one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Appointment.—(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the most qualified.

Preference should be given to retrenched employees, if qualified.

In the matter of appointment to the higher grade of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

When comes the question of promotion from the lower grade to the officer's grade. We award here should be no bar to promotion from lower grade to the officer's grade or from subordinate staff to clerical grade. As selection must be left to the management, we cannot dictate a certain percentage or a certain number of employees must be promoted to the officer's grade. It must depend on suitability according to the order of the management. We, however, like and find that such promotions do change the work of the clerk and are conducive to more efficient work by the clerical staff.

No. 17.—Recognition of the Unions as also Jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of settlement and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

AWARD.

Issues Nos. 1 and 2—Pay and dearness allowance.

Clerical Staff.

We lay down the following grades:—

Special grade—Rs. 260 and upwards at the discretion of the Company.

Grade A—Rs. 160—10—260.

Grade B—Rs. 110—7—180.

Grade C—Rs. 70—4—134.

Grade D—Rs. 65—2—95—E.B.—3—140.

Grade C is meant for sircars only. Except the sircars the other employees of D grade be transferred to C grade. Those who have put in 20 years of service or more must not get less than Rs. 95 in case of sircars and not less than Rs. 130 in case of clerks.

Probationers shall get the minimum salary of the grade to which they are appointed.

All clerks be given a flat increment of Rs. 10. If after this increment, the salary of any clerk does not fall in any stage of the time scale, he shall be placed at the next stage.

In case of D grade, the salary of no person shall exceed the maximum of the grade after increment.

One man shall not go below C grade and another shall not go below B grade.

The clerical staff shall draw dearness allowance according to the Bengal Chamber of Commerce scale as at present.

Subordinate Staff.

The total emoluments do not go below Rs. 30 and these do not call for interference. Adjustment is necessary as the basic salary is less than Rs. 30 in many cases. The basic salary of each clerk be raised to this amount and the amount of increase be deducted from dearness allowance. No other interference is made.

The dearness allowance shall be according to the Bengal Chamber of Commerce scheme as notified above.

Issue No. 3—Retiring benefits and benefits on termination of service.

The retiring benefits allowed will appear from the following statement made by the Chief Accountant of the Company to us:—

“For clerks we have at present a 10 per cent. Contributory Provident Fund, to which the employees contribute 10 per cent. of their salary and the employers contribute an equal sum. The Provident Fund was a 5 per cent. Contributory Provident Fund and has recently been converted into a 10 per cent. Provident Fund.

The 5 per cent. Provident Fund was started in 1929. This was for the Indian Clerical Staff. In 1941, a fund was created by amalgamation of two previous funds—one for the Assam Branch and the other for the Calcutta Branch. This was known as Indian Staff Provident Fund. This was for clerical and subordinate staffs. For those who entered the Company's service prior to 1929 (clerks), we had a staff contingency fund for which was set aside an annual sum to pay gratuities to the long service employees. The annual sum was set aside at half month's salary for each completed year of service. This was entirely at the discretion of the Directors. Each case was considered by the Directors on its merit on the recommendation of the General Manager. There was a similar rule for the subordinate staff.

There is no provision for similar gratuity for subordinate staff after 1929 but prior to inauguration of the 10 per cent. Contributory Provident Fund.

These rules are applicable to the entire Indian Staffs (clerical and subordinate).”

Let us consider this in relation to the employees of the two categories: clerks and subordinate staff.

Clerks.

The present benefits are up to the standard prescribed by us. Now about the period prior to introduction of 10 per cent. Provident Fund. This period may be divided in two parts, the period prior to the introduction of 5 per cent. Provident Fund and the period after that. As during the period of 5 per cent. Provident Fund there was a guaranteed interest of 4 per cent. we can consider that to be unreasonable according to the standard then prevailing. No interference is made in this is necessary. Now about the period prior to the introduction of 5 per cent. Provident Fund the Company provide for payment of half month's salary for each completed year of service. It is direct that the gratuity shall be calculated on the basis of pay on the date of retirement.

Subordinate Staff.

They came under 5 per cent. Provident Fund scheme in 1941 which was raised to 10 per cent. in 1947. For the period prior to the introduction of 5 per cent. Provident Fund, for subordinate staff we award gratuity at the rate of half month's salary for each year of completed service. The present rule is that the gratuity shall be calculated on the basis of pay on the date of retirement.

for to the introduction of the award shall be and the period of leave without pay included in computing the period of leave on these terms.

Issue No. 4—Bonus.

rd of Directors in their letter No. 46J, January 1949, outlined a scheme of bonus thus:

letter No. 418 of 6th January 1948 we convey the Board's intention of allocating a percentage of the Branch profits to all with the equivalent of one month's minimum participation. They have decided that until further notice, and as long as the branch continues to earn good profits the minimum of the Indian Staff will be at the rate of 1% of the Branch profits as adjusted for staff Commission, distribution to be *pro rata* drawn for the year under review. This will have effect in respect of the current year.

of course, be fully appreciated that if a material drop in the standard of profits is incurred, this policy, including the payment of a minimum amount as bonus, will be reconsidered. Commissions cannot be paid in the event of losses.

We approve of and confirm the scheme.

Issue No. 5—Canteen and tiffin.

According to our scheme, these are *ex gratia* and are, therefore, left outside adjudication.

Issues No. 6 and 7—Accommodation allowance and children's education facilities.

These are disallowed under these heads.

Issue No. 8—Medical aid.

If an employee is employed by the Company. In case of illness only recommendations are made to the Directors and amounts sanctioned are for subordinate staff are, however, for the staff of B. L. Pal's Pharmacy where the attendance prescribes medicines. The Company pays for the medicines.

As the employees are not deprived of medical facilities offered by the State in this respect. It is the obligation on the part of the employer to provide for treatment. Concessions must be the goodness of the employer. As there is no compulsion in goodness we leave the matter to the kind discretion of the Company.

Issue No. 9—Working hours and holidays and overtime.

We describe the working hours as follows:

For clerical staff six hours in the week for clerical staff including mid-day recess from Mondays to Fridays. The recess shall be for half an hour.

For subordinate staff the period shall be six hours in the week excluding recess.

Days under the Negotiable Instruments Act shall be observed as holidays.

There shall be paid to the clerical and subordinate staff according to the scales laid down in the Government Establishments Act.

Issue No. 10—Leave.

Leave shall be allowed—

A. Annual leave—Ten days annually (non-cumulative) up to 10 years.

B. Casual leave—Ten days annually (non-cumulative).

C. Sick leave—Subject to proper medical certificate—

One month on full pay.

Two months on half pay.

We confirm these both for clerical and subordinate staffs.

Issue No. 11—Travelling allowance on duty as also on leave.

Travelling allowance while on leave is disallowed. Travelling allowance while on duty is paid.

Issue No. 15—Umbrellas and uniforms for menials.

These be given for official work.

Issue No. 12—Service conditions.

(a) Probation and confirmation.

It is awarded that the period of probation shall not exceed 6 months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And

Issue No. 14—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the Head of the Concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the Head of the Concern at Calcutta, an appeal shall lie likewise with the Head of the Concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the Head of the Concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outside

may defend a person proceeded against with the permission of the enquiring officer. We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13—Recruitment Rules: Recruitment, Promotion and Transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

ORDER.

No. 2722Lab.—3rd June 1949.—Whereas the Government of West Bengal, Commerce, Labour and Industries Department, order No. Lab., dated the 17th January 1948, the industrial disputes that had arisen or were apprehended between the employers of mercantile firms and their clerical and all subordinate staffs in two lists Nos. 1 and 2 annexed to the said offices as represented by some trade unions mentioned against firms in column 2 of the said list, and others represented by other registered trade unions as might have been permitted by the Industrial Tribunal to be mentioned to be represented individually for legitimate reasons, were referred for adjudication to a Tribunal constituted by Sri Ashutosh Gupta, Additional District Judge, as Chairman, Sri Sailesh Chandra Chakravarty and Sri Chandra Dutta Gupta, Additional District Judge, as Members;

And whereas the services of Sri Sudhir Chandra Dutta Gupta, one of the members of the said Tribunal, having no longer been available, the said man and Sri Sailesh Chandra Chakravarty, member aforesaid, have given the award in the industrial dispute between one of the mentioned hereinbefore, namely, Messrs. PRESENT:

SRI ASHUTOSH DAS GUPTA, *Chairman*

AND

SRI SAILESH CHANDRA CHAKRAVARTY

A Tribunal was constituted by the Government of West Bengal, by order No. 135Lab., dated the 17th January 1948, with Sri Ashutosh Das Gupta as Chairman and Sri Sailesh Chandra Chakravarty as Member. Sri Sudhir Chandra Dutta Gupta was also a member of the Tribunal. Sri Sudhir Chandra Dutta Gupta has since been no longer available.

Appearance.

Company—Sri S. K. Mullick (Jr.) of Messrs. Sanderson and Morgans, Solicitors.

the Employees—Sri Jitendra Nath Banerjee, Secretary, Federation of Mercantile Employees' Unions.

AWARD.

Basic pay and dearness allowance.—The Commission have adopted the Bengal Chamber of Commerce Scheme as it existed prior to the recent revision. For the clerical staff the existing scale of dearness allowance shall stand but about basic pay, in supersession of the existing scheme, shall be as follows:—

Grade A—Rs. 260 and upwards. Scales of increment and the ceiling are left to the discretion of the employers.

Grade B—Rs. 160—10—260.

Grade C—Rs. 110—7—180.

Grade D—Rs. 70—4—134.

Clerks shall get a flat increment of Rs. 10. In such increment, the pay of any clerk is in two stages of the revised scales in the grade to which he belongs he must be placed at the higher stage and if despite such increment, the pay of any clerk is below Rs. 70 he must be placed up to Rs. 70. Probationers shall start at the lowest salary of the grade to which they belong. Stenographers shall not be placed below "B", and typists below grade "C".

It appears that the existing basic salary of the employees does not correspond to the length of service. In the past increments were based on seniority. If increments had been refused in the past on the ground of inefficiency, we cannot give such increments at this stage. In future increments may be withheld by way of punishment for misconduct. In such case the procedure of enquiry before punishment shall be gone through.

Coordinate staff.—The existing scheme of dearness allowance shall stand subject to the following modification. All members of the coordinate staff getting less than Rs. 30 as basic salary shall be pulled up to Rs. 30 and their dearness allowance shall be reduced by the amount by which his salary is increased to make it Rs. 30.

Bonus.—The Company paid in the past one per cent salary to all employees as bonus and have advised us that they have no intention to discontinue it. On this assurance, we leave the point to the adjudication.

Leave and holidays.—All holidays under the Indian Instruments Act shall be observed.

Existing Leave Rules are—

Privilege leave—14 days per year after one year's service.

Annual leave—12 days with half pay.

Sick leave—14 days, extended to one month on full pay and two months on half pay.

The existing scheme shall stand with this modification that privilege leave shall be cumulative for years. We need hardly point out to the members that most of the mercantile firms allow privilege leave on full pay and we hope that this Commission will not lag behind in extending this concession to their employees.

Service conditions.—(a) Probation and confirmation.—It is awarded that the period of probation shall not exceed six months. Though confirmation is made, if the employee is found to be inefficient, he may be terminated.

(b) Service record.—We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: and dismissal, discharge and retrenchment or other punishments.—In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the Head of the Concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the Head of the Concern at Calcutta, an appeal shall lie likewise with the Head of the Concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the Head of the Concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.—We decide that a man shall retire on completing 55 years. We do not favour extension of services thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree extension of services may be granted.

Recruitment Rules: Recruitment, promotion and transfer.—Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel however that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.—(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees the appointment shall go to the more efficient.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's grade. We award that there should be no bar to promotion from clerical grade to the Officer's grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.—Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Retiring benefits.—The Company have a 5 per cent. Contributory Provident Fund. We direct that for members of the clerical staff, the contribution on both sides shall be raised to 10 per cent. and for members of the subordinate staff to 6½ per cent. within a month from the date of publication of this award. For the period prior to the inauguration of the new scheme, the clerks shall be given gratuity at ½ month's basic pay as it stood, before this award comes into force, subject to the maximum of 10 months' pay.

Working hours and overtime allowance.—With concurrence of both parties we lay down the following working hours:—

Week days—10 to 5 with half-an-hour's recess.

Saturdays—10 to 1 without recess.

The employees shall get as overtime allowance on weekdays as also on Sundays and holidays extra basic salary at 1½ times the normal rates on hourly basis.

Tiffin.—Tea is given free twice a day. We recommend that this may be continued.

Accommodation allowance, Children's education facilities, Canteen.—Union's demands on these points are rejected.

Medical aid.—The Company have some arrangements. The employees are entitled to avail themselves of the facilities offered by the State to the people in general. We do not propose to enlarge upon the existing arrangement.

Travelling allowance.—Travelling allowance for journey on duty shall be paid. No travelling allowance need be paid for journey other than on duty.

Uniforms and umbrellas.—Uniforms and umbrellas for outdoor works shall be supplied to the members of the subordinate staff.

told that Messrs. Bird & Co. have, in pendency of the adjudication proceeded based the shares in the present concern. It is still run "under its original style Saxby, Ltd". This award shall be binding on the employees and employers and the interest of the latter.

AWARD.

Basic pay and dearness allowance.

Company have only six clerks and 3 full-time and one part-time sweeper. There is no scale and the dearness allowance is uniform. The present salary and dearness allowance of the existing employees are as follows:—

	Salary per month.	Dearness allowance per month.
	Rs.	Rs.
Mukherjee ..	600	130 0
Das ..	150	70 8
Mukherjee ..	200	100 0
Mukherjee ..	150	64 8
Mukherjee ..	88	52 12
Chandra ..	110	35 0
Mitra ..		
..	50	37 0
..	30	37 0
..	30	27 0

Salary and the increments which they have given in the past are much below the standard schemes we have generally in our awards for mercantile firms. The dearness allowance is much lower but emoluments are not less than the total amounts awarded for mercantile firms in Calcutta.

The only defect which calls for correction is the absence of uniformity. The dearness allowance is not linked with the basic salary. Sri N. G. Chandra who is getting Rs. 88 salary gets Rs. 52-12 as dearness allowance. This works out to about 60 per cent. Sri Mitra who is getting Rs. 110 as basic salary gets only Rs. 35 as dearness allowance which is less than the dearness allowance which is given to two of the peons. Sri S. C. Das and Sri B. Mukherjee who are getting the same basic salary are given the same dearness allowance. With a view to secure uniformity and to avoid dissension in the staff, I direct that on the present living index dearness allowance shall be 60 per cent. of the basic salary subject to a minimum of Rs. 30 and maximum of Rs. 50. With this modification, the existing scheme is approved, and we hope the employers will show the generosity in giving the annual increments to the employees which they have given in the past. The salary and dearness allowance of part-time sweeper shall be settled by the employers.

Bonus.

Company have been giving some bonus to employees which hitherto was never less than 10% of the basic salary and dearness allowance. We direct that the practice be continued.

Working hours and overtime allowance.

Working hours are—
Days—10 a.m. to 5 p.m. with one hour's interval.
Days—10 a.m. to 2 p.m. without interval.
The existing scheme shall stand.

There is no arrangement for overtime work. Overtime work shall be discouraged by all means. If under orders of the superior an employee is detained half an hour after the scheduled working hours he is required to work on Sundays and public holidays he shall get overtime allowance at the rate of the basic hourly salary extra. The hours are below the standard followed in mercantile firms. We therefore do not give any overtime allowance for detention of an hour on the working days.

Leave and holidays.

All holidays under the Negotiable Instruments Act shall be observed.

Holidays shall not be less than that prescribed by the Shops and Establishments Act. The employers shall use their discretion in matters of urgency, emergency and sickness of the employees.

Retiring benefits and benefits on termination of service.

The Company inaugurated in 1940 a Contributory Provident Fund with contribution on both sides at 8½ per cent. of the basic salary for the clerks and the menials are paid ½ month's basic salary as gratuity for each completed year of service subject to a maximum of 10 months' salary. As the basic salary is much above the standard followed generally in our awards for mercantile firms, we do not interfere with the existing scheme. The existing scheme shall stand.

Canteen, tiffin, accommodation allowance, children's education facilities.

The Union's demands on these points are disallowed.

Medical aid.

This is generally the duty of the State except where the employees are susceptible to diseases special to their occupation. The employees of the present Company are not denied the facilities offered by the State.

Service conditions.

(a) Probation and confirmation.

It is awarded that the period of probation shall not exceed 6 months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment; and dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment.

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the Head of the Concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring

officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the Head of the Concern at Calcutta, an appeal shall lie likewise with the Head of the Concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the Head of the Concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel however that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's grade. We award that there should be no bar to promotion from clerical grade to the Officer's grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Recognition of the Unions as also Jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Travelling allowance.

Proper travelling allowance shall be paid for journey performed on duty. No travelling

allowance can be allowed for journey by an employee on leave.

Uniforms and umbrellas to menials

Uniforms and umbrellas for menials shall be supplied to the menials.

AWARD.

Government order No. 620Lab., dated 14th May 1949, the above dispute was referred to adjudication, under sections 7 and 10 of Industrial Disputes Act. I issued notice to parties on 15th February 1949, and the Smith Stanistreet Workers' Union, which will hereafter referred to as the Union, filed written statement on 25th February 1949. Messrs. Smith Stanistreet & Co., Ltd., which will hereafter be referred to as the Company, filed written statement on 7th March 1949, and issues were framed on 18th April 1949. The parties took some time for filing copies of papers and documents on other grounds and the hearing of the case was adjourned from day to day from that date and the case was concluded on 26th April 1949.

Messrs. Smith Stanistreet & Co., Ltd., is a firm of long standing carrying on the business of the manufacture and sale of pharmaceuticals and toilet preparations and fine chemicals and medicines of the Government of India.

for imported preparations and about one-third consists of the sale of its own products. The Company's factory and office are situated at Entally and it has got a City Branch at Dalhousie Square and Branches at Bombay, Madras and other parts of India. The Company has about 600 employees in its factory and Calcutta offices and this adjudication is concerned only with them.

The Smith Stanistreet Workers' Union was formed in 1945 and was subsequently registered under the Trade Unions Act. This is the only registered Union of the workmen of the Company. In September 1947 certain disputes arose between the Union and the Company and certain demands were sent to the Company by the Union on the 25th September. The dispute was ultimately referred to me for adjudication under sections 7 and 10 of the Industrial Disputes Act. I gave an award on 21st January 1948 which was enforced by Government order No. 228Lab., dated 28th January 1948, and published in the *Calcutta Gazette* of the 12th February 1948. By this award the Company was directed to recognise the Union and the pay scales of the employees together with scales of dearness allowance were fixed and certain other amenities in the shape of leave, gratuity and provident fund were provided for them. The award came into force from the 1st January 1948 and remained in operation for a period of one year from that date. On the eve of the expiry of the above award, on 30th December 1948, the Union submitted a set of demands to the Company for a thorough revision of the pay scales provided therein, and also for certain other privileges and amenities. A copy of these demands was also sent to the Labour Commissioner who thereupon contacted the Company and was informed that the Company would like to have the dispute referred to a Tribunal as it had certain proposals which it wanted to place before a Tribunal. On 24th January 1949, the Company submitted an application under section 10(2) of the Industrial Disputes Act for reference of the dispute to a Tribunal, the application being in form A as prescribed by rule 3 of the Bengal Industrial Disputes Rules, 1947. The Company stated in this application that the last award had placed the Company in a very unfavourable position as compared to other industries and it therefore proposed a modification and adjustment of the pay-scales and scales of dearness allowance and other terms and conditions of service as fixed by that award. The Labour Commissioner recommended that the dispute might be referred to a Tribunal under section 10(2) of the Industrial Disputes Act and the present reference was accordingly made.

The nature of the dispute will appear from the following issues which have been framed on the basis of the statements submitted by the parties:—

Issues.

1. What should be the grades and scales of basic pay for the various categories of employees?
2. Should the system of payment at hourly rates be abolished?
3. What should be the dearness allowance for the various categories of employees?
4. Should the existing system of piece rates be revised? If so, in what respects?
5. Is any adjustment necessary in respect of past years' service of the employees mentioned in Annexure G to the Union's statement?
6. Are the employees named in Annexure F to the Union's statement entitled to be promoted to the grades mentioned therein?
7. What should be the terms and conditions of service of Darwans?

8. Should any housing accommodation be provided or any house rent allowance be paid?

9. Should there be extra allowances for workers who have to work with gas, acid and poisonous substance?

10. (a) Has the Tribunal jurisdiction to award any bonus? (b) Should any bonus in addition to the amount already granted be paid in respect of the year 1947-48, and, if so, on what conditions?

11. Should there be any change in the rules of Provident Fund and Gratuity?

12. What should be the working hours for the various categories of employees?

13. What should be the leave rules for the various categories of employees?

14. Is any alteration necessary in the rules of Medical Aid? If so, in what respects?

15. Rules for security of service—

- (a) involuntary unemployment;
- (b) retrenchment, discharge and punishment;
- (c) appointment;
- (d) standing orders generally;
- (e) has the Tribunal jurisdiction to give any direction to the Company regarding matters included in (b) and (c) above?

16. (a) Has the Tribunal jurisdiction to award reinstatement? (b) Was A. K. Banerji improperly discharged? Is he entitled to reinstatement and compensation?

17. Should the award be given retrospective effect? If so, from what date and in respect of what items?

18. Has the Company made any payments during 1948 in respect of dearness allowance in excess of what it was bound to pay under the last award? If so, should the said excess amounts be refunded to the Company or be otherwise adjusted? Has the Tribunal jurisdiction to award such adjustment or refund?

Issues Nos. 1 and 3.

Before I take up these issues for consideration it is necessary to say something about a preliminary objection which has been raised on behalf of the Union. The Union states that the last award did not satisfy the reasonable demands of the workmen and also omitted to grant relief to certain sections of the workmen and that accordingly the Union submitted demands on 30th December 1948, for better pay scales and scales of dearness allowance and better amenities for all classes of employees than what had been provided by the last award. The Union criticises the action of the Company in bringing proposals before the Tribunal for modification of the provisions of the last award to the detriment of the interests of the workmen and contends that the Tribunal cannot entertain those proposals since it has been constituted only to adjudicate upon the disputes raised by the Union by its charter of demands, dated 30th December 1948. It is next contended by the Union that the Company had not placed those proposals or demands before the workmen for their consideration at any time and that as such no dispute can be said to have arisen in consequence of the said proposals which this Tribunal can adjudicate upon. According to the Union, the only dispute referred to the Tribunal is the dispute raised by the Union's demands, dated 30th December 1948, so that the Tribunal can only accept or reject those demands but cannot go behind the existing conditions, as fixed by the last award, in order to modify them to the prejudice of the workmen.

A question was also raised as to whether dispute has been referred under sub-section (1) section 10 of the Industrial Disputes Act, under sub-section (2). Along with the Government order of reference a copy of the report of the Labour Commissioner and a copy of application of the Company in form A have been forwarded by the Government. The Labour Commissioner's report, as already made, specifically recommends that the dispute be referred to a Tribunal under section 10(2) of Industrial Disputes Act. The report shows the Union had also requested for early reference of the dispute to a Tribunal, but the Union not filed any application for such reference in prescribed manner, as required by section 10. Since both parties had not applied in prescribed manner, whether jointly or separately it may be said that there was no scope of reference of the dispute under section 10(2), that does not mean that the points raised by the Company in its application under section 1 are excluded from the scope of the reference. In view of the Labour Commissioner's report which this reference is based they must be deemed to be included in the reference. There is substance in the contention of the Union that proposals advanced by the Company in application under section 10(2) could not constitute a dispute because they had not been placed before the Union. The Company has stated in its application that certain points were placed for consideration of the Works Committee which has been constituted in this factory with representatives of the Management and of the workmen. All these proposals are relevant to, and connected with, the demands put forward by the Union on 30th December 1948. I cannot therefore accept the contention of the Union that this Tribunal should not consider those proposals but should ignore them altogether. I shall state that since the last award has expired the Union has proposed consideration anew of those matters which were settled by that award. It cannot ask the Tribunal to shut out the Company's proposals in those matters or to prevent the Company from placing its points of dispute before the Tribunal.

The provisions in the last award regarding scales and scales of dearness allowance were mainly based on certain proposals made by the Company which were considered fair and reasonable. As will appear from that award, the Company stated before that Tribunal that it adopted the Bengal Chamber of Commerce's scale of pay for the clerical staff and also the Chamber of Commerce scales of dearness allowance for them. The Union in its demands to the Company on the 25th September 1947, wanted that the basic pay and dearness allowance of the employees should be fixed according to the scales of the Bengal Chamber of Commerce. Though the Union made higher demands in its written statement filed before the Tribunal, being the Union's original demand, the Company's proposals were accepted and 4 grades were fixed for the clerical staff according to the scheme of the Bengal Chamber of Commerce with a modification regarding grade C. The grades are as follows:—

- Grade D—Rs. 60—2—90.
- Grade C—Rs. 70—4—130.
- Grade B—Rs. 100—7—170.
- Grade A—Rs. 150—10—250.

The 5th grade is for graduate clerks and the 6th grade is for non-graduate clerks including the Company wants to raise the 5th grade to Rs. 150—10—250. It has even proposed an increment of the 5th grade to Rs. 180—12—300. It has even proposed an increment of the 6th grade to Rs. 200—14—350.

the D grade to the Matriculates and has a lower grade, viz., grade E, for the unskilled clerks on Rs. 55—21—80. The Union wants revision of all the above 4 grades and proposed increase both in the minimum and maximum of each grade and also in the annual increments. The Union's proposals are as follows:—

- Grade D—Rs. 80—5—180.
- Grade C—Rs. 100—7½—250.
- Grade B—Rs. 150—10—350.
- Grade A—Rs. 200—15—500.

Regarding the subordinate staff, the Bengal Chamber of Commerce scheme recommended three pay, namely, Rs. 20, Rs. 25 and Rs. 30. The minimum pay fixed by the last award for the subordinate staff was Rs. 25 per month and for the subordinate categories the minimum was fixed at Rs. 25.

The Bengal Chamber of Commerce recommended annual increments for the subordinate staff at the rate of Re. 1 for the first year, with an efficiency bar at that stage and thereafter further annual increments at the rate of Re. 1 for the next 10 years. The Company annual increments to the subordinate staff at the same rate and grades were accordingly recommended. The Union now wants minimum and maximum and higher rates for the subordinate staff and has proposed grades for them as follows:—

- 40—2—80.
- 45—2—90.
- 50—3—100.

The Company on the other hand proposes to fix the grades and the annual increments and the fixed pay for each category of the subordinate staff with a higher minimum in certain

factory workmen were divided by the last award into two categories only, namely, unskilled and skilled, and the minimum pay of the unskilled was fixed at Rs. 25 and that of the skilled at Rs. 50 per month. The same grades were fixed for the unskilled workmen as for the subordinate staff and for the skilled workmen the minimum was fixed at Rs. 50—2—80. The case of unskilled workmen was not properly placed before the Tribunal. The Union has complained that relief was granted to the semi-skilled workmen of different categories, but for this the Company was mainly to blame. Though the Union demanded a higher minimum for the semi-skilled workmen, it did not specify the categories of workmen. The Union did not inform the Tribunal who the men in the semi-skilled category were and how their scales of pay should be fixed. The Union did not even mention any category of semi-skilled workmen in its written statement filed before that Tribunal, as I have seen myself from the record, and the result was that only those categories which had been mentioned in the Company's statement were included in the award. Thus there was a long gap between the minimum of the unskilled and the minimum of the skilled workmen without any direction in the award as to where the intermediate categories should be placed. The Union now wants to have these intermediate categories provided for and has mentioned them in its written statement and asked for separate grades of pay and grades for them. For the unskilled the Union proposes a grade of Rs. 25—80 and for the semi-skilled and skilled workmen, viz. —

- 45—2—90
- 50—3—100
- 60—4—120
- 70—4—140
- 80—5—160

The Company also wants to have separate minimum scales of pay fixed for the intermediate semi-skilled categories beginning from Rs. 35 and has proposed raising of the minimum pay of the unskilled workmen to Rs. 30 per month, but it objects to time-scale increments and grades for the unskilled and semi-skilled workmen and also for certain categories of skilled workmen.

As regards dearness allowance the Bengal Chamber of Commerce scheme recommended for the clerical staff a graduated scale based upon the middle class cost of living index numbers for Calcutta, as compiled and published by the paper "Capital". For the subordinate staff it recommended a flat-rate of dearness allowance corresponding to the minimum of the scale recommended for the clerical staff. The Company had been paying dearness allowance to its clerical and subordinate staff at the scales recommended by the Bengal Chamber of Commerce and agreed to pay them on the same scales. The award accordingly accepted these scales of dearness allowance for them. To the labour staff the Company had been paying dearness allowance at the rate of Rs. 25 per month. The award, however, fixed the same flat-rate of dearness allowance for the workmen as for the subordinate staff. At that time the middle class cost of living index number was between 291 and 300 and the scale of dearness allowance fixed for the clerical staff by the award was 60 per cent. on the first Rs. 100, 30 per cent. on the second Rs. 100 and 15 per cent. on the remainder, subject to a minimum of Rs. 37. For the subordinate staff and the workmen the dearness allowance was fixed at a flat-rate of Rs. 37 per month. After the award the Company increased the scales of dearness allowance from time to time according to the variations in the middle class cost of living index numbers, as announced by the "Capital". Thus from March to May 1948, the Company paid to the clerical and monthly paid staff 65 per cent. on the first Rs. 100, 32½ per cent. on the second Rs. 100 and 16½ per cent. on the remainder, subject to a minimum of Rs. 40 and the subordinate staff and the workmen also received dearness allowance at a flat-rate of Rs. 40. During June and July 1948, the clerical and monthly paid staff received dearness allowance at 70 per cent. on the first Rs. 100, 35 per cent. on the second Rs. 100 and 17½ per cent. on the remainder and the subordinate staff and the workmen received a flat-rate dearness allowance of Rs. 43. During August and September 1948 the clerical and monthly paid staff received dearness allowance at the rate of 75 per cent. on the first Rs. 100, 37½ per cent. on the second Rs. 100 and 18½ per cent. on the remainder and the subordinate staff and the workmen received dearness allowance at a flat-rate of Rs. 46. Since October 1948, dearness allowance is being paid to the clerical and monthly paid staff at the rate of 80 per cent. on the first Rs. 100, 40 per cent. on the second Rs. 100 and 20 per cent. on the remainder and to the subordinate staff and the workmen at a flat-rate of Rs. 49 per month. The middle class cost of living index numbers, as compiled by the "Capital", have been produced by the Company and it appears therefrom that in March 1949, the number rose to 341. The Union accordingly demands an increase of dearness allowance by Rs. 3 for the subordinate staff and the workmen and a corresponding increase for the clerical and monthly paid staff, according to the scheme of the Bengal Chamber of Commerce. The Company, on the other hand, wants to change the entire scheme of dearness allowance and has referred to the award of the Engineering Industries Tribunal published in the Calcutta Gazette of the 3rd July 1948. By this award dearness allowance was fixed on the scale recommended in the report of the Central Pay

Commission. The Company wants the scales of dearness allowance to be fixed on the same basis instead of on the basis of the Bengal Chamber of Commerce scheme. The Company has stated that under a misapprehension as to the meaning of the last award it paid increased dearness allowance to the clerical staff, the subordinate staff and the workmen, though legally it was not bound to do so, and has prayed that it should be allowed to deduct the excess amounts paid from future payments of wages or other emoluments due to the said employees. An issue has been framed on the point, being issue No. 18.

One of the grounds on which the Company has asked for revision and reduction of the pay scales and the scales of dearness allowance and for abolition of time-scale grades is that on account of the large increase in salaries and wages the labour costs have increased so much that the Company is now unable to compete commercially with other concerns in the same business and its sales are gradually going down. It is alleged that the Company formerly held a contract for the supply of Strychnine to the whole of the British Commonwealth but has now lost the said contract because of its too high rates. The Company apprehends that it will lose some valuable agencies in the near future for the same reason, unless it can reduce its labour costs. It is next alleged that the large increase in salaries and wages has brought about a disastrous reduction in the profit which now amounts to only Rs. 66,000 for the half year from July to December 1948, and that if this state of things continues, the Company will not be able to pay any dividend to its ordinary shareholders. The Company has even gone to the length of saying that unless it can reduce its expenses on labour, it may have to consider the closing down of its business in Calcutta altogether. The Company also contends that the abolition of time-scale grades proposed by it is necessary for the sake of rationalisation, as in every industry pay should be fixed by the job and no one should receive a wage which is disproportionate to the nature of the work done by him. As regards dearness allowance the Company contends that the dearness allowance to be paid to the workmen or to the subordinate staff cannot be based on the middle class cost of living index number.

I shall first take up the question of increasing labour cost and the results thereof, as urged by the Company. The Company has produced copies of several letters received from its Branches, Agents and customers in order to show that it has not been able to compete with other firms doing the same kind of business on account of its high rates and that it has had to lose contracts and business on the same ground. Copies of certain letters from Whiffin & Sons, Ltd., with whom the Company had a contract for supply of Strychnine show that Whiffin & Sons had been complaining of the high rates of the Company since 1947. In January 1948 the Company wrote to Whiffin & Sons that as costs were rising it could not agree to any fixed ceiling and offered to supply Strychnine at actual cost plus 10 per cent. To this the other party did not agree and the contract was finally cancelled. Copies of two letters received respectively from a Canadian firm and an American firm in January and March 1949 show that the Company sent quotations on Strychnine to those firms which, however, they considered to be too high. Letters received from the Bombay and Madras Branches of the Company in 1948 and 1949 have been filed to show that business was being lost there on account of increased prices of Tinctures and other products. The toilet products of the Company had a reduced sale on account of foreign competition. Other letters from Steel Bros. & Co., Ltd., of Rangoon have been filed to show that some business of the

Company were declared wholly unsaleable on account of high prices and that the Company was losing certain markets. The Company produced a statement of its sales for the period from June 1948 to March 1949, as compared to the sales in the corresponding periods of 1947-1948. This comparative statement which will be found in Appendix I to this award shows that while sales in June, July and August 1948 were higher than in the corresponding period of 1947-1948, there has been a steady deterioration beginning from September 1948. This deterioration has taken place not only in the sale of the products of the Company but also in the sale of Agency preparations. Only in March 1949 there was an increase in the sale of the Company's preparations by about Rs. 71,000 as compared to March 1948, but the total sale figure was only by about Rs. 28,000. The Company has also produced a comparative statement of its expenses under the Revenue Account which is separate from the Manufacturing Account for the last six months of 1947 and 1948, and it pointed out that in 1948 it made a considerable reduction in the expenses on all heads, except on the head of "salaries" and "wages" as compared to 1947. The expense under this head amounted to Rs. 2 lakhs and 22 thousand in 1948 as compared to Rs. 1 lakh and 1 thousand in 1947. The Company states that unless it is able to make a corresponding reduction in the salaries and wages it cannot reduce the labour cost. It is further pointed out that the total expense ratio under the Revenue Account for the second half of 1948 was about 15 per cent. (4.65 lakhs on a sale figure of 31.4 lakhs) and that this was a high figure. It regards the Manufacturing Account of which a comparative statement for the last six months of 1947 and 1948 has been filed it is pointed out by the Company that the stock was accumulated in 1948, though production was less than in 1947. In 1947 the production amounted to Rs. 12 lakhs and 44 thousand while in 1948 it amounted to Rs. 8 lakhs 91 thousand (for the second half of each case), but it appears that the total stock on 31st December 1947 in the Revenue and Manufacturing Accounts taken together was more than that on 31st December 1948—Rs. 2 lakhs as against Rs. 14½ lakhs. The Company's financial year will close on the 30th June 1949 and its profit for the second half of 1948 amounted to Rs. 66 thousand without allowing for depreciation, so that it is apprehended that it will have very little profit during the financial year ending on 30th June 1949. The Company has produced its balance-sheets for the years 1944 to 1948. During the financial year ended on 30th June 1948, the Company had a net sale amounting to Rs. 77 lakhs but still its profit amounted to only Rs. 1 lakh and 1 thousand as compared to Rs. 1 lakh and 1 thousand during the financial year ended on 30th June 1947, though the sale in that year amounted to only Rs. 51 lakhs. This diminution in profit is attributed to the large increase in expenses under the head of salaries and wages.

The Union has not challenged the balance-sheets or the statements of accounts submitted by the Company, but it has been urged by the Union that the Company's position is not so difficult as the Company wants to make it appear. The Union attributes the fall in the sale of Agency Products to import restrictions. It is admitted by the Company that on account of the difficulty of securing permits and dollar restrictions the Company has not been able to import sufficient Agency Products. The Union contends that this difficulty is temporary and that the Company's own policy of increasing the sale of its own products is the cause of its present position.

and contends that the Company tries to the sale of its products in a better it is likely to succeed. The Union that the Company is neglecting the sale and points out that instead of ing more sale representatives and spending oney for their travelling expenses and for ement of its products the Company has the expenses under these heads in 1948. ion contends that the Company's position itially sound and that the Company need perturbed by a temporary drop in its sales ould not make it a ground for reduction of and dearness allowance. The Company's a may be essentially sound but there can doubt that the steady deterioration in the uring the current year as compared to the al year ended on 30th June 1948 is a aling feature. It is true that in the last al year the Company had a record sale of lakhs which was Rs. 26 lakhs higher than n the previous financial year, but there is tainty that in this year the sales will not even lower than the figure of the year on 30th June 1947. It is necessary to er in this connection the previous history e Company. The Company could not pay idend for several years in the past and in it had to reduce its capital from 10,000 ence shares at Rs. 100 each to the same at Rs. 50 each and from 1 lakh ordinary at Rs. 10 each to the same shares at 4 each. In May 1947, 19 lakhs ordinary s at 4 annas each were issued to the existing holders and 20 ordinary 4 annas shares were nted into one share of Rs. 5. The balance- s show that since 1944 the Company is pay- idividend to its shareholders. In 1947 the pany paid 25 per cent. dividend to its shareholders and 10 per cent. to the e shareholders and in 1948 it paid 20 idividend to the ordinary shareholders er cent. to the preference shareholders. a, 20 per cent. or 25 per cent. on the shares did not mean much since the share capital had been reduced and 20 on the present shares amounted to only ent on the original investment. It is natural for the Company to entertain apprehensions for its future in view of ent position. There is no knowing the drop in the sales is a temporary or not. The Company cannot be blamed not share the optimism of the Union that er has been turned in March 1949. The that month may as well be a temporary The Company has had to face keen ion for its products and must think of prices. There can be no doubt that the y has come to a position when it would advisable to increase its burden. I think should not, on any account, be saddled rther expenditure over and above what it n spending on salaries and wages. The y has made reductions in expenses under ble heads, as the statements of accounts referred to show, and has even reduced ses in connection with the salaries and of the superior staff. I do not think Company is neglecting its sale depart- ough it may have reduced the expenses rtisement and for travelling salesmen. pany should be deemed to be the best to how to advertise its products and its sales. The Company will certainly re on these heads, if thereby the sales mproved. I need not say more on the rom all the facts and circumstances ore me I am convinced that it will not to increase the burden of the Company be avoided.

the of new

fixed by the last award. Both the minimum and maximum and also the annual rate of increment for each category of staff are sought to be increased by the Union. So far as certain categories of staff are concerned, the Union's attitude is really inexplicable because the Union had practically agreed to the scales of pay fixed for them by the last award. I have already mentioned that in the demands of the Union submitted in September 1947 it had asked for fixation of the basic pay of the employees according to the recommendation of the Bengal Chamber of Commerce. The grades and scales of pay of the clerical staff were fixed accordingly but the Union now wants to change the whole thing after a trial of one year only. I cannot commend this attitude of the Union. It has been argued by the learned lawyer for the Union that on the last occasion the Union agreed to the Company's offer of the Bengal Chamber of Commerce scales of pay because the Union was then in an infant stage and did not like to fight with the Company and that the Union cannot be bound for all times thereby. The Union could not offer any other better reason for demanding revision of the grades. The Company, as already stated, does not want to change these grades but has on the other hand proposed a higher rate of increment for the D grade. I have already mentioned the demands of the Union for the clerical staff. Apart from the question that no extra burden should be thrown upon the Company in its present position, if it can be avoided, I think that the Tribunal should not encourage any alteration in the grades and scales of pay which were fixed according to the Union's own demand a little more than a year ago. It has been urged that recently the Mercantile Tribunal revised these grades in the dispute between the Bengal Chamber of Commerce and its employees and reference has been made to the award of that Tribunal published in the *Calcutta Gazette* of 17th February 1949. By this award the minimum of each grade was raised by Rs. 10 on the ground that in fixing the grades the question of house rent had not been taken into account. The maximum of grades A, B and C was also increased by Rs. 10 by the award and the D grade was reconstituted into a grade of Rs. 70—3—130. It was argued on behalf of the Union that the grades for the clerical staff of this Company should also be recast on the same ground. It must be remembered, however, that the employees of the Bengal Chamber of Commerce had been placed in these grades long ago, while the employees of this Company were placed in these grades on the eve of or after the last award. They got substantial increments of pay, while they were so placed. In the C grade the minimum was increased by Rs. 10 by the last award. The considerations which applied to the employees of the Bengal Chamber of Commerce do not therefore apply to the clerical staff of this Company. I do not also consider it desirable to increase the minimum or maximum of the grades in consideration of the present position of the Company. In my opinion, the grades should remain intact subject to a slight change in the D grade. The Company has proposed that the rate of annual increment of this grade should be Rs. 2-8. I accept this and as this will shorten the time-scale I think that the maximum of the grade should be raised to Rs. 100 in order to provide for a time-scale extending to 16 years. The period of time-scale in the existing grade is 15 years. The D grade is accordingly recast as follows: Rs. 60—2½—100. Grades A, B and C will remain as at present. It is expected that the Company will liberally promote men from the D grade to the C grade subject, of course, to considerations of efficiency, specially when an employee reaches the maximum of the D grade. The Company has proposed a lower grade to the D grade commencing with Rs. 50.

the non-matriculate clerks, the grade proposed being Rs. 55—24—80. The present D grade has been fixed for all clerks who are under-graduates including non-matriculいたes. I do not see any necessity for fixing another grade for the non-matriculいたes with a reduced minimum and maximum. Such a grade will not be of any present benefit to the Company because the clerks already placed in the D grade cannot be brought down to such a grade. The Company states that it wants this grade for the new entrants. It is expected, however, that the Company will not make any clerical appointments in future from the non-matriculいたes. For certain categories of employees who do not belong to the clerical staff grade E proposed by the Company will, however, be necessary, as I shall state presently. But for the clerical staff proper there should be no grade below the D grade. The Union wants that the categories of employees to be placed in each grade should be specified in the award and has given such a specification in its written statement. The Union has proposed that besides the clerks the Bin-keepers, Compounders, Godown-keepers and Jetty and Customs Sarkars should be placed in the D grade. Some of these categories are not actually clerks. So far as the Godown-keepers and Jetty and Customs Sarkars are concerned, they are already in the D grade, according to the Company. Compounders fall into two classes, namely, passed and unpassed. The passed compounders are already in D grade, according to the last award, and the Company proposes to maintain this grade for them. The case of the unpassed compounders will be taken up subsequently. The Bin-keepers are not clerks. Their case will also be taken up subsequently. For certain categories of clerks, namely, ledger clerks, pricing clerks, receiving clerks, establishment clerks, quotation clerks, ration-in-charges, store-in-charges, typists, telephone operators and assistant time-keepers, the Union wants the C grade. The Company does not agree and states that all these excepting the typists are clerks and that they have been placed in the D or in the C grade, according to their educational qualifications. I am not satisfied that any of these clerks should be placed in the C grade on account of the duties they perform. As regards the typists, the Company states that most of them are in the C grade, though the Company does not agree that a typist should automatically get the C grade. There may be differences in qualifications between the typists as such and so it should be left to the Company to decide in which grade a typist should be placed. The C grade is for graduates and so the typists cannot claim to get the C grade merely on the ground of their knowledge of typewriting. In the B grade the Union wants to place the Stenographers, Comptometers, Sale representatives and certain other categories known as the purchase-in-charge, section-in-charge and import and export Head Clerk. The Company states that it has got no such designations as purchase-in-charge, section-in-charge and import and export Head Clerk and that the persons doing such work are mere clerks who are in the D or in the C grade, according to their qualifications. I cannot accept the Union's demand that such persons should be placed in the B grade. As regards the Stenographers there are some in the B grade and there are others in the C grade. The Company agrees that the Stenographers should have the C grade and undertakes to give the B grade to a competent Stenographer. I think that this ought to be sufficient. The Comptometers are all in the C grade, according to the Company. They require only some months' training and no special educational qualification. I think Bin-keepers should be placed in the D grade.

Bin-keepers should remain in the C grade at present. As regards the sale representatives the Company's case is that they are recruited from the clerks as well as from outside. When a clerk is transferred as a sale representative he remains in his grade, but if he is given a higher grade, he is given a higher capacity and efficiency, he is given a higher grade. The work of a sale representative is different from the work of a clerk and if the representative is able to push up sales, the promotion is assured. The matter should, therefore, be left to the Company and it is expected that the Company will promote the sale representatives according to their efficiency. As a matter of fact, according to the Company, present sale representatives are either in the C grade or in the B grade. No commission is present paid on the sales but I am told that the Company is considering the question of introducing commissions for sales. The Union next wants the Cashier, the Head Clerk and the Head Clerk of the Factory to be placed in grade A. The Company agrees that the Head Clerk of this department should always be placed in grade A. But the Head Clerk, the Company had one of its employees in grade A and he was the Cashier of the Head Office. He has retired but is still retained in grade A. The Company is not able to give grade A to all incumbents of the cashier's post. It, however, agrees to give grade A to an employee of the Head Office by promotion, whoever he might be. At the time of the last award the number of posts available to clerks in grade A was two. These two posts will also be available to the clerical staff by promotion, to the clerks of the Factory Department and another to the clerks of the Head Office. Assistant Chemists are already in grade B, according to the last award, and they should always be recruited in this grade.

I next come to the cases of the Bin-keepers, the unpassed compounders. The Union wants to abolish the distinction between the passed and unpassed compounders, but the distinction is not and cannot be overlooked. A passed compounder has got some special training for which he claims better pay than an unpassed compounder. Unpassed compounders are at present on a grade of Rs. 50—2—80. The Company proposes that they should have a grade of Rs. 55—24—80, the grade E proposed for the non-matriculate clerks. I think that this grade should be given to the unpassed compounders and I direct accordingly. The Bin-keepers are also on a grade of Rs. 50—2—80 according to the last award. The Union has demanded the D grade of the clerical staff for them, but it is admitted by the Union that they do not actually perform any clerical work. Their duty is to supply orders from the shelves containing medicines and other goods placed in their charge. They merely receive certain cards the stock supplied and received and have not to write any registers. I cannot therefore agree that they are entitled to the D grade. The Company wants to treat them as workmen and proposes a fixed pay of Rs. 50 for them. The proposal of the Company cannot, however, be supported on any ground. The Bin-keepers are not actually workmen and it is admitted that they all belong to the middle class. They have a minimum of education. They have to read the award and execute it and have to make certain entries. They are monthly paid employees and they already get a grade according to the last award. They cannot, therefore, be kept on a fixed pay. All Bin-keepers should have a grade and it should be a grade lower than the grade of the compounders. I direct accordingly that Bin-keepers should be placed on the D grade.

proceed to consider the cases of certain paid skilled workers for some of whom many has proposed time-scale grades and only a fixed monthly pay. They are all on a grade of Rs. 50—2—80, according to award. They are the Supervisors, the Fitter, the Head Mechanic, the Head Pipe Fitter, the Head Tinsmith. The Company used grades with time-scales for the Head Fitter and the Head Mechanic but for the rest it only a fixed pay of Rs. 50 without any time-scale increments. It is rather that the Company wants to deprive the workers of a grade with time-scales. Though Supervisors may have been promoted from the skilled workers, as supervisory they should have a grade and, in all industries the supervisors do enjoy

Since the Company has proposed grade scales for some of the skilled workers it ought to avoid giving a grade to the workers who have no further chance of promotion. The Union demanded the D grade of the staff for them, but I think that the supervisor should be placed in the grade of 24—80 and I direct accordingly. For the Head Mechanic the Company has proposed the grade of Rs. 60—24—90 and for the Head Fitter of Rs. 55—24—80. The Union demanded a grade of Rs. 70—4—140. I think that the grades proposed by the Company are adequate. The Head Mechanic should, therefore, be placed in the grade of Rs. 60—24—90 and the Head Fitter in the grade of Rs. 55—24—80. For the Head Pipe Fitter and the Head Tinsmith the Company, as already stated, proposed a fixed pay of Rs. 50. The Union has demanded a grade of Rs. 70—4—140 for them. There is no reason why they should be treated differently from the Head Fitter. They are already on a grade and they may have no further chance of promotion. I accordingly fix the grade of 24—80 for them. There are two categories of rated skilled workers whose cases may also be considered along with the cases of these

because the Company has proposed the same grade of Rs. 55—24—80 for them. They are the Electric Mistris and the Fitters. They are at present on a grade of 2—80. The Union has asked for a higher grade for the Electric Mistris but I think that they should not have a higher grade than 24—80. This grade is accordingly fixed for them. It will also be convenient to consider the case of the drivers, though they do not belong to the factory staff and are monthly-rated. By the last award a grade of 2—80 was fixed for them. The Company has proposed a fixed pay of Rs. 60 for the drivers and to a grade being fixed for them. As compensation for the loss of the grade the Company has proposed a higher pay than the present minimum. The Union has asked for the D grade of the staff for them but to this I cannot agree. The Company has stated that if the drivers are given a grade, then the present grade should be changed instead of a higher pay being fixed for them. I think that the drivers who are also mechanics should not be treated on a separate scale from the other skilled workers for whom grade scales have been fixed. Their grade should be accordingly at Rs. 55—24—80.

the remaining skilled and also the semi-skilled and the unskilled factory staff and for the subordinate staff the Company has proposed a fixed pay without any time-scale grades. As already stated, the last award fixed a grade for the drivers apart from the other skilled workers with Rs. 25—2—80. I think that the same principle should be applied to the remaining skilled and semi-skilled workers.

Chamber of Commerce scheme annual increments were provided in that award at the rate of Rs. 1 for 20 years with an efficiency bar after the first 10 years. Now, this scheme was recommended by the Bengal Chamber of Commerce for the office subordinate staff like peons, orderlies, darwans, jamadars, etc. Such a scheme is obviously unsuitable for the factory workers whose pay must depend on their skill and should be fixed on the basis of the job entrusted to them. Both the Company and the Union have criticised the award on this ground and the Union has also criticised the award on the ground that it was not fair to the semi-skilled workers. As already stated, the Union was really to blame for these shortcomings of that award. It is thus clear that the present grades, as fixed by the last award, cannot be retained for the factory workers and that in order to do justice to the different categories of such workers, according to their skill, separate scales of pay should be fixed for them. The Company, however, wants that these workers should have no time-scale grades at all, while the Union demands that they should have time-scales with different rates of increment. The Company wants abolition of the time-scale grades on the ground that in an industry time-scales are most unsuitable, since a person working at a job does not necessarily acquire more skill by lapse of years, and also on the ground that in an industry manufacturing costs should be kept stable and that if time-scales are provided, such stability is necessarily affected. The Company has stated that it has proposed increased minimum for all categories of employees as compensation for abolition of time-scales. It is true that in industrial enterprises automatic promotions by stages are not advisable as such enterprises stand or fall with the efficiency of their workers and efficiency does not necessarily increase among workers with the amount or period of work they put in, but in this particular industry increments have always been given in the past to workers according to length of service and the workers of a particular category were never kept on the same-scale of pay. This will be clear from the last award in which the pre-award scales of pay of some of the categories of workers are mentioned. The Company cannot, therefore, urge that this Tribunal should fix only the minimum pay of each category and not provide for any increments. As to manufacturing costs the Company cannot expect that they should remain stable for all times and increments to workers, when necessary, cannot be denied on this ground. I agree, however, that long time-scales as fixed by the last award for such workers are altogether out of the question. Such long time-scales are also unnecessary because a worker with better skill and experience can legitimately expect promotion from one category to another and I have no doubt that the Company will give such promotion on the basis of skill. The natural and better course would, therefore, be to grade the categories according to skill and fix a minimum with a short time-scale for each of these categories.

The different categories of semi-skilled and skilled workers are enumerated in the written statements of the Company and of the Union. It does not, however, appear from the Company's written statement that it has properly graded the categories. In its written statement the Company proposed only one minimum of Rs. 35 for all the semi-skilled workers, but at the time of hearing the Company felt that this was not justified and so different scales of pay were proposed for the different categories. The Union has graded the categories in a better manner in its written statement, though the scales of pay demanded by the Union are much too high. I think that the Company would be to fix the minimum pay for the different categories who are now on a fixed pay at Rs. 40, Rs. 45 and Rs. 50.

and Rajmistris should be placed on the lowest grade of semi-skilled workmen and their minimum should be fixed at Rs. 35. The Union has proposed Rs. 45 as the minimum for them but this is rather high. In the next category should be placed the fitters, pipe fitters, machinemen, mechanics, blacksmiths, tindels, bonded order fillers and ampoule cutters and sealers. The Union has demanded a minimum of Rs. 50 for them while the Company has proposed a minimum of Rs. 35 for some and Rs. 40 for others. In the statement of the Company Rs. 50 was proposed as the minimum for the bonded order fillers, the blacksmiths and the tindels but this was stated to be a mistake at the time of hearing. That is likely as the Union has placed the blacksmiths at the lowest rung of the ladder among semi-skilled workers and the bonded order fillers on the next higher category with the fitters and machinemen. I think that a minimum of Rs. 40 should be fixed for all these categories and I fix accordingly. In the next higher category are the Strychnine Plant mistris and other mistris and ampoule fillers and sealers. For them the Company proposed a minimum of Rs. 50 in the statement but has since stated that the minimum should be Rs. 40. The Union has demanded a minimum of Rs. 60 for them. I think that a minimum of Rs. 45 should be adequate for them and I accordingly fix their minimum at Rs. 45. There remain three other categories who are skilled workers and they are the printers, the carpenters and the assistant supervisors. They are on a grade of Rs. 50—2—80 according to the last award. The Company has proposed a fixed pay of Rs. 50 for the carpenters and the assistant supervisors and has said nothing about the printers. Their present minimum should be retained but their grade will have to be revised. They cannot have the same maximum as the Supervisors or the other skilled workers for whom I have already fixed the grade of Rs. 55—2½—80. They must have a lower maximum and a shorter time-scale. I fix a grade of Rs. 50—2—70 for them. For the other categories the annual rate of increment is fixed at Re. 1 as at present and the grades with a shorter time-scale are fixed as follows:—

Rs. 35—1—40.

Rs. 40—1—45.

Rs. 45—1—50.

These exhaust practically all the categories of factory workers who are not unskilled, but if any category has been omitted by mistake, the Company should provide an analogous grade for the said category.

For the coolies and sweepers and cleaners who are unskilled workers the minimum fixed by the last award was Rs. 25. The Company has proposed to raise the minimum to Rs. 30 on condition that they should not have any time-scale grade. For the subordinate staff the Company has proposed three minimum scales, namely, Rs. 20, Rs. 25 and Rs. 35 without any time-scales. For the Canteen servants and vendors the Company proposes Rs. 20, for the peons and liftmen Rs. 25 and for the Bill Collectors, Booking Jamadars, Durwans and Cooks Rs. 35. The Union has proposed a minimum of Rs. 40 for the coolies, sweepers, etc., Rs. 45 for the peons, liftmen and Booking Jamadars and Rs. 50 for the Bill Collectors and the Durwans. For the peons and liftmen the minimum fixed by the last award was Rs. 30. Reduction of their pay is out of the question, especially when the minimum for the others is being raised. The minimum scales demanded by the Union for the coolies, sweepers, cleaners, etc., are much less than Rs. 30. I think that the

sweepers and cleaners should have a minimum pay of Rs. 30. The minimum of the peons, the liftmen should not be raised any further, should be kept at Rs. 30. The minimum of Bill Collectors, Booking Jamadars, Durwans, Cooks should be fixed at Rs. 35. For Canteen servants and vendors the Union has preferred any demand, but they cannot have such a low minimum as Rs. 20 and since minimum is being raised to Rs. 30 they should have the same minimum. Their pay should therefore, be raised to Rs. 30. The next question is whether any of these employees should have any grade. The Company has stated it has proposed to raise the minimum to Rs. 20 and Rs. 35 only on the footing that time-scales for such employees should be abolished. The Union has, however, claimed grades for them. I think that time-scale grades should be denied to such workers when such grades have been fixed for the semi-skilled and skilled workers. As already stated, however, long time-scales, as fixed by the last award, are of the question. The time-scale should be 10 years with annual increments of Re. 1 for peons, liftmen, Bill Collectors, Booking Jamadars and Durwans. For the coolies, sweepers, cleaners, Canteen servants and vendors and the cooks time-scale is fixed for a period of five years consonance with the time-scale fixed for factory workers. The cooks will thus have a grade of Rs. 25—1—40 and the rest a grade of Rs. 1—35.

I now come to the question of dearness allowance. As already stated, the Company wants to change the entire scheme of dearness allowance as fixed by the last award. I have already explained the circumstances under which the scheme of dearness allowance mentioned in that award was adopted. So far as the clerical staff is concerned, I think that there should be no change just as there has been no change in their grades. The scheme of the Bengal Chamber of Commerce is based on the middle class cost of living index numbers and since the clerical staff belong to the middle class, their dearness allowance should continue to be based on middle class cost of living index numbers. The said cost of living index number stood at 341 in March 1949 which means an increase of 1 point above the cost of living index number on the basis of which the clerical staff is at present getting dearness allowance. I think that in consideration of the present financial position of the Company this increase of 1 point should be ignored and the present scales of dearness allowance for the clerical staff should be maintained without any increase. The Assistant Chemists, Bin-keepers and the Compounders, who have passed and unpassed, who belong to the middle class should continue to get dearness allowance on the same basis. The scales of dearness allowance for the clerical staff on the same basis. There was no direction in the last award for periodical revision of the scales of dearness allowance according to rise in the cost of living index numbers, the Company out of its own will revised and increased the scales of dearness allowance from time to time, according to the scales of the Bengal Chamber of Commerce. In view of the present financial position of the Company and the demand for dearness allowance during the operation of this award.

The next question is whether the scales of dearness allowance should be maintained for the subordinate staff and the factory workers. The scales of dearness allowance for the subordinate staff and the factory workers are based on the middle class cost of living index numbers and the demand for dearness allowance during the operation of this award.

from the middle class cost of living numbers and at present the former are higher than the latter. I have got from the Commissioner the working class cost of living numbers for Calcutta during the period from August 1948 to February 1949. At 1948, the working class cost of living number stood at 343 and in September 1948 it was 360. It began gradually to fall thereafter. In February 1949, the number stood at 339. The middle class cost of living number for March 1949, was 341. In February 1949 it was 339. The base in 1939 = 100. In August 1948 the working class cost of living index number stood at 343 while the middle class cost of living index number is rising gradually since 1948, the working class cost of living index number is going down since that month. In such circumstances, it will not at all be able to fix the scale of dearness allowance for the working class on the basis of the middle class cost of living index number. Dearness allowance must ultimately be based on the cost of living index numbers and if there is a wide difference between the numbers of the two classes, the scale of dearness allowance for each class should be based on the cost of living index number of that class. During the last adjudication of the matter was not taken into consideration as the Company offered to pay dearness allowance at the flat rate recommended by the Bengal Chamber of Commerce for the subordinate staff. In January 1948 when that was made the working class cost of living index number stood at 315 (vide the West Bengal Industrial Report, Volume 1). It was thus 15 points higher than the middle class cost of living index number—300—on the basis of which a flat rate of dearness allowance for the subordinate staff and the workers was fixed by the Tribunal. At present when the working class cost of living index number has fallen much below the middle class cost of living index number the same basis cannot be considered for fixing the scale of dearness allowance for the subordinate staff and the workers. The Company wants dearness allowance fixed for the subordinate staff and the workers on the scales mentioned in the award of the Engineering Industries Tribunal. These scales are based on the recommendation of the Central Pay Commission. The Industrial Tribunal have generally awarded dearness allowance on the same basis as already stated, the Company revised the scale of dearness allowance fixed by the last award by gradual increase of Rs. 49, according to the rise in the cost of living index numbers, though it is not bound to do so under any direction of the Tribunal. At that time, however, the working class cost of living index number was 353. It was 353 in June when the dearness allowance was raised to Rs. 43, 363 in July when it was raised to Rs. 46 and even in August when the dearness allowance was raised to Rs. 49. Since then the working class cost of living index number has fallen nearly 40 points. The workers have no justification to claim that the dearness allowance should be continued on the same basis, i.e., at a flat rate of Rs. 49, in spite of the drop in the working class cost of living index number. Such a claim is not equitable.

going to reduce the basis wages of the workers. On the other hand, the basic wage for each category is actually being raised by this award. Basic wage and dearness allowance do not stand on the same footing. Basic wage may be constant but dearness allowance is not. Dearness allowance is based on the cost of living index number and must necessarily rise or fall with the rise or fall in the cost of living index number. Hence if the scale of dearness allowance is reduced because of a reduction in the cost of living index number, this cannot be deemed to be a change in the existing service conditions to the detriment of the workers. A reduction in the total emoluments will have to be suffered by the workmen, if the fall in the cost of living index number justifies the reduction in the scale of dearness allowance. This is inevitable and cannot legitimately be objected to. It has next been contended that the Company having offered to pay dearness allowance to the workers according to the scheme of the Bengal Chamber of Commerce, during the last adjudication, and having increased the rates of dearness allowance after the last award according to the same scheme, the Tribunal should not allow the Company to withdraw the said scheme. But whatever the Company might have offered then had expired with the expiry of the last award and when the whole thing is being considered anew, I do not see why the Company should not be allowed to urge what is fair and equitable and propose a scheme of dearness allowance which is more consonant with the present conditions. It is to the credit of the Company that it revised the scale of dearness allowance from time to time, though it was not bound to do so under any direction in the award, but that is no reason why the Company should be held bound by that offer in the present changed circumstances and after the expiry of that award.

The Central Pay Commission recommended a minimum rate of dearness allowance of Rs. 25 on a cost of living index figure of 285, as will appear from Appendix C to the report. The present working class cost of living index number being 323, there has been a rise of about 40 points above the cost of living index number on which the Central Pay Commission's minimum was based. For every rise of 20 points the Commission has recommended an increase of Rs. 5 in the rate and so the present minimum rate of dearness allowance should be taken to be Rs. 35 for the pay range, Rs. 1—50. For the next pay range, Rs. 51—100, the rate of dearness allowance would be Rs. 45, according to the scheme of the Central Pay Commission. The scheme of the Bengal Chamber of Commerce recommends a flat rate of increase of Rs. 3 for every rise of 10 points in the cost of living index number. If this scheme is followed, the minimum rate of dearness allowance justified by the present working class cost of living index number, would be Rs. 37. I may state here that the Bengal Chamber of Commerce scheme recommends Rs. 25 as the minimum rate of dearness allowance on the cost of living index number up to 260. That accords with the recommendation of the Central Pay Commission in the body of its report, but it ignores the explanation, given in Appendix C to the report, that the scales of dearness allowance recommended by the Commission should be deemed to be based on the existing cost of living index number, namely, 285. In any case, therefore, the present rate of dearness allowance for the subordinate staff and the working class cannot be fixed at a figure higher than Rs. 37. This was the rate fixed by the last award and I adopt it for this award, specially as the working class cost of living index number at present is little different from the index number existing in January 1948 when the last award was made. The working class cost of living index number is 323 now. The middle class cost of living index number is 341.

ion has contended that the Tribunal should not reduce the dearness allowance to the existing level but should reduce it to the level of the last award.

down since. The minimum basic pay having been fixed at Rs. 30, the minimum total emolument including dearness allowance will now stand at Rs. 67. This is an improvement on the last award in which the minimum was Rs. 62. I accordingly fix the minimum rate of dearness allowance for the subordinate staff and the workers at Rs. 37 per month. This will apply to the pay range Rs. 1—50. For the next pay range Rs. 51—100 the rate of dearness allowance is fixed at Rs. 45.

The Company should increase the pay of its employees according to the scales fixed above. Every category should get the minimum pay fixed for it from the date on which this award will come into operation. The Company should also give an increment to each employee according to the grades fixed by the last award where those grades have not been revised. I understand that no increment has as yet been paid either to the clerical staff or to any other staff. The Company has urged that on account of its financial position this year it should be exempted from the liability to grant increments but by this award the Company will be able to reduce its expenses and so there is no reason why it should not pay the increments. When grades have been fixed increments will have to be given and cannot be withheld. The Company should therefore pay the increments from the dates on which they have fallen due according to the grades fixed by the last award which have been retained by this award. As stated above, the minimum total remuneration has been fixed at Rs. 67 by this award and this means an improvement to the extent of Rs. 5 over the total remuneration fixed by the last award. It is necessary that every worker on the pay range Rs. 1—50 should get the benefit of this improvement, specially as the rate of dearness allowance for such workers is being reduced by Rs. 12. There has been no increase in the minimum pay of the peons and the liftmen. They and the others whose total remuneration as the result of this award may not exceed by Rs. 5 what they were getting as the result of the last award with a dearness allowance of Rs. 37 (i.e., before the Company first raised the rate of dearness allowance fixed by the last award) should be given special increments within their grades so that they may also get the benefit of this increase of Rs. 5. For those on the pay range Rs. 51 to Rs. 100 no such direction is necessary because their dearness allowance has been fixed at Rs. 45.

Issue No. 2.

The Union wants that the hourly and daily rates of pay should all be converted into monthly rates. Reference has been made in this connection to the recommendation of the Central Pay Commission at page 126 of the report. Factory workers are, however, generally hourly or daily-rated and the demand for conversion of daily rates of pay into monthly rates has generally been rejected by the Industrial Tribunals. The Central Pay Commission observes at page 127 "Much of the criticism against it will be obviated if daily-rated workers are paid at a rate which will give them at least the same monthly income as monthly-rated employees, though they worked few days less. This will practically secure to them the benefit of holidays with pay". Since the pay scales mentioned above have been fixed in such a way as to secure for the daily-rated workers the same amount per month as the monthly-rated employees and since provision for holidays and other benefits for the daily-

of the system of payment at hourly or daily rates. I cannot, therefore, agree that the system should be abolished.

Issue No. 4.

The piece-rated workers are very few in number being only 66 according to the Company statement and excepting a few the majority are packers and fitters. There are 8 bottle-washers who are unskilled. The skilled workers are ampoule blowers who make glass ampoules; their number is 15. The rest who are packers and fitters are semi-skilled. The Union wants revision of the piece rates of all these workers 25 per cent. and demands that the minimum monthly earnings of the bottle-washers should be fixed at Rs. 40, of the packers at Rs. 45 and the glass-blowers at Rs. 75. All the piece-rated workers get dearness allowance like the time-rated ones and the above demands are exclusive of dearness allowance. The Company has statements of the monthly earnings of some of these workers from January 1948 to March 1948 and of others from October to December 1948. The average earnings of the bottle-washers exclusive of dearness allowance during October to December 1948 varied from Rs. 20 to Rs. 22. The average earnings of the packers varied from Rs. 23 to Rs. 43 during this period and the average earnings of the ampoule-blowers varied from Rs. 48 to Rs. 81. The Company stated that the earnings of these workers are frequently affected by want of work and cannot always be given full time employment. Some of the packers have sometimes earned as much as Rs. 55 to Rs. 62 per month, during last year, according to the Company's statement. Last year in some of the departments work stopped on account of various reasons and piece-rated workers were put on the involuntary unemployment benefit scheme. The Company further states that it has more workers on piece-rate system than it can provide work for. So far as the ampoule-blowers are concerned, majority of them appear to have earned an average Rs. 60 per month and some have earned as much as Rs. 95 and Rs. 98 and even Rs. 100. In view of the average earnings of the workers when they are fully employed, it can be said that the rates are low. The rates should be judged by their earnings and not by the earnings of one or two slackers among them. The rates do not, therefore, require revision. The Company, should, however, provide full and sufficient work for the piece-rated workers, so that their monthly average earnings may not be less than those of the daily-rated workers of the same category. In the award of the Engineering Industries Tribunal a direction was given that the employers must ensure that the earnings of a piece-rated worker do not fall below the earnings of a time-rated worker of the same category. The Company has no objection to a similar direction being given in this award. I direct accordingly that the Company should see to it that the earnings of a skilled piece-rated worker like the ampoule-blower do not fall short of the earnings of a time-rated worker of the same category, that the earnings of a semi-skilled worker like the packer do not fall short of the earnings of a time-rated worker and that the earnings of an unskilled worker like the coolies, as fixed by the award, do not fall short of the earnings of a time-rated worker of the same category. The Company should ensure that the earnings of Rs. 30 per month for the unskilled workers, Rs. 35 per month for the semi-skilled workers and Rs. 50 per month for the skilled workers, exclusive of dearness allowance, are not less than the earnings of a time-rated worker of the same category.

Issue No. 5.

Annexure G to the written statement of the Union has been given of 13 clerks who, according to the Union, did not get increments proportionate to the length of their service when on their present grades. One of them, C. B. K. Dutt, is in grade D and the rest are in grade C. B. K. Dutt has put in 5 years' service, according to the Union, and it is said that he is getting Rs. 60. According to the Company's statement, however, he has put in 3 years' service and is getting Rs. 62. The Company has, however, implemented the direction in the last adjudication and granted him an increment for his 3 years' service. As regards those placed in grade C, no such direction was given in the last adjudication because the Company had promoted them from grade D to grade C. The particulars given in Annexure G regarding length of service are not correct, according to the statement by the Company, and I must accept the particulars given in the Company's statement. Most of these clerks have put in 5 years of service and are getting Rs. 70, the minimum salary of grade C. Two have put in a little more than 6 years' of service and are getting respectively Rs. 80 and Rs. 90, but one who has put in more than 8 years' service is getting only Rs. 70. One who has put in 10 years of service is getting Rs. 80, but another has put in almost 11 years' service and is getting Rs. 70. These variations in pay may be due to the fact that these men were promoted from grade D to the C grade. Some variations in pay on that ground are inevitable as one may be promoted at an earlier stage of service and another at a later stage. But these variations were all actually promoted to the C grade at the time of the last adjudication and not at subsequent times. Under the circumstances they are entitled to some special increments on the ground of length of their service. I direct accordingly that those who have put in less than six years of service should get one special increment of the minimum of the grade to which they are promoted and those who have put in six years' service or more should get two special increments. The statement of the Company does not take into account the length of service of Sridhan Chakrabarty.

Accepting the Union's statement as correct in his case and the Company's statement as correct regarding others I direct that Aditya Anil Chatterji, Prafulla Banerji, Naren Chatterji, Rangalal Das and Sridhan Chakrabarty should get one special increment of grade C and Murali Sarkar, J. Nundy and P. Chakrabarty should get two such special increments. Jacob and S. P. Bose who are getting Rs. 80 should have their pay increased to Rs. 82 to fit in with a stage in the C grade. The pay of Rs. 80 does not fit in with this grade. All these clerks will in addition receive a special increment like other clerks on the ground of length of service after the last adjudication as directed in issues Nos. 1 and 3.

Issue No. 6.

Annexure H to the statement filed by the Union has been made of 10 clerks who, according to the Union, should have been given increments proportionate to the length of their service when on their present grades. One of them, S. N. Bose, is said to have been promoted as manager of the City Branch. He has put in 21 years' service and his present pay is Rs. 100. He is in grade C. He has been a supervisor up to 1948. The Company's statement admits that he is the manager of the City Branch and that he has been acting on in that capacity and a letter, dated March 1949 from Mr. Nicholas to S. N. Bose confirms it. The Company states that the future of the City Branch is being considered and that

the Branch may eventually be closed and until this is settled the grade of S. N. Bose cannot be fixed. The Company further states that it may give S. N. Bose a higher grade, if he is found suitable and if the Branch is retained. I think, under the circumstances, that the matter may best be left to the Company. Dharendra Nath Ghosh was a typist in the Sales Department up to 1947. He is getting Rs. 90 and is in grade D. He has put in 22 years of service. The Union has demanded grade C for him. Since he has reached the maximum of the existing D grade the Company has agreed to promote him to grade C. He should, therefore, be promoted to grade C. As regards the others, the Company does not agree that they have been promoted to any new posts or that they have got the designations mentioned in the Union's statement. According to the Company, they are mere clerks entrusted with different kinds of clerical work. They are doing the kinds of work for which the Union had claimed superior grades which claim has already been considered in connection with issues Nos. 1 and 3 and rejected. Some of them are office bearers of the Union and it appeared to me that the Union was apprehensive that because they were office bearers of the Union they might not get any promotion. The Company, however, gives an assurance that there would be no discrimination in the matter of promotion on the ground that an employee is a member or office bearer of the Union. I think that the Union should be satisfied with such an assurance and leave the cases of these employees to the Company. There is another person mentioned in the demands submitted to the Company by the Union on 30th December 1948 whose name, however, does not occur in Annexure F. He is Kamal Bose who is in charge of the Blowing Department and is in grade D. The Union agrees to leave his case in the hands of the Company.

Issue No. 7.

With regard to the Darwans the Union demands that they should get all the amenities and privileges which are available to the other employees of the Company, specially, with regard to working hours, leave and holidays. The Company has stated that the Darwans have to work eight hours every day and I understand that this question has been settled with the Union in the Works Committee. The Union, therefore, did not press for any change in the working hours of the Darwans. As regards leave and holidays the Company states that though the Darwans are not entitled to rest on Sundays and festival holidays, they are allowed one day off in a week by turns and as compensation they get 28 days' privilege leave each year which can be accumulated for two years. Since the Darwans have to remain in charge of the Factory and Office buildings during the holidays it is not possible to provide that all the Darwans should get the holidays which the other workers get. They, however, actually get one day off every week by turns and this arrangement is quite reasonable. 28 days' privilege leave with pay is also sufficient. I direct, therefore, that there need be no change in the service conditions of the Darwans.

Issue No. 8.

The Union has demanded that the Company should provide housing accommodation for its employees or, in the alternative, pay house rent allowance at the rate of 10 per cent. of the pay or Rs. 15 whichever is higher. A similar demand was made during the last adjudication and was rejected on the ground that the pay and dearness allowance fixed covered house rent. The housing of the workers is not the sole responsibility of the employers. Apart from that, it has not been shown

that the employees cannot provide accommodation for themselves out of the pay they get. It would also be unreasonable and inequitable to increase the burden of the Company in its present financial position. The demand is accordingly rejected.

Issue No. 9.

A similar demand was made, during the last adjudication and was rejected. At the time of hearing the demand was not pressed by the Union. It is therefore rejected.

Issue No. 10.

The objection raised by the Company as to the jurisdiction of the Tribunal to award bonus was not pressed at the time of hearing. The Company granted two months' pay as bonus to all its employees last year for the financial year ended 30th June 1948. The Union, however, demands pay for two months more by way of bonus for that year. For the financial year ended 30th June 1946 the Company had granted two months' pay as bonus on a net profit of 1 lakh and 52 thousand rupees. For the financial year ended 30th June 1947 the Company had granted 1½ months' pay as bonus, but by the last award the Company was directed to grant two months' pay as bonus, since the net profit for that financial year was the same as that for the previous year being 1 lakh and 53 thousand rupees. For the year ended 30th June 1948 the net profit amounted to 1 lakh and 43 thousand rupees which was less than the profits of the two previous years. Still the Company has granted two months' pay as bonus. There is thus no justification for the Union's claim for four months' pay as bonus for the last financial year. The claim is accordingly rejected. A point was raised that the bonus was paid only to the employees who had worked for 275 days from 1st July 1947 to 30th June 1948 and that this had caused hardship to some of the employees. This was done according to the direction in the last award and so the Union has no right to make any complaint.

Issue No. 11.

By the last award the Company was directed to start a Provident Fund for the benefit of all its employees, irrespective of their pay, and the rate of contribution was fixed at 6½ per cent. both for the employees and for the Company. The Company also agreed to it and a copy of the rules and regulations of the Provident Fund Trust which had been framed was furnished to the Tribunal. The Company has actually introduced a Provident Fund and is deducting contributions therefor. The Union had demanded during the last adjudication that the rate of contribution should be fixed at 12½ per cent., but that demand was rejected. Since then, however, the Company has voluntarily raised the Provident Fund contribution to 12½ per cent. at the option of the employees and it is stated that 80 per cent. of the employees have exercised the said option. The last award also provided for gratuity to those retiring after 10 years' service at the rate of one month's pay for each year of service up to a maximum of 15 months' pay. In its application under section 10 of the Industrial Disputes Act and also in its written statement the Company proposed that since the rate of contribution to the Provident Fund had been raised, the amount of gratuity should be reduced to half a month's pay for each year of service and further proposed that the length of service for qualifying for gratuity should be raised. Subsequently the Company filed an additional statement proposing that the Provident Fund should be limited to the employees whose basic salary was Rs. 100 per month or more. This proposal cannot, however, be entertained as it was not mentioned either in the Company's application under section 10 or in its written statement. Apart from that, the

Provident Fund having already been introduced and contributions to it having been realised in all classes of employees, irrespective of their pay, the Company cannot be allowed to withdraw this privilege from the lower grade employees and confine it to the employees drawing a basic pay of Rs. 100 and upwards. I direct, accordingly, that all the employees, irrespective of their pay, should get the benefit of the Provident Fund. The Union was not agreeable to reduction of the amount of gratuity in consideration of the raising of the percentage of contribution to the Provident Fund. The Union also objected to the raising of a qualifying period for gratuity. The Union stated that it had no objection to the rate of contribution to the Provident Fund being maintained at 6½ per cent. and that it would prefer this to any reduction in the rate of gratuity. I think that the scheme of Provident Fund and gratuity introduced by the last award should be maintained intact and there should be no change in the schemes. The Company was not called upon by the last award to raise the rate of contribution to the Provident Fund to 12½ per cent. and since the Union is willing that the rate fixed by the last award should be maintained, the Company is at liberty to reduce the rate of contribution to 6½ per cent. and withdraw the option of contribution at 12 per cent. I direct accordingly that the scheme of Provident Fund and gratuity introduced by the last award should continue intact without any change whatsoever.

Issue No. 12.

The Union demands 40 hours' work in a week confined to 5 days with complete stoppage of work on Saturday and Sunday. Since the Factories Act provides for 48 hours of work in a week and no change was made in the hours of work by the recent amendment of the Factories Act, there is no justification for the Union's claim for 40 hours. The work in this factory is not also so strenuous as in heavy industries or mills. The demand is accordingly rejected. The Company has proposed that the hours of work in certain departments, namely, the Stock and Packing Department and the Receiving Section and Forwarding Department should be the same as in the factory on the ground that these departments are linked with the factory and certain manufacturing processes are carried on there. At present the hours of work in the factory are from 8 a.m. to 12-30 p.m. and from 1 p.m. to 5 p.m. on week days and from 8 a.m. to 1-30 p.m. on Saturdays. But the hours of work in these departments are from 9 a.m. to 1 p.m. and from 1-30 p.m. to 5 p.m. on week days and from 9 a.m. to 2 p.m. on Saturdays. These are the hours of work in the Head Office for the clerical staff and the departments mentioned above are also located in the head office. The hours of work in these departments have been so since 1923. The Company, however, states that these departments should observe the factory hours on account of the connection with the factory. It is clear that the Company has all along since 1923 treated these departments as part of the head office and has treated the employees of these departments as attached to the head office employees in respect of hours of work. On account of this long continued arrangement I do not think that the Company can legitimately ask for a change in the working hours. The Union has contended that the working hours of these employees cannot be changed to their prejudice after such a long time, as these hours must be treated as part of the existing conditions of service of these employees. Finally it is not clear that these employees should be treated as factory workmen within the meaning of the Factories Act. The Company has argued that the Packing Department is a manufacturing process as defined in section 2(K) of the Factories Act and that cannot be said of the

nts. In any case I do not consider the proposal to change the working hours to be existing for more than 25 years. The Company's demand is accordable. In the written statement there is her proposal for change of the working hours of the clerical staff. The hours are at present from 9 a.m. to 1 p.m. and from 1-30 p.m. on week days and from 9 a.m. to 2 p.m. on week days. The Company wanted the closing hours to be changed from 5 p.m. to 6 p.m. There was, however, no such proposal filed by the Company under section 78 of the Factories Act. In that application the Company wanted the hours to remain. Besides, I find from the statement submitted by the Company during adjudication that the hours of work of the staff were then, as at present, up to 5 p.m. These hours should therefore remain unchanged.

Issue No. 13.

ing to the last award, all permanent staff on monthly rate of pay are entitled to consecutive holidays when the factory and office are closed as required by the Factories Act, festival holidays, 10 days' casual leave, privilege leave and 15 days' sick leave with full pay and also 2 months' sick leave on half pay. The permanent daily rated and piece-rated workers are entitled to 10 days' holidays under the Factories Act, 10 days' privilege leave and 10 days' sick leave with full pay.

The Company proposes that the clerical and supervisory staff should get privilege leave of 21 days including 10 days when the factory and the office would be closed under the Factories Act and casual leave for 7 days with full pay and sick leave on half pay for 15 days besides festival holidays and that the factory workers will get 8 days' festival holidays, 10 days' privilege leave under the Factories Act and 5 or 6 days' sick leave with full pay and 15 days' sick leave on half pay. The Union's demand is that there should be no discrimination between the staff and the monthly paid staff and the factory workers in matters of leave and holidays. All should get privilege leave for one month, casual leave for 15 days and sick leave for 15 days with full pay besides 19 days' festival holidays.

The Union further demands that in case of sickness further sick leave should be granted on half pay for 2 months, on quarter pay for the next 2 months and without pay until recovery.

As festival holidays are concerned, I do not see any necessity for any change in the provisions made in the last award. The Union's demand is highly extravagant and cannot be accepted. It appears from the last award that the Company had been granting 10 days' festival holidays to all employees from long before the award. So the number of such holidays should remain unaltered. The Union complained that the daily-rated workers did not get any pay for the festival holidays but got only dearness allowance. That is not proper. They should get pay and dearness allowance on festival holidays like other staff. Their daily pay being taken to be the daily earning for the previous month. As festival holidays under the Factories Act the Factories Act of 1948 has made changes in the provisions for leave. It now provides in section 79 that every adult worker who has been employed in a factory shall be allowed, during the period of 12 months, leave with wages for a number of days calculated at the rate of one day for every 20 days of work performed by him in the previous period of twelve months, or a minimum of 10 days, provided that a worker shall be inclusive of any holiday which may occur during such period. It further provides that if a worker does not take such

period of twelve months take the whole of the leave allowed to him, any leave not taken by him shall be added to the leave to be allowed to him in the succeeding period of twelve months, subject to this that the total number of days of leave to be so carried forward shall not exceed 15. Section 78 of the Factories Act provides that the provisions made in the Act regarding leave shall not operate to the prejudice of any rights to which worker may be entitled under any other law or under the terms of any award, agreement or contract of service. This Act came into operation from 1st April 1949. Hence, under this Act a worker is entitled to more than 10 days' leave in a year and may accumulate leave up to 15 days. By the last award the workmen were granted 10 days' privilege leave in addition to the leave under the Factories Act. The Company proposes 5 or 6 days' privilege leave in addition to the leave under the Factories Act. Since a workman may now earn 15 days' leave in a year under the provisions of the present Factories Act, there is little difference between what was provided by the last award and the Company's proposal. The Union's demand for one month's privilege leave for the workmen cannot be entertained for a moment. There is also no substance in the Union's contention that the conditions of leave should be the same for the clerical staff and the factory workers. Such conditions must necessarily be different and the differences cannot be obliterated. I direct accordingly that the daily-rated workmen should get 20 days' leave on full pay in a year inclusive of leave earned under the Factories Act, besides 10 days' festival holidays. The Company states that it usually closes its factory and its office for 10 days in a year for the purpose of repairs and whitewash. The Union does not raise any objection to the closing of the factory and office for a continuous period of 10 days, as in the past. The Company may, therefore, close the factory for a continuous period of 10 days in agreement with the Works Committee. The Company should comply with the provisions of sub-section (4) of section 79 of the Factories Act which require that the scheme regulating the leave should be lodged with the Chief Inspector of Factories. The demand for casual leave for the workmen is rejected. As regards the demand for sick leave, I think that the Company should make provision for such leave and I direct that sick leave for 15 days with half pay, as proposed by the Company, should be provided for the permanent daily-rated factory workmen. Sick leave will be granted on production of medical certificate from the doctor of the Company or from a registered medical practitioner.

As regards the clerical and supervisory and the monthly paid staff I see no necessity for any change in the provisions made for them in the last award and I am not prepared to accept either the Company's proposal or the Union's demand for modification of that award. The scheme of leave and holidays sanctioned by the last award for them should continue. The Company has proposed accumulation of privilege leave for such staff for 3 years. I direct that the privilege leave for these employees will accumulate for 3 years and for the daily-rated factory workmen for 2 years. Sick leave will not, however, be allowed to be accumulated. If the Company continues to close the factory and the office for 10 days in a year for the purpose of repair and whitewash in agreement with the Works Committee, as directed above, the office staff will necessarily get 10 days' holidays, but if the practice is discontinued for any reason, the office staff will not be entitled to claim any extra holidays on that account.

Issue No. 14.

The Union wants free medical diet and free attendance of the Medical Officer at the houses of the employees, besides free medicines of all kinds.

for the members of the families of the employees. The provisions in the last award for medical arrangements are quite liberal. The Company supplies medicines free to sick employees whether inside or outside the premises of the Company and also supplies medicines at cost rates for the sick family-members of the employees. The Company pleads inability to provide for free treatment of the employees at their houses or to supply free medical diet. I think that these demands are unreasonable and should be rejected. The provisions made in the last award should continue.

Issue No. 15.

(a) **Involuntary Unemployment.**—During the pendency of the last adjudication proceedings and thereafter certain disputes arose between the Company and the Union over enforced unemployment of workers of certain departments on the ground of want of work. These disputes were also referred to me for adjudication by Government order No. 182Lab., dated the 21st January 1948, and I made an award in that case on 12th March 1948 which was enforced by Government order No. 964Lab., dated the 30th March 1948, and published in the *Calcutta Gazette* of 15th April 1948. By that award it was provided that when in consequence of any natural catastrophe or breakdown of machinery or stoppage of power supply or shortage of essential materials or any other causes beyond the control of the Company, the workmen have to be laid off for short or long periods they should be entitled to compensation for involuntary unemployment, as recommended in the Government of India's letters No. L-1891, dated the 12th June 1944 and 1st March 1946. Under the scheme of compensation for involuntary unemployment recommended in these letters the workers would be entitled to get compensation for one month in each half-year from January to June and from July to December at the rate of 75 per cent. of the ordinary pay for the first fortnight of such unemployment and at the rate of 50 per cent. of such pay for the second fortnight. It was further provided by that award that the workers should first of all be granted leave due to them and that if such leave was not sufficient to cover the whole period of unemployment, then the scheme of compensation mentioned above would come into operation. The Company now proposes to have this scheme replaced by the scheme contained in the awards of the Engineering Industries Tribunal and the Jute Industries Tribunal. According to the scheme of these awards, the workers would be entitled to get compensation for involuntary unemployment at the rate of half the basic pay and half the dearness allowance for one month in each half-year from January to June and from July to December and to qualify for this benefit they must, if so required, answer to a muster roll at their usual place of employment once a day and must also be prepared to do work even of a different sort in their usual place of employment or in any other establishment under the same employers. If the period of stoppage of work extends beyond one month in any half year, no further compensation will be payable to the workers and this will not affect the right of the employer to discharge the workers or the right of the workers to leave the work of the employer with due notice according to the law and the prevailing rules of service.

The Union's demand is that the workers should be entitled to compensation at the rate of 75 per cent. of pay and full dearness allowance for the entire period of such involuntary unemployment. This demand is most unreasonable and cannot be accepted. It has been urged by the Union that unless this demand is accepted, the Company will always invent excuses for involuntary unemployment and thus victimise the workers. This is a most uncharitable remark against the Company for

which there is no justification whatsoever true that there have been in the past year stoppages of work in this or that department of the Company, but these stoppages were circumstances beyond the Company's control. There is no ground whatsoever to think that the Company indulged in these stoppages for victimising the workers. It is absurd to suggest that a Company which wants to do business suddenly close or stop work in any department in order to victimise the workers, while it pays unemployment benefit to them at the same time. The scheme proposed by the Company is based on the awards of two major Tribunals which is thus applicable to a large number of industries is better than the scheme which was introduced by my award dated the 12th March 1948. It is more advantageous to the workers because it provides for payment of 50 per cent. of both pay and dearness allowance for the first fortnight of such unemployment. In the scheme of the award of March 1948 there was no provision for payment of dearness allowance. The Company also proposes that if the scheme proposed by it is introduced the workers will not have to avail of any leave to them during the period of involuntary unemployment. I therefore direct that the scheme proposed by the Company should be adopted. That in the event of stoppage of work on the grounds mentioned above, the Company is bound to pay compensation to the workers who are involuntarily unemployed thereby at the rate of half the basic pay and half the dearness allowance for one month in each half-year from January to June and from July to December. In order to qualify for this compensation the workers must, if so required, answer to a muster roll once a day at their usual place of employment and must be prepared to do work even of a different sort in any establishment under the Company. If the period of stoppage of work extends beyond one month in any half-year, no further compensation will be payable. This will not affect the right of the Company or the right of the workers to terminate the employment with due notice according to the rules of service. The Company has proposed that if a time-rated worker is given 3 hours' work on a particular day and then there is no further work for that day the Company will give him full day's pay. I cannot accept this proposal. Finally the Company has agreed to accept the Union's demand that if the Company has to make new appointments in any department, while workers in another department are involuntarily unemployed, it will appoint such workers, if they are found suitable.

(b) **Retrenchment, discharge and punishment.**—The Union demands that it should be consulted in all matters of retrenchment, discharge, punishment and that in the event of disagreement between the Company and the Union the matter should be referred to a Tribunal. In the matter of retrenchment, the Union further demands that a Board should be constituted with equal representation of representatives from the Union and the Company's Management to decide all questions connected therewith. The Company is not willing to accept any of these demands and the Company's demand that dismissal, retrenchment and punishment of workers are matters within the discretion of the Company in which it cannot accept any interference from the workers' representatives should reasonably be ignored. I cannot therefore accept the Union's demand that it should be consulted in all matters relating to retrenchment, discharge or punishment. I would, however, recommend that in the matter of retrenchment the Company should, if possible, inform the Union through the Works Committee before any retrenchment is decided upon. This will help in maintaining industrial peace and if there be a genuine reason for retrenchment, there is no reason to

representatives will not be convinced and will raise any objection. I cannot, agree to the Union's demand that a committee be constituted for the purpose of retrenchment. The Union has further demanded that the Company should follow the principle of "last come first go" subject to considerations of efficiency and that in making new appointments the Company should give preference to the retrenched hands. The Company follows the principle of "last come first go" subject to considerations of efficiency, and to preference to the retrenched workers in new appointments and to appoint them, as suitable. During the last adjudication the Company filed certain Standing Orders containing rules regarding dismissal or punishment of workmen. The Company has now filed a new list of Standing Orders which contain some changes from the rules contained in the Standing Orders approved by the last adjudication. Some of the changes made by the Company are altogether unjustified. Thus, the new Standing Orders, habitance without leave or absence without more than 10 days was an offence constituting misconduct. In the proposed Standing Orders the Company has omitted the word "habitance" and the other qualifying words and made it a major misdemeanour for a workman to be dismissed without leave. The Union has also asked for certain changes in the last year's Standing Orders regarding modified rules regarding discharge, or punishment. It is not necessary to set out the rules in detail here. A revised list of Standing Orders will be found in Appendix 2 to this award which should be treated as part of the award governing the relations between the Company and its employees.

Appointment.—The demand of the Union that appointments should be made by a joint committee containing representatives of the Company and the Union is not acceptable. Such a demand cannot be accepted as it would interfere with the discretion of the Company and take away the power of appointment from them. The demand is accordingly rejected. The Union next demands that the relations between the employees should be on a par with those of the employees of other firms. The Company does not agree to this demand but states that they will give them the same chance along with the other employees. The Company claims the right to decide whom it will appoint and I do not think that right should be curtailed in any way. The Union has further demanded that the Company should give preference to the retrenched hands and the involuntarily unemployed. The Company has no objection and is willing to give preference to them, other things being equal.

Standing Orders.—I have already mentioned the revised list of Standing Orders which have been adopted by the Company and given in Appendix 2 to this award. The Company has filed two sets of Standing Orders—one for the retrenched staff and the other for the clerical and other staff. The Union has objected to two Standing Orders and I agree with the Company because there is very little difference between the two sets proposed by the Company. The difference is regarding the provisions for leave for the daily-rated workers and the monthly-paid staff. The Standing Orders proposed by the Company differ in certain

material respects from the Standing Orders considered during the last adjudication and the Company has even sought to modify some of the directions given in the last award. Thus, in the last award the probationary period was fixed at three months, as proposed by the Company, but in the proposed Standing Orders the probationary period is sought to be extended to six months. This cannot be accepted. A grace period of 5 minutes everyday for late attendance was agreed to by the Company last year and this should remain. In such matters the directions of the last award have been retained in the Standing Orders set out in Appendix 2.

(c) So far as this sub-issue is concerned, it was only pressed that the Tribunal had no jurisdiction to give any direction regarding future appointments because future appointments could not be deemed to be included in the service conditions of the existing employees. It is not, however, necessary to say anything on the point as the Company's discretion in the matter of appointments has not in any way been interfered with or curtailed by this award except on points accepted by the Company.

Issue No. 16.

A. K. Banerji was in the service of the Company for about 3 years as a clerk on D grade. He was dismissed on 17th November 1948. His duties were to enter particulars of all bills in sequence in the Bill Receivable Register and after those bills were paid to mark them in the register with the dates of payment. It was detected in November 1948 that he had marked in the Bill Receivable Register certain bills as "paid", though in fact they had not been paid, and in consequence non-receipt of payment on the said bills was not brought to light and the Company was put to loss. His explanation was demanded on 4th November 1948 and he gave an explanation on 8th November 1948. Copies of these papers have been filed by the Union with its written statement. In his explanation he stated that his duties were only routine duties of making postings in the Bill Receivable Register and that he had not marked any bill as "paid". This explanation was not considered satisfactory and he was discharged on 17th November 1948. It appears that he was on leave for some time in May in consequence of which some arrears had accumulated. The Union's case is that on account of these arrears he committed these mistakes for which he should not have been dismissed but should have been given some light punishment. It is not the Union's case that his dismissal was due to any motive for victimisation. It was, however, argued that it was a case of unfair labour practice inasmuch as he was given more severe punishment than was justified by his offence. His case was considered by the Works Committee. The Union has filed with its written statement copies of two reports prepared by the members of the Works Committee regarding his case. One of the reports is signed by two members, namely, G. Mukherji and H. K. Banerji, and another is signed by A. K. Auddy. According to both the reports, he was guilty of neglect of duty. A. K. Auddy recommended that he should be suspended for 4 days, while the other two members were of opinion that he was guilty of habitual neglect of duty and that dismissal was the right punishment in his case. He admitted before those two members, according to their report, that he had entered the bills in question as paid, although there was no indication therein that payment had been received by the Cashier, and that in haste he did not notice whether those bills contained the signature of the Cashier. The Company states that it has been put to a loss of Rs. 500 in consequence of this neglect of duty on the part of

A. K. Banerji because some of these bills could not be collected afterwards. I do not see how it can be contended that the Company was guilty of unfair labour practice when two members of the Works Committee had agreed that he had been rightly dismissed. It has been argued that it was the first offence of A. K. Banerji and that as such he could not have been held guilty of habitual negligence. But this was not one offence. He was guilty of neglect of duty in respect of several bills on different dates and merely because all these cases of negligence were detected at one time and one charge was framed in respect of them, it cannot be said that this was only one offence or that it was his first offence. I find that he was rightly dismissed and that his case does not call for interference by the Tribunal, since there was no victimisation or unfair labour practice involved in it. The Union's demand for his reinstatement or for compensation must be rejected.

Issue No. 17.

The Union wants that the award should be given retrospective effect from 1st January 1949. The Company also wants that it should be given retrospective effect with regard to the points on which its proposals may have been accepted by the Tribunal. I have already expressed the view in several awards, and specially in the award relating to the dispute between Ramcharitra Singh and others and their employees, dated the 26th June 1948, which was published in the *Calcutta Gazette* of 22nd July 1948, that it is not in the power of a Tribunal to give retrospective operation to its award. Under section 15 of the Industrial Disputes Act a Tribunal has to submit its award to the Government and it is for the Government to declare the award to be binding. Under section 19, sub-section (3), an award so declared to be binding shall come into operation on such date as may be specified by the Government and shall remain in operation for such period, not exceeding one year, as may be fixed by the Government. Thus, under the Industrial Disputes Act it is for the Government to specify the date on which an award shall come into operation and consequently it is not in the power of a Tribunal to declare an award to be operative from this or that date. I cannot therefore legally direct that the award will have retrospective operation. I can of course recommend, but in the special circumstances of this case such a recommendation would be inappropriate and improper and give rise to complications. As an instance I may mention that the existing scale of dearness allowance has been reduced by this award for the workers but they have already got dearness allowance at that scale. The scales of dearness allowance fixed by this award cannot therefore be given retrospective effect. It has been urged on behalf of the Union that if the award is not given retrospective effect from January 1949, the employees will not get the increments earned by them from that month. I have already recommended that where the grades of the last award have been retained by this award the Company should grant the annual increments earned by the employees to whom those grades are applicable from the dates on which the increments may have fallen due and I hope that in order to do justice to its employees the Company will comply with this recommendation. But it may be that the Company will not comply with it and in that case the employees concerned will have to suffer because they will not legally be entitled to get the increments until the date on which this award will come into operation. That cannot, however, be helped and I cannot recommend the award to have retrospective effect on that ground in the face of other more weighty considerations which would not justify such a recommendation.

Issue No. 18.

This point was not raised by the Company application under section 10 and it cannot therefore be considered. I have already stated that the Company was not bound to revise the dearness allowance under any direction in award. The Company voluntarily revised the rates of dearness allowance and made exemptions to the staff, but having done this, I see how the Company can ask for an adjustment of the payments made. We made the extra payments under any revision or not is immaterial. I do not think the Company can legally raise any such claim. The learned counsel for the Company stated that the Company did not actually want any adjustment of these payments but was asking the Tribunal to take into consideration these payments in fixing the rates of dearness allowance and other emoluments by this award. This point that the issue is not pressed. The demand is accordingly rejected.

On appointment, employee's rate of pay will be verbally intimated to him and his name with his rate of pay will be recorded in a Register to be maintained for that purpose.

All appointments, unless specifically mentioned, will be for a probationary period of three months. On the expiry of three months, the Company will consider each case for confirmation and, if found suitable, he will be confirmed and made permanent; otherwise he will be discharged or his probationary period may be further extended. The Company has the right to discharge a workman any time during his probationary period without giving any notice or compensation in lieu of notice. The Company will maintain a Register of service of permanent workmen showing the dates of appointment and the rates of pay which will be open for inspection by the employees concerned on application at least three days before the date of inspection on any week day during office hours.

5. **Manner of notification of period and hours of work.**—The period of hours of work for different classes of workmen and different shifts will be notified on the Notice Board required by the Factories Act and shall be as the management may from time to time decide.

Notices specifying the "Pay Day" for different groups of workmen should be displayed on the Notice Board as required by the Payment of Wages Act.

7. **Unclaimed wages.**—Back wages or unclaimed wages and allowances, if any, will be paid to workmen or their legal representatives as soon as possible after the applications of the workmen concerned or their representatives are received by the Company. But the claim to such wages will be barred if made after three years from the date on which the wages became due to the workmen concerned.

In the case of the permanent workman the average daily earning for the previous month shall be taken to be his daily wage for this purpose. To qualify for this compensation the workman, if so required, must sign a Muster Roll once a day at the usual place selected by the Company, and the workman must be prepared to do a different sort of work at his place of employment or in any other place under the same Company. If the stoppage of work extends beyond one month in any half year, no further compensation shall be payable to the workmen. But unless they give the necessary notice, they will be liable to resume their employment when such the Company starts again.

(d) If any workman remains absent beyond the period for which leave has been originally granted or subsequently extended, he shall lose his lien on his appointment. The Works Manager may, however, condone such absence, if the workman concerned—

A workman may be dismissed without notice or any compensation in lieu, if he is found to be guilty of a major misdemeanour. No order of dismissal shall be made unless the workman concerned is informed in writing of the alleged misdemeanour and given an opportunity of explaining the circumstances alleged against him. Such workman must, however, attend before the management when directed to do so. Service of any notice or direction upon a workman to attend under this rule may be made by communicating the same orally to the workman concerned and/or by fixing the same on the Company's notice board. The approval of the Manager of the establishment is required in every case of dismissal and, when circumstances appear to warrant it, the Manager may institute independent enquiries before dealing with the charges against a workman.

16. **Termination of employment.**—Except in cases mentioned in paragraph 15 and subject to rules hereinbefore stated, the employment of a permanent employee may be terminated by notice or on payment in lieu of notice on either side as follows:—

- (i) In the case of permanent daily-rated workmen, one week's notice or six days' pay in lieu of notice.
- (ii) In the case of permanent monthly paid workmen or clerical staff, one month's notice or pay in lieu of notice.

No temporary employee or badli or app shall be entitled to any notice or pay in notice, if his services are terminated.

17. **Complaints by workmen.**—All complaints arising out of the employment including relating to unfair treatment or exaction, part of employer or his agent or servant, submitted by a workman to the Works or Mental Manager. All such complaints shall be carefully investigated by him.

19. **Strikes.**—In the event of a strike the Company may close down, wholly or partial department or departments affected for any reason. The fact of such closure shall be notified by the Company up a notice on the notice board.

20. **Overtime.**—All workmen are to be treated as wholtime servants of the company and are liable to work overtime, if and when needed. The factory workman will, however, be paid wages in accordance with the provisions of the Factories Act for such overtime work.

21. **Accidents and medical aid.**—All workmen shall immediately report any injury sustained during the course of their work to the time for attention and necessary action.

22. **Quarters and use of Company's premises.**—No workman residing inside the Company's premises should bring his friends or relatives and to the area for the purpose of residing in his room or seat, unless he is permitted by an order in writing from the Works Manager. 24. **Provident Fund.**—All workmen who have been made permanent must join the Company's Provident Fund.

26. (a) The Company may from time to time amend these orders in accordance with the provisions of the Industrial Employment (Standing Orders) Act, 1946, or any amendment thereof.

(b) Copies of the Standing Orders, in English and in Bengali, will be posted on the notice board in the factory.

Grade D—Rs. 70—3—130.

Grade C—Rs. 70—4—134.

Grade B—Rs. 110—7—180.

Grade A—Rs. 160—10—260.

Special Grade—Rs. 260 and upwards at the discretion of the Company.

We allow a flat increment of Rs. 10 for all the clerks. If after this increment, the salary of any clerk does not fall in any stage in the time scale, he shall be placed at the next higher stage.

Typists shall not be placed below C Grade and Stenographers shall not be placed below B Grade.

Probationers shall get the lowest salary of the grade to which he is appointed.

Clerical staff shall draw dearness allowance according to the Bengal Chamber of Commerce scale.

Subordinate Staff.

We reconstitute the grades as follows:—

Bearers, peons, sepoy, chappassis—Rs. 30—1—40.

Stores khalassis—Rs. 35—1—45.

Cash durwans—Rs. 35—1—45.

Durwans—Rs. 35—1—45.

Packers—Rs. 40—2—50.

Mistries (Stores)—Rs. 66—4—100.

Duplicating operator—Rs. 45—2—75.

Sweepers (Crown House)—Rs. 35—1—40.

Those who are below the grade be pulled up to the lowest of the grade. They will draw dearness allowance according to the Bengal Chamber of Commerce scale as existing.

There are two categories of employees, Tracers and Filing Assistants (Correspondence or Drawings) classified under Subordinate Staff. We feel that this is not fair. With their designations they be lifted to the category of clerks. We fix the following grades for them:—

Tracers—Rs. 50—2—90.

Filing Assistants (Correspondence or Drawings)—Rs. 45—2—85.

The Tracers shall get an increment of Rs. 15 each and the Filing Assistants, an increment of Rs. 10. If the salary of any one does not fall in any stage in the time scale, he shall be given the next higher stage.

They shall draw dearness allowance according to the Bengal Chamber of Commerce scale.

They shall be governed by the provisions relating to the clerical staff.

Issue No. 3.—Retiring benefits and benefits on termination of service.

The Company have described the substance of the retiral benefits in the following terms:—

“(a) The Company has in operation a Pension Scheme which Indian members of the staff between the ages of 24 and 40 may join after one year's service with the Company and provided the employee's basic salary is Rs. 60 per month or over.

The rate of contribution both by the employee and the Company is 6.125 per cent. each of the employee's basic salary. Pension is payable at the age of 55.

(b) As certain members of the staff were outside the age limit when the Pension Fund was first started they were not eligible to join and in such cases the Company is making certain *ex gratia* monthly payments to the employees on retirement, the amount of such payments depending on length of service, age on retirement and salary at the time of retirement.”

The elaborate scheme based on actuarial calculation has been placed before us. This is an all India scheme. It is not our desire to make modifications in the scheme itself. We want to supplement the scheme in such a way that the benefits may come up to the standard prescribed by us.

Subordinate Staff cannot come under the scheme.

For the Clerical Staff we award for immediate introduction of a 10 per cent. Contributory Provident Fund. For the employees who have elected to come under the scheme, 6.125 per cent. of the salary out of the Provident Fund contribution (by both) shall be set apart. These employees shall get pension as under the scheme together with the balance of Provident Fund money. Others will get only Provident Fund money on retirement.

Now about benefits of the period previous to the introduction of the present Provident Fund scheme.

We do not propose to give any benefit for the period when one was able to come under the Pension Scheme but elected to remain outside. The case of every individual must be separately examined and it must be found when he came to be eligible to come under the Pension Scheme. What we prescribed below shall be available for the period of service previous to this eligibility. For that period when the employee could come under no scheme we prescribe a gratuity scheme of half month's salary for every completed year of service. The salary for the purpose shall be the salary drawn on the day previous to the enforcement of this award. This money shall be paid when the Provident Fund money shall become payable.

For the Subordinate Staff we award for introduction of 6 per cent. Contributory Provident Fund. For the period prior to the introduction of the Fund, we provide for gratuity at half month's salary for each year of completed service up to a maximum of 15 months' salary. The amount for this purpose shall be the salary drawn on the day previous to the introduction of the Fund. The amount shall be payable when the Provident Fund money shall become payable.

Issue No. 4.—Bonus.

Our scheme of award with the mercantile under this reference has been to leave the outside adjudication with an assurance to Companies about their intention of the continuance of the present practice. This scheme is inevitable as the demand was for "profit-sharing" bonus which was given up. Any assurance about continuance of the practice becomes meaningless with the firm with no previous provision of payment of bonus.

All the mercantile firms pay a month's salary as bonus during Pujahs for the extra expenses for that time. This has become customary. We do not want to come from our practice of leaving the matter to adjudication, but in view of the wide prevalence of the practice we advise the Company to pay a month's salary as bonus if business profits are satisfactory.

Issue No. 5.—Canteen and tiffin.

According to our scheme, these are concessions and are left outside adjudication.

Issues Nos. 6 and 7.—Accommodation and children's education facilities.

The demands under these heads are referred to the respective departments.

Issue No. 8.—Medical aid.

We do not propose to impose anything more than what the Company voluntarily give in account of service under the Company. The employees are not denied the benefits available to the other members of the society.

Issue No. 9.—Working hours and holiday overtime.

Working hours.—Clerical Staff have to work 9.30 a.m. and remain till 5 p.m. on Mondays to Fridays. On Saturdays they come at 9.30 a.m. and remain till 1 p.m. Excluding recess, they work for 36 hours in the week. This is excessive. They get one hour for recess on Mondays to Fridays. We have been asked to reduce one hour to half-an-hour and make 9.30 a.m. as the hour of attendance. The Company have to deal with many firms and longer hours are required. This does not tell on the present arrangements are confirmed.

The Company shall arrange the times for Subordinate Staff according to office requirements but they must not be made to work for more than 44 hours in the week excluding mid-day.

Holidays.—All holidays under the Negotiable Instruments Act shall be observed as holidays.

Overtime.—There has been no demand for change. The present arrangements shall continue.

Issue No. 10.—Leave.

The Company's Leave Rules are as follows:—
“(a) **Privilege Leave.**—Fourteen days' leave leave annually, cumulative over two years will be granted, with full pay, after each year's service of continuous and satisfactory service.”

casual leave.—Ten days' casual leave with full pay after twelve months' continuous service, non-cumulative, will be taken in extension of privilege

casual leave, non-cumulative, will be with half pay, to all employees during twelve months' service.

Leave.—After twelve months' period of and satisfactory service, sick leave will be at the discretion of the Company, the sick leave allowed being decided in individual case and dependent on the length of the individual with the Company, record during that service.

leave will be granted without medical issued by a qualified practitioner and my reserves the right to require the employee undergo examination by a doctor appointed by the Company. The Company's decision on the granting of sick leave in accordance with the above conditions will be final. Casual absence due to sickness not covered by certificate will be dealt with as casual subject to the limitation of casual leave as above.

These rules are confirmed.

11.—Travelling allowance on duty as also on leave.

Company's rule is as follows:—

travelling on Company's business full and other expenses are paid but no are allowed when travelling on leave." These are confirmed.

15.—Uniforms and umbrellas for menials.

can be given for official work.

Issue No. 12.—Service conditions.

(a) *Probation and confirmation.*

stated that the period of probation shall be six months, though confirmation may be earlier if the candidate is found suitable.

(b) *Service record.*

and that service records be maintained adverse remarks shall be incorporated giving the person an opportunity of explanation.

Enquiry before punishment: And

14.—Dismissal, discharge and retrenchment or other punishments.

of retrenchment, the principle of "last in, first out" shall be applied. Exceptions may be made in case of persons with exceptional service.

raises the question about dismissal and punishment. The employer has no doubt the right to punish an employee but we frame the rules which must precede any punishment.

the first thing to be done is that a charge shall be made and the person proceeded against shall be supplied with a copy of the charge and the explanation which this is based. The person proceeded against shall submit his explanation. A time limit should be fixed for the matter to be brought into. If the person proceeded against is found innocent, the matter ends. If he is found guilty the employee concerned shall be supplied with a copy of the finding and the punishment proposed to be imposed. The employee will get an opportunity to explain before the punishment is imposed.

If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) *Retiring age.*

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of clerks is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's Grade. We award that there should be no bar to promotion from clerical grade to the Officer's Grade or from Subordinate Staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the Clerical Staff.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Grade B—Rs. 110—7—180.

Grade C—Rs. 70—4—134.

Grade D wherever it exists is abolished. For Sarkars or outdoor clerks—Rs. 65—4—134.

Stenographers and Adding Machine Clerks shall not be placed in any grade below Grade C. It was suggested by Messrs. Turner, Morrison & Co., Ltd., that the existing grade for Stenographers starting at Rs. 90 be retained and that the B Grade be abolished for efficient Stenographers. We are of the opinion that efficient Stenographers should be placed in the B Grade. Probationers shall get the lowest grade to which they belong.

Grades of pay had hitherto been fixed by the employers. Henceforward increments shall be automatic. Increments shall be granted by way of promotion in accordance with the existing scheme for promotion.

clerical staffs and clerks, a flat increment of 10 shall be allowed. If despite such increment a member does not reach a stage in the despatch, he shall be promoted at the next higher grade. This increment by way of adjustment will be at the right of the employees to the usual increments which were either due during pendency of award or are due after publication of the award.

Subordinate staff.

The three Companies have adopted the Chamber of Commerce Scheme of dearness allowance. The total emoluments of the members of subordinate staff which are not below Rs. 60 shall be sufficient for any interference. We are, however, distinctly of opinion that the basic salary of permanent members of the subordinate staff should not be less than Rs. 30. We accordingly recommend that those who are getting less than Rs. 30 per month shall be pulled up to Rs. 30. The dearness allowance in the basic pay shall be deducted from the dearness allowance. For future recruits, none shall get less than Rs. 30 as basic salary and the dearness allowance shall be reduced by the amount which the minimum of the lowest grades is required to bring it to Rs. 30, so that the present minimum emoluments are not disturbed. Part-time employees and Motor Drivers shall be paid salary and dearness allowance shall be fixed by negotiations. Subject to this modification, existing gradings, scales of increment and dearness allowance shall stand.

On retirement on termination of service.—The three Companies have their individual rules which are detailed below:—

Messrs. Shaw Wallace & Co., Ltd.

Retirement benefits.—Clerical and Subordinate.—Shaw Wallace & Co. maintain a Pension Scheme and a Provident Fund. The Pension Scheme provides, however, certain commutation rights.

It appears later in which Shaw Wallace & Co. request to be allowed to continue their pension scheme, with no Provident Fund.

Shaw Wallace & Co. have already some years followed the method of paying gratuities as set down for the Chamber.

Company also and perhaps exceptionally pays gratuities to the dependants of employees who die whilst in our service. The sum paid is fixed at one the same scale as they referred to in the preceding paragraph. For ready reference it is given below:—

For each completed year's service.	
For but under 10	One-third of a month's pay.
For but under 15	One-half of a month's pay.
For 15 and over	One month's pay.

Company have no Provident Fund. Under the Pension Scheme, however, they grant to permanent employees a life pension of a half of the monthly salary drawn at date of retirement. At the date of retirement a dearness allowance is also paid, on first 100 of pension 85 per cent.; next Rs. 100 per cent., balance 21½ per cent.

Normally an employee should have reached the age of 55 and have 30 years' service in order to be eligible for full pension. An employee forced to retire earlier for health reasons receives (provided he has not less than 20 years) a pension proportionate to the service he has given as against 30 years to earn full pension.

A pensioner is permitted to commute up to one-third of his monthly pension. This is effected by a lump sum payment of 120 times the amount commuted. For example, a pensioner awarded Rs. 20 could commute a portion of Rs. 30, leaving Rs. 3,600. The pension is then reduced to 10 per cent. of the original pension.

Applications are received frequently from dependants of ex-employees who die whilst on pension. Each case is considered on its merits, the result usually being that a grant is made. The Company claim to have tried to introduce some practicable rough but fair uniformity into the fixing of these grants, and in consequence the procedure is:—

(a) Case where the deceased pensioner has not commuted the full allowable 25 per cent. of his pension.—The Company pay as a grant whatever further money they would have paid had the pensioner commuted 25 per cent. of his pension. An example is:—

Service 30 years. Retiring salary Rs. 240.
Full pension of Rs. 120 awarded. Commuted nil. Pensioned died after drawing pension for 24 months.

	Rs.
Paid as pension Rs. 120 × 24 =	2,880
Payable—	
Commutation Rs. 30 × 120 = Rs. 3,600	
Pension Rs. 90 × 24 = Rs. 2,160	5,760
Grant to dependants ..	2,880

(b) Case where the deceased pensioner had commuted the full permissible 25 per cent. of his pension.—The Company feel in these cases rather less of an obligation to make grants; nevertheless when it seems that hardship may be present the Company sanction a grant making up the commutation money plus pension actually paid to what would have been paid had the deceased died in service. It is shown earlier in these notes that the dependants of a clerk who dies in service receive a grant of one month's pay for each completed year of service. An example is:—

Same details as earlier case, excepting that 25 per cent. of the pension was commuted.

	Rs.
Paid as commutation Rs. 30 × 120 = 3,600	
Paid as pension Rs. 90 × 24 = 2,160	5,760

Payable on the assumption that deceased died while in service Rs.

Rs. 240 × 30 = 7,200	
Grant to dependants ..	1,440

Messrs. Turner, Morrison & Co., Ltd.

(a) The Provident Fund Scheme applied to all clerical and permanent subordinate staff.

(b) The rate of contribution to the existing Provident Fund, membership of which is open to all permanent staff and is compulsory to all such future staff, is 6½ per cent. of basic salary, a like contribution being made by the Company in accordance with the rules of the Fund.

(c) The Company grant a retiring pension. This pension is calculated on a qualifying period for maximum pension to 25 years, and is based on average salary over the last 5 years of service multiplied by the total number of years' service divided by 50, with the proviso that the maximum shall not exceed 50 per cent. of the salary. The pension is certain for 5 years. We are told that it is life pension. Dearness allowance at 50 per cent. maximum Rs. 25. The pension is added against the sum due from the Provident Fund.

a deduction of Re. 1 per mensem from the pension for every Rs. 100 of the Company's contribution to the Provident Fund.

(d) For employees retiring owing to incapacity, gratuities, as follows, are payable in addition to the Provident Fund, if the member so desires it in place of a pension, subject to the same deduction as mentioned under (c):—

15 years' service on doctor's certificate—	6 months' salary.
20 years' service on doctor's certificate—	10 months' salary.
25 years' service on doctor's certificate—	13 months' salary.
30 years' service on doctor's certificate—	16 months' salary.
35 years' service on doctor's certificate—	19 months' salary.
40 years' service on doctor's certificate—	20 months' salary.

Monthly salary to be taken at average substantive salary drawn during last five years, reduced by Re. 1 per Rs. 100 of firm's share of contribution to Provident Fund.

(e) *Widows*.—In the case of widows three-quarters of the sum which would have been granted to the husband is given to the widow and in the case of a monthly compassionate allowance when the total sum of the monthly payments reach the amount which would have been given had a lump sum been granted. The above gratuity scheme has been granted by custom only.

Messrs. Andrew Yule & Co., Ltd.

Clerks.—(a) Provident Fund from 1st January 1926. Rate of contribution is $6\frac{1}{4}$ per cent. of the basic salary.

(b) For clerks whose service began prior to 1926, a cash gratuity is granted calculated on what the Company would have subscribed to the Provident Fund had it been in existence at the commencement of their service.

(c) Life pension based on 50 per cent. of basic salary at date of retirement less interest at 4 per cent. on employers' contribution to Provident Fund.

(d) In addition to the above, in special cases of long service, leave on full pay and allowance with benefit of Provident Fund contribution is granted for limited periods.

Subordinate staff.

No Provident Fund, but subject to the discretion of the directors, pensions are normally granted as follows, subject to the employee resigning on account of health or old age with the consent of the Company:—

(a) An employee who has completed 30 years' service with the Company, a monthly pension equal to half his monthly salary at the time of retirement.

(b) An employee who has completed 25 years' service with the Company, a monthly pension equal to $\frac{3}{8}$ ths of his monthly salary at the time of retirement.

(c) An employee who has completed 20 years' service with the Company, a monthly pension equal to $\frac{1}{4}$ th of his monthly salary at the time of retirement.

The Company are agreeable to substitute the existing scheme by a 10 per cent. Contributory Provident Fund for the clerks and to compensate them by a gratuity as if the 10 per cent. contributory fund existed from before.

Shaw Wallace & Co., Ltd., Calcutta.

The Union is agreeable to accept the existing scheme for the existing staff but wants us to award for the new entrants a contributory Provident Fund with contribution of 10 per cent. of the salary for the clerical staff and $5\frac{1}{2}$ per cent. for

members of the subordinate staff. We feel the existing scheme is better than the Provident Scheme. We direct that the existing scheme shall stand with this modification that the event of premature death of an employee either in service or after retirement, his legal heirs shall get the gratuity which would have been payable if he had died in service less any amount to him by way of pension or commutation of pension or both.

Turner, Morrison & Co., Ltd.

The existing scheme shall continue with modification that what is available to the wife of an employee shall be available in her absence to the minor children of the employee till they attain the age of majority.

Andrew Yule & Co., Ltd.

With the concurrence of the Union, we direct that the existing scheme shall continue for clerks but for members of the subordinate staff the existing scheme shall be replaced by a 6 per cent. contributory Provident Fund which shall be supplemented by a gratuity at half month's salary for each completed year of service prior to the inauguration of the Provident Fund. For the purpose of calculation of this gratuity the basic salary shall be that which the employees were getting just before enforcement of this award.

Working hours, leave, holidays and overtime allowance.

Messrs. Shaw Wallace & Co., Ltd., are willing to adopt the Bengal Chamber of Commerce Rules about working hours, holidays, privilege leave, casual leave and overtime allowance. These are:—

These are *ex gratia* payments. These points are accordingly kept outside adjudication. All the three firms are, however, paying some tiffin allowance to both clerical and subordinate staffs.

Service conditions.

(a) Probation and confirmation.

It is awarded that the period of probation shall not exceed 6 months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explain- ing his conduct.

(c) Enquiry before punishment: And

Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the fol- lowing rules which must precede any punish- ment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceed- ed against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the con- cern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceed- ed against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the per- mission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of ser- vices and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get

employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel however that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's Grade. We award that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Bonus.

The only demand in the written statement of the Federation was for profit-sharing bonus. This demand was subsequently withdrawn by the Federation through Mr. N. De, Counsel. All the three Companies are however paying some bonus annually and have assured us that this will not be discontinued.

Medical aid.

The Companies have some arrangements and we do not propose to enlarge on them.

Uniforms and umbrellas to menials.

Uniforms shall be supplied to the menials as also umbrellas for out-door works.

Travelling allowance.

Travelling allowance is allowed for journey performed in course of duty. Travelling allowance to employees on leave is rejected.

Other existing benefits not covered by this award are not interfered with.

under the Government of West Bengal, Commerce, Labour and Industries Department, No. 135Lab., dated the 17th January 1948, industrial disputes that had arisen or were apprehended between the employers of mercantile and their associate firms specified in column 1 of the two lists Nos. 1 and 2 annexed to the order and their clerical and all subordinate in their offices as represented by some trade unions mentioned against firms in column 2 of the order, and others represented by other registered trade unions as might have been permitted by the Industrial Tribunal hereinafter mentioned to be represented individually for just and equitable reasons, were referred for adjudication to a Tribunal constituted by Sri Asutosh Das as Additional District Judge as Chairman and Sri Sailesh Chandra Chakravarty and Sri Chandra Dutta Gupta, Additional District Judge as members;

And whereas the services of Sri Sudhir Chandra Dutta Gupta, one of the members aforesaid, being no longer been available, the said Chandra Dutta Gupta and Sri Sailesh Chandra Chakravarty, as members aforesaid, have given the award in respect of the industrial dispute between the firms mentioned hereinbefore, namely, Messrs. Jessop & Co., Ltd., 93, Netaji Subhas Road, Calcutta, being item No. 209 in list No. 1, mentioned and their employees, as shown in annexure hereto;

Now, therefore, in exercise of the power conferred by sub-section (2) of section 15 read with sub-section (3) of section 19 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to make the following order in direct with reference to section 17 of the Act that the award be published in the *Calcutta Gazette*.

The award made by the said Chairman and said Sri S. C. Chakravarty shall bind the company and their employees aforesaid as specified therein and shall remain in operation for a period of one year with effect from the 17th February 1949.

ANNEXURE.

In the matter of Reference No. 135(Lab.) of the Government of West Bengal, dated the 17th January 1948, and in the matter of industrial disputes between the employers and the employees of Messrs. Jessop & Co., Ltd. (being item No. 209 of list No. 1 of the order of reference).

PRESENT:

SRI ASUTOSH DAS GUPTA, Chairman.

SRI SAILESH CHANDRA CHAKRAVARTY, Member.

A Tribunal was constituted by the Government of West Bengal by order No. 135Lab., dated the 17th January 1948, with Sri Asutosh Das as Chairman and Sri Sailesh Chandra Chakravarty and Sri Sudhir Chandra Dutta Gupta as members. Sri Sudhir Chandra Dutta Gupta being absent and his services having been rendered unavailable, the case was heard by the Chairman and the other member present.

For the Company.—Mr. P. P. Ghosh, Counsel.

For the Union.—Mr. B. K. Chakravarty, Counsel.

AWARD.

Messrs. Jessop and Company are an engineering firm. Although this firm was covered by the award of the Tribunal generally called the Engineering Tribunal, the Clerical Staff was not included and it has been agreed that only monthly-clerks come under the present adjudication. The Company have outside some hourly-rated clerks called Works Clerks. The Company also employ a number of army pensioners for Watch and Ward, the terms of service of whom are being determined in consultation with the Sub-Regional Payment Officer at Lansdowne.

The existing grades and scale are—

Clerical Staff.

- Grade A—Rs. 150—10—250.
- Grade B—Rs. 100—7—170.
- Extension B1—Rs. 170—7—205.
- Grade C—Rs. 60—4—124.
- Extension C1—Rs. 124—4—156.
- Grade D—Rs. 60—2—90.
- Extension D1—Rs. 90—2—100.

Subordinate Staff.

- Head Jamadar—Rs. 45.
- Assistant Jamadar—Rs. 40.
- Carriers, bearers, bill and bank sircars, peons, ferio coolies and waterman—Rs. 20—1—30.

Dearness allowance is paid to the members of clerical and subordinate staffs according to the Bengal Chamber of Commerce.

Remarks.—The A, B, C and D grades are the same as the Bengal Chamber of Commerce had prior to the recent award. The extension grades appear to have been intended to increase the ceilings of the first three grades B, C and D. We have prescribed the following grades for the Bengal Chamber of Commerce:—

General Grade—Rs. 260 and upwards (ceiling and rates of increment left to the discretion of the employers).

- Grade A—Rs. 160—10—260.
- Grade B—Rs. 110—7—180.
- Grade C—Rs. 70—4—134.
- Grade D—Rs. 70—3—130.

We have adopted these grades generally for the mercantile firms with slight alterations. In most cases we have abolished the D Grade. The Company are agreeable to increase the existing grades throughout by Rs. 10. We are told that at present there is no non-Matric in the staff. We do not see the necessity of keeping the D Grade. About the extension grades, these extensions are welcome to those who are unfit for promotion to higher grades, but will delay promotion to higher grades for those who are competent. There cannot be and should not be any scheme for improvement of the incompetent people specially when it affects the competent people. We accordingly prescribe the following grade:—

General Grade—Rs. 260 and upwards (ceiling and scales of increment left to employers).

- Grade A—Rs. 160—10—260.
- Grade B—Rs. 110—7—180.
- Grade C—Rs. 70—4—134.

The clerks in Grade D shall be pulled up to Grade C and the clerks of all grades shall get a uniform increment of Rs. 10. If after these adjustments the salary of any one does not reconcile with the salary of any one in the revised grades and scales, all be placed at the next higher stage. The adjustments shall not affect the claim of workmen to the usual annual increments of the grade. No man whose salary is beyond

the maximum of a grade shall be put in that grade. Probationers shall get the lowest salary of the grades to which they are appointed. Stenographers shall not be placed below Grade B and ordinary Typists below Grade C. The clerks shall get dearness allowance according to the Bengal Chamber of Commerce scheme.

Subordinate Staff.

Although the subordinate staff was not exempted from the award of the Engineering Tribunal, the Company are agreeable to raise the lowest grade to Rs. 30—1—40 with corresponding reduction from dearness allowance. We leave this point outside the present adjudication with this observation that the gesture of the Company in this direction will be appreciated. This award will govern the clerical staff of the Company's office in Calcutta, 63, Netaji Subhas Road.

Bonus.

We are told by the Company that they never paid any bonus except what is called Attendance Bonus and Efficiency Bonus which was paid to selected people. The Company plead that under duress, they were compelled to pay bonus in 1947. The Attendance Bonus was paid to the clerks only. The menials were not entitled to any such bonus. Those of the clerks who took casual leave or sick leave were not entitled to Attendance Bonus. The rate was half month's pay. Recently owing to some disturbance in the factory, business of the Company had some set-back. Since we gave the award in the Bengal Chamber of Commerce, it was found that almost all the mercantile firms pay bonus and that they assured us that the existing practice of paying bonus would not be discontinued. Thus, bonus has become customary with the mercantile firms. We accordingly recommend that the present practice of paying Attendance Bonus shall be continued with the following modifications till the Company are in a position to pay bonus to all employees at one month's basic salary:—

- (1) Attendance Bonus shall be paid to the menials also.
- (2) For the purpose of calculation of Attendance Bonus absence during recognised holidays, Sundays and prescribed leave (privilege leave, casual leave, sick leave) shall be considered as duty.
- (3) For those who are absent except as stated above, Attendance Bonus shall be reduced proportionately.

Benefits on retirement or on termination of service.

The Company have a Contributory Provident Fund instituted in 1934 which is available to all employees including clerical and subordinate staffs in the office and the workers in the factory. For employees drawing a basic salary up to Rs. 200 the contribution on both sides is 6½ per cent. of the basic salary and for others 5 per cent. Pending full maturity, this is supplemented in respect of employees of longer service by gratuities based on an actuarial formula. The rules are detailed in Appendix A. It has been argued for the Company that any alteration in the scheme will affect the workers in this that the alteration, if any be prescribed for the clerical and subordinate staff will bring in discontent among the workers and that the workers share in the interest of lapsed deposits will be reduced. Ten per cent. Contributory Provident Fund for the clerks has become almost customary. Only in cases where there is provision for a guaranteed higher rate of interest, the rate of contribution has been allowed to stand at 8½ per cent. Workers have no justification to demand equal conditions for the clerks and simply because the little benefit in the shape of interest will be reduced, they cannot be justified to make a grievance against the increase in

the rate of contribution for the clerks and thereby do a permanent mischief of no small magnitude to the Clerical Staff. We direct the contribution of both sides shall, for all members of the Clerical Staff, be increased to 10 per cent. without any regard to the basic salary. For members of the Subordinate Staff, the contribution on both ways at 6½ per cent. of the basic salary is considered sufficient. The actuarial formula is not intelligible to the common man. The whole object of this adjudication is to remove all misunderstandings. We accordingly direct that the clerks who were in service prior to 1934 (inauguration of the Provident Fund Scheme) shall be compensated for the period not covered by the existing Provident Fund Scheme by a gratuity at half month's pay for every completed year of service, and this is recommended for members of the Subordinate Staff at quarter month's pay. The new scheme shall be introduced within a month from the date of publication of the award. The modification for members of the Subordinate Staff of the office is only a recommendation, for they are outside present adjudication.

Holidays, leave, working hours and overtime allowance.

In supersession of the existing rules, we award the following:—

Holidays.—All holidays under the Negotiable Instruments Act shall be observed.

Leave.—Existing scheme which is given shall stand.

Casual Leave.—Ten days with full pay, non-cumulative.

Privilege Leave.—Fourteen days with full pay, non-cumulative.

Sick Leave.—Subject to certification by the Company's medical officer or such other practitioner as may be deputed by the Directors, sick leave up to one month on full pay and two months on half pay will be allowed in cases of prolonged illness, but while these will always receive sympathetic consideration, it is to be emphasised that frequent or chronic indisposition will be regarded as cause for discharge.

It is to be noted that there is no specific limitation of the total amount of sick leave available in any one year or the whole course of service, other than the general proviso that frequent or chronic indisposition will be regarded as cause for discharge, and bearing in mind that the young are often even more subject to illness than the old, we consider this to be preferable to the closely defined provisions of the Bengal Chamber of Commerce.

Working hours.—Thirty-eight hours a week excluding the recess period. The actual timings shall be fixed by negotiation.

Overtime allowance.—For works outside office hours or on Sundays and holidays, members of the clerical and subordinate staffs shall get 1.25 times the normal hourly wages (basic salary).

Medical aid.

The Company have some arrangements. We do not propose to enlarge upon them.

Canteen, tiffin, accommodation allowance, children's education facilities.

These are considered *ex gratia* where a healthy pay structure is laid down. These are accordingly kept outside adjudication.

Service conditions: Recruitment, probation, confirmation, promotion and transfer; rate of pay, age, service records, enquiry before punishment.

We lay down the following rules:—

Service conditions.

(a) Probation and confirmation.

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment; and

Dismissal, discharge and retrenchment or of punishments.

In case of retrenchment, the principle of "come, first go" shall be applied. Exception may be made in case of persons with exceptional abilities.

Now comes the question about dismissal or punishment. The employer has no doubt the right of punishing an employee but we frame following rules which must precede any punishment:—

The first thing to be done is that a charge sheet be framed and the person proceeded against shall be furnished with a copy of the charge and facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is not the head of the concern at Calcutta, an appeal shall lie with him within 7 days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he shall forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If the authority be other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. A clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These provisions are not helpful to the person proceeded against. An outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient work.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for young people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

I]

Appointment Rules: Recruitment, promotion and transfer.

transfer means allocation of different work. Federation wants that there should not be such transfer. We feel, however, that transfer is necessary for two purposes: (1) to enable a particular clerk know work of the various departments; and (2) for stock-taking of arrears by one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Union or the management. The employer will select his own

Recruitment.

(Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

Preference should be given to retrenched employees, if qualified.

(i) In the matter of appointment to the higher grade of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

When comes the question of promotion from the lower grade to the Officer's Grade. We award there should be no bar to promotion from lower grade to the Officer's Grade or from Subordinate Staff to clerical grade. As selection depends on the management, we cannot dictate a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. It must depend on suitability according to the management. We, however, like to see that such promotions do change the work of the clerk and are conducive to more work by the Clerical Staff.

Recognition of the Unions as also Jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of award and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it is the business of that Court to order for recognition of the Unions.

We find the Company have from time to time issued circulars which are apprehended to affect service conditions. Some of these circulars issued during the pendency of these proceedings.

All the circulars have not been placed before us. To remove all apprehensions, we issue that any rule which is not in entire agreement with the rules laid down by us shall cease to have any effect on publication of the award.

Travelling allowance.

For travelling allowance shall be paid for days performed in course of duty. The award for travelling allowance for an employee cannot be allowed.

Umbrellas and uniforms to menials.

Uniforms.—These are supplied. The practice continues.

In terms of the reference, this award shall be binding only on members of the Clerical Staff of the head office.

APPENDIX A.

1. From 1st November 1940, all employees will be retired after 35 years' service or at the age of 55, whichever is earlier, subject to an extension of not more than two years at the discretion of the Directors.

2. Since this may bear hardly on those who are already too old to derive full benefit from the Provident Fund by reason of it having been in operation only a short time, a gratuity or pension may be granted, at the sole discretion of the Directors to any employee who retires under this rule before 31st October 1950, provided that—

- (i) He has completed at least 20 years' service.
- (ii) He has been a member of the Provident Fund since 1st November 1940 or earlier, unless at that date he had completed at least 30 years' service or was over 50 years of age.
- (iii) His attendance has been regular throughout his service discounting any periods for which he may have been laid off by the Company.
- (iv) He does not leave the service of the Company against the Company's wishes.
- (v) He is not dismissed, or has not merited dismissal, for any of the offences Nos. 10 to 22 enumerated in the Company's discharge certificate.
- (vi) The Directors may give special consideration to employees with less than 20 years' service in cases of enforced retirement, chronic illness, disablement or death.

For Jessop & Co., Ltd.,

(Sd.) P. F. S. WARREN, *Director.*

21st July 1939.

N.B.—In normal cases a cash gratuity is payable, based on the following formula:—

$$G = A \cdot p^x \cdot n^y$$

$$\left\{ \begin{array}{l} G = \text{Gratuity.} \\ A = 3 \cdot 2 \\ p = \text{Rate of pay on retirement.} \\ x = 0 \cdot 8 \\ n = \text{years of service.} \\ y = 0 \cdot 7 \end{array} \right.$$

From this the Company's contributions to the Provident Fund is deductible.

Such payments are subject to specified qualifications.

By order of the Governor,

D. S. P. MUKHERJEE, *Jt. Secy.***ORDER.**

The trustees, however, shall be the final authority to decide whether an employee shall be permitted to become a member of the fund and if so on what date, and if they so desire, permit an employee to become a member though he has not fulfilled the conditions stated above. In the latter case, however, the member shall not thereby be entitled to the rights and privileges of the services of permanent staff.

5. Contribution.—The Company shall contribute in respect of each employee at the end of each year an amount equal to that paid by the member as subscription during the year. For this purpose however, every month, the Company shall hand over to the trustees an amount equal to the sum realised from employees as compulsory deposits as stated before, being the total amount of Company's contribution to the fund for the previous month.

6. Nomination.—A member on his joining the fund or as soon thereafter as possible elect one of his dependants as a nominee in the prescribed form (Form C) to whom the money at his credit shall be paid if and when the same becomes payable on account of the death of the member.

7. Management.—The management of the fund and all works incidental to same shall be the responsibility of the trustees. The trustees may authorise one or more persons to carry on the duties of the trustees. The trustees may, by arrangement with the Company, utilise the service of the staff of the Company or any other person for clerical or other assistance and may at their discretion remunerate them.

The expenses of such clerical and other expenses, the preliminary and other incidental expenses including the cost of preparing the trust deed and other necessary expenses of management shall be charged to and borne by the fund.

8. Trustees.—The trustees shall at first be constituted of—

(1) The Secretary of the Company,

(2) The General Manager of the Company,

(3) The Accounts Officer of the Company, and they should within 31st December 1949, call a general meeting at the head office of the Company of the members of the fund to elect five members as trustees of the fund of which—

(i) one shall be out of the Directors of the Company.

(ii) two shall be out of the officers of the fund.

(iii) two shall be out of the other members of the fund.

On such election of trustees the first trustees shall *ipso facto* cease to hold office.

A trustee shall hold office until and unless—

(1) he submits his resignation in writing and the same is accepted either by a meeting of the Board of Trustees or by a general meeting. The meeting to consider such resignation shall be held within 10 days of receipt of the letter of resignation;

(2) he is removed from the said position by a general meeting of the members. For such removal 70 per cent. of the vote of the members present in person or by proxy at the meeting shall be necessary;

(3) he is adjudged an insolvent or is convicted of an offence involving moral turpitude or is proved to be dishonest or is found to be involved in fraud;

(4) he is declared a lunatic;

(5) he ceases to be connected with the Company in the capacity and in which he was elected by his electorate.

9. Meeting of Trustees.—The trustees shall elect one out of them as Chairman who shall hold the post unless he ceases to be a trustee or is removed from the said post by the unanimous vote of other trustees or by a resolution of the 70 per

cent. members in a general meeting. Ordinarily the trustee elected out of the Directors of the Company shall be the Chairman. The trustees shall elect one or more persons from among themselves or any other person to hold the post of the Secretary and/or Treasurer to carry on the duties of the meeting of the trustees and other day to day works as may be directed by the trustees. The Secretary and/or the Treasurer shall hold office until and unless removed by the trustees or by 70 per cent. vote of members in a general meeting. For any meeting of the trustees three members present shall form a quorum. In case of equal division in a meeting of the trustees the casting vote of the Chairman will decide the matter.

Unless otherwise directed by a general meeting of the members, the trustees shall not be paid any remuneration. They may, however, be paid actual expenses incurred by them to attend the meetings and other expenses incurred by them for the fund.

10. Responsibilities of the trustees.—No trustee shall be responsible and chargeable save and except for monies actually taken by him—notwithstanding his having signed any receipt or chargeable for the acts, defaults or neglect of the bank with whom the monies of the fund are deposited nor for any loss unless the same happens through his own wilful act or omission.

11. Investment of fund.—(a) A bank account in the name of Metropolitan Printing and Publishing House Staff Labour Provident Fund shall be opened with a scheduled and clearing bank which shall be operated by the Secretary and the Treasurer or such other person or persons as may be authorised by the trustees. All collections of the fund shall be deposited to the bank. At the beginning of every month at least 70 per cent. of the money not immediately required for the purpose of the fund shall be invested in trust securities as specified in the Indian Trust Act.

The trustees shall be the custodians of the securities and other assets.

12. Accounts.—The accounts of the fund shall be kept in the head office of the Company. In every year the trustees shall arrange for preparation of a balance sheet as at 31st March and a revenue account for the year showing the amount received from the employees and the Company, interest received from the investment of the fund's money, the amount divided amongst the members of the fund and the expenses incurred for the fund, any sum forfeited to the fund and all other money (if any) that should be properly brought into account.

Provisions should also be made for appreciation and depreciation of investments and other assets of the fund.

A reserve fund shall be created out of the surplus amount available for distribution. For this purpose 10 per cent. of the aforesaid amount shall be set apart yearly till the fund amounts to Rs. 25,000.

The division amongst members of the sum available as at 31st March in every year shall be made in proportion to the amount at credit of each member as on that date.

The accounts of the fund shall be audited by the Company's auditors within 30th June every year and the audited accounts and balance sheet along with auditors' report shall be placed before a general meeting of the members within 6 months of the closing date.

Every member shall be supplied with a printed copy of the audited balance sheet and revenue account and the auditors' report as also a statement showing the balance at his credit as at 31st March.

13. Withdrawals.—Withdrawals by a member shall be permitted only in the following circumstances. All such withdrawals shall be subject to the written sanction of the trustees and the conditions in this matter shall be final:—

(1) (a) To pay medical expenses of the member and/or his dependants.

(b) To pay expenses in connection with marriage of the member or his dependants.

(c) To pay for the funeral expenses of the dependant of the member.

(d) To pay for expenses to be incurred by the member for his foreign education.

(e) To pay for expenses on building or purchasing a house or a site for a house incurred or incurred by the member provided that the property is assigned to the trustees as a first charge.

(f) To pay premia on policies of insurance on the life of the member or his wife provided the policy is assigned to the trustees and receipts granted by the Insurance Company for the premia or certificates by the Company showing such payments are handed over to the trustees within three months of such withdrawals.

The total amount of withdrawals in any one year under clause (a), (b), (c) shall not exceed 3 months' salary of the member and in case of (d), (e), (f) shall not exceed 50 per cent. of the amount at credit of the member as on date of the withdrawal. The member may be permitted to withdraw on one or more grounds as specified in clause (a), (b), (c), (e) and (f) above provided however that the total of such withdrawals shall never exceed 60 per cent. of the total amount at credit of the member as on date out of his own deposits only without crediting Company's contribution and any interest or profit which might have been credited to his account. Except in cases of sub-clauses (c) and (f) of clause 13 all withdrawals must be repaid in equal instalments within 12 months from the date of withdrawals.

The Company shall deduct such instalments from the members' salary and pay them to the trustees.

In respect of withdrawals of over Rs. 100 for amounts which are not repaid within 12 months from the dates of the respective withdrawals an interest at 4 per cent. per annum shall be charged by the trustees on balance which remain at the end of such twelve months till the whole amount is repaid. Provided however that the trustees at their discretion may charge interest on such terms as may be decided by them.

The advances as aforesaid and the interest thereon shall always remain as first lien on the dues of the member unless they are paid in cash.

14. Cessation of Service.—A member shall be entitled to receive the Company's contribution together with interest provided the following conditions have been fulfilled, viz.:—

(a) He has put in a continuous service for at least 8 years, including the period before the commencement of this scheme. Provided that this condition shall not apply in the case of his death or permanent disability being declared as an invalid by the trustees.

(b) He is not dismissed from service by the Company for fraud, criminal offence or for indiscipline or for any other reason carried out by the Company which he is not entitled to receive.

to carry out according to the terms of his service. Provided, however, that the decision of the Company in this matter shall be final.

No order, attachment or process of any Civil or Revenue Court has been served upon the trustees of the Company or any person on their behalf by which any money standing to the credit of any member in the fund have been attached or been directed to be paid into such Court or to be withheld from payment or to vest in any Receiver.

He has not been adjudicated an insolvent or committed an act of insolvency or suffered any execution proceedings to be taken against his assets.

He has made no assignment or any other disposition of any sum standing to his credit in the fund of which the trustees have received a notice.

He retires from Company's service by submitting proper and timely resignation after putting in at least 8 years' continuous service to the Company and his resignation is accepted by the Company.

In cases where the member is not entitled to the Company's contribution and interest the said contribution shall be forfeited and returned to the member.

On cessation of service of a member by death, permanent disablement, resignation, etc., all monies which are due to Company or any other concerns for loan, advances or goods purchased by a member or for loss incurred by the member for fraud or negligence of the member shall be deducted from the amount at credit of the member and paid to such Company by the trustees.

Repayment.—On cessation of service of a member other than by death, the amount which is payable to him according to these rules, shall be paid to him within three months of the termination of service unless the same cannot be paid within the stipulated period for special reasons.

In the event of the death of a member the amount due to the account of the fund shall be paid to the nominee. If the nominee be a minor, the trustees shall be at liberty to pay the amount to such guardian of the nominee as the trustees may be satisfied. In case no nominee has been named by the member, the amount shall be paid to the legal heir of the member.

Notwithstanding anything contained in rule 14 in the event of a subscriber having been declared an insolvent the trustees may at their discretion with the consent of the Company make payment of the amount contributed by such member to his widow and/or to any one or more of them in such manner as they think fit.

Rules.—The decision of the trustees shall be final and binding upon all members in all matters relating to or connected with the interpretation of these rules and with the fund of the Company therefor.

Closing of fund.—The trustees shall have the power to close the fund if they shall consider that it is advisable or necessary to do so. In such case the fund shall be divided among the members by paying to each member a sum equal to the amount of his contribution as may be determined by the trustees at the time of closing the fund.

SCHEDULE A.

Issue No. 12.—Service conditions.

(a) Probation and confirmation.

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found satisfactory.

(b) Service record.

We award that service records shall be maintained and that adverse remarks shall be deleted after the prescribed period.

(c) Enquiry before punishment: And

Issue No. 14.—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of clerks is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of careers of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Federation or the Union.

Recruitment.

(i) Other things being equal, preference be given to relations of employees, not service. Between relations of employees, appointment shall go to the more qualified.

(ii) Preference should be given to employees, if qualified.

(iii) In the matter of appointment to grades of clerk, promotion from lower shall be the rule. Only in exceptional case merit may be made from outside.

Then comes the question of promotion clerical grade to the Officer's Grade. That there should be no bar to promote clerical grade to Officer's Grade or to ordinate staff to clerical grade. As selection depends on the management, we cannot say that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We have to remind that such promotions do not affect the outlook of the clerk and are conducive to efficient work by the clerical staff.

Issue No. 17.—Recognition of the Union Jurisdiction of the Tribunal to recognition.

Recognition of the Union is not a co-service and is not an industrial dispute. The meaning of the Industrial Disputes Act and the Labour Courts are going to be established. It will be the business of that Court to recognize the Unions.

By order of the
D. S. P. MUKHERJEE

1. The Dunlop Rubber Co. (India), Ltd., shall pay to the Federation of Mercantile Employees' Union, Ltd., a sum of Rs. 10,000 towards the cost of the settlement.

continue to work for the genuine benefit of the Company's employees and will be maintained and conducted in accordance with the Trade Unions Act.

Membership of or resignation from the Union shall be voluntary and at the discretion of the individual concerned.

No undue pressure to join should be brought by the Union upon employees who do not wish to join the Union, nor shall the Union stand in the way of any member resigning from the Union if he wishes to do so. The Company for their part shall not prevent any employee who wishes to join the Union from doing so.

It is agreed by the Company that there will be no discriminatory treatment or victimization directed against any member of the Union on account of his membership. The Union for their part undertake that there shall be no intimidation or interference with any non-Union employee of the Company.

In the case of discharge of any employee who is a member of the Union, the Union will be informed before the actual discharge takes place.

2. Dearness Allowance.

It is agreed that dearness allowance at the scales recommended from time to time by the Bengal Chamber of Commerce will be paid by the Company.

3. Promotion.

Promotion to senior grades will be based on ability, initiative, general efficiency and seniority. As far as is possible appointments to senior grade positions will be made from existing members of the Company's staff, which has always been, and still is, the Company's policy.

4. Provident Fund.

The existing Staff Provident Fund provides for contributions at the rate of 10 per cent. of basic salary for all members whose salary is or over Rs. 500 a month and 6½ per cent. from all other members, with similar contributions from the Company. The Company agrees that as soon as Government approval can be obtained the rate of contribution for all staff other than subordinate staff will be 10 per cent. of basic salary, irrespective of salary drawn, with a similar contribution from the Company. For subordinate monthly paid staff, who are also members of the Fund, the rate of contribution will be increased to 7½ per cent. of basic salary, with a similar contribution from the Company.

The Union would prefer that in the case of all members of the Fund whose basic salary does not exceed Rs. 500 a month, a uniform rate of contribution should be agreed, preferably at 10 per cent., but failing that, at a figure to be calculated between 7½ per cent. and 10 per cent. *pro rata* to the numbers of clerical and subordinate staff concerned. It is accepted, however, that this new proposal has to be referred for final approval to London and if the Union's suggestion cannot be agreed to, the Union confirms that it will accept the Company's offer of 10 per cent. for all staff other than subordinate staff, and 7½ per cent. for subordinate staff.

5. Gratuity.

The Provident Fund was introduced to provide an automatic means of saving for retirement, and the Company cannot agree to a Gratuity Scheme in addition to the Provident Fund.

6. Privilege Leave.

For all senior local appointments and clerical Grade C (the highest grade), four weeks privilege leave with pay per annum, which shall be accumulated up to a maximum of 16 weeks.

For A and B Grades and all subordinate employees four weeks annual privilege leave with pay per annum, with no right of accumulation.

7. Casual Leave.

Ten days annually, non-cumulative. Not to be taken in extension of annual leave.

8. Sick Leave.

If supported by a doctor (approved by the Company only), two months on full pay annually. Any further sick leave recommended by a doctor, approved by the Company, will be at the discretion of the Company as regards both period and rate of pay.

9. Medical Aid.

The existing medical scheme provides free medical attention and in the case of employees whose basic salaries do not exceed Rs. 320 a month, free medicines up to a maximum of Rs. 450 for any one illness. It is now agreed that these benefits will be extended in two ways as follows:—

(1) In the case of employees whose basic salaries do not exceed Rs. 320 per month, the Company will meet the cost of any initial medical examination and/or X-ray examination by a specialist, which may be necessary for the purpose of diagnosing the particular illness, provided that such examination is certified as essential by the Company's doctor and the specialist and/or radiologist to be consulted are approved in advance by the Company.

(2) Again, only in the case of employees whose basic salaries do not exceed Rs. 320 a month, the Company will meet the cost, in addition to actual medicines, of any electrical treatment, massage, injections and/or other special treatment which has been prescribed or approved by the Company's doctor, with the proviso that these charges, together with the cost of medicines, if any, do not exceed the abovementioned maximum of Rs. 450 for any one illness. That is to say, the Company will meet the total cost of the treatment, including medicines, up to a maximum of Rs. 450 for any one illness.

10. Lunch Allowance.

The Company is prepared to provide all members of the Union with a daily lunch, provided suitable arrangements can be made for this with an outside contractor. Steps will be taken to find such a contractor and finalise the arrangements at the earliest possible moment, subject to the following conditions:—

(1) Lunch is not to be consumed in the office itself at individuals' desks.

(2) Unless any other practical suggestion can be made, lunch both for clerical and subordinate staff will have to be consumed in the premises of the Dunlop Recreation Club and the co-operation of the Union will be necessary to see that these premises are kept clean and tidy.

11. Working hours.

In view of the agreement to provide a free lunch as above, it is confirmed that there will be no reduction in the present total office hours worked. As soon, therefore, as lunch can be provided, the hours for all staff will be from 9 a.m. to 5 p.m. on weekdays and 9 a.m. to 1 p.m. on Saturdays.

12. Probationary period.

Any new clerk engaged in future will but will serve a probationary period of not more than three months and not more than six at the Company's discretion, and will be confirmed in his post and salary if satisfied at the end of the probationary period. In case arise where a member of the subordinate is promoted to a clerical grade it will be for such a man to serve the above period before being confirmed as a clerk. He will be confirmed through no fault of the Company, guaranteeing to reinstate him in his previous position, the salary for which will be the same as he was previously receiving.

13. Salaries.

(a) *Subordinate staff.*—For all employees it is agreed that the minimum pay, apart from dearness allowance, shall be from Rs. 25 to Rs. 60 a month depending on the class of work done. It is also agreed that the minimum basic salary paid to any driver shall be Rs. 70 a month and to any trained person Rs. 95 a month. The Company cannot guarantee fixed annual increments or for subordinate staff but it always has been the policy of the Company to give reasonable increments to such men whose work deserves it.

(b) *Clerical staff.*—The clerical staff is graded in three grades as per list. Within individual grades the annual increment will be automatic. The decision to promote from one clerical grade to another, however, will be the Company's alone but subject to the proviso that all members of the clerical staff are eligible for promotion from one grade to another or from the top grade to any senior post which the Company considers them qualified for.

14. Gazetted Holidays.

It is agreed that in future all Exchange holidays in Calcutta will be observed throughout the year, with the exception of the 1st January, the Bank's half-yearly closing of the books.

15. Overtime.

It is agreed that in the case of the clerical staff and subordinate staff not on a fixed job, if overtime is necessary, it will be on the basis of the Bengal Chamber of Commerce award as follows:—

Week days and Saturdays.—Any member of the clerical or subordinate staff required, at the request of the Officer-in-charge of the department concerned, to work beyond 5 p.m. on week days or beyond 1.30 p.m. on Saturdays (or 1 p.m. on Saturdays when the new office hours are in operation) with provision of free lunch will be paid 1½ times his basic rate of pay for each hour or part of an hour worked, calculated from 5.30 p.m. on week days and 1.30 p.m. on Saturdays (or 1 p.m. when the new office hours are in force).

Public holidays.—Any member of the clerical or subordinate staff required, at the request of the Officer-in-charge of the department concerned, to work on a public holiday shall be paid 1½ times his basic rate of pay for each hour or part of an hour worked, calculated from 5.30 p.m. on week days and 1.30 p.m. on Saturdays (or 1 p.m. when the new office hours are in force).

Subject:—Payment for temporary establishment not sanctioned by proper authority.

No. TM/314.—20th June 1949.—Cases of payments in respect of temporary posts not sanctioned by Government, have come to the notice of the Provincial Government and they have taken very serious view on this. It has accordingly been ordered that the departments concerned should approach Government in due time for according sanction to the retention of the temporary posts. If this is not done, payments to such establishment becomes unauthorised and irregular. This should be stopped forthwith. It should be noted in this connection that a permanent Government servant while holding a temporary post not covered by proper sanction is not entitled to draw even his grade pay as he is no longer borne on his parent cadre.

All drawing officers under the Government of West Bengal and all treasury officers in West Bengal should note the above order for necessary action.

stage. If the pay of any clerk still remains
Rs. 70, he must be pulled up to that limit.
and every clerk must be with in which grade
has been placed.

shall get the same increment as the clerk in
the same grade.

Subordinate Staff.

The minimum dearness allowance is Rs. 30.
Those whose salary is below Rs. 30 should be
pulled up to that figure. We make no other
change in their pay and dearness allowance.

Issue No. 3.—Retiring benefits and benefits on
termination of service.

The retiral benefits of the employees of the
Company present some legal difficulties.

The employees were mostly employees of Black-
wood, Blackwood & Co. In 1946, the present
Company was started and the English Company
transferred most of their business to the present
Company. The previous Company still remain to
realise excess profits tax and some of the out-
standings. Some time before, a provident fund
was started. By an agreement with the old Com-
pany the Company agreed to employ those of the
employees of the other firm who were willing to
work on the old pay. To carry out the same, the
Company re-appointed them by individual letters.
This Company received from the other Company
provident fund accumulations. Thus the Company
is liable for the accumulated provident fund money.
As the present Company is not the successor-in-
interest of the other Company and as the
employees have been re-appointed, we cannot
legally ask the Company to pay gratuity for the
period prior to the introduction of the Provident
Fund. The present rate of subscription is 6½ per
cent. This may continue for the subordinate
staff. For the clerical staff the rate of contribu-
tion be raised to 10 per cent.

Issue No. 4.—Bonus.

The Company pay some bonus to the employees.
We have been assured by the Company that they
have no intention to discontinue the practice. We
leave the matter outside adjudication.

Issue No. 5.—Canteen and tiffin.

This is discretionary with the Company.

Issues Nos. 6 and 7.—Accommodation allowance
and children's education facilities.

The claims under these heads be refused.

Issue No. 8.—Medical aid.

This is discretionary with the Company. We
leave the matter outside adjudication.

Issue No. 9.—Working hours and holidays and
overtime.

Working hours.—We prescribe as follows:—

9-30 a.m. to 4-30 p.m. from Monday to Friday
with break for half an hour.

9-30 a.m. to 1-30 p.m. on Saturday.

Holidays.—All holidays under the Negotiable
Instruments Act should be observed as close holi-
days.

Overtime.—Overtime shall be paid as laid down
in the Shops and Establishments Act.

Issue No. 10.—Leave.

The existing leave rules do stand.

Issue No. 11.—Travelling allowance as also on
leave.

Travelling allowance, while on duty, shall be
paid. Travelling allowance shall not be paid
on leave.

Issue No. 15.—Uniforms and umbrellas for menials.

These shall be given for official work.

Issue No. 12.—Service conditions.

(a) Probation and confirmation.

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: and

Issue No. 14.—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

(d) Retiring age.
We decide that a man shall retire on completing 55 years. We do not favour extending services, thereby blocking the way for young people to get employments. In exceptional cases where both the employer and the employee extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different. The Federation wants that there should not be such transfer. We feel, however, that transfer is necessary for two purposes: (1) to a particular clerk know work of the various departments; and (2) for stock-taking of arrears of one particular clerk working in a department a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or Federation. The employer will select his men.

Recruitment.

(i) Other things being equal, preference shall be given to relations of employees, retired or service. Between relations of employees, appointment shall go to the more qualified.

(ii) Preference should be given to retired employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from clerical grade to the Officer's Grade. We say that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, wish to remind that such promotions do change the outlook of the clerk and are conducive to efficient work by the clerical staff.

Issue No. 17.—Recognition of the Union jurisdiction of the Tribunal to grant recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Nos. 1 and 2.—Pay and dearness allowance.

Clerical Staff.

There are only 20 clerks and with such a small number, a grading is not possible. We award that minimum standing pay of a clerk shall be

salaries paid to the clerks are not less than they would have been entitled to under any ordinary scales laid down by us. The Commission in contemplation of a scale of pay to be fixed but it was not done on account of the complexity of the matter with the Tribunal.

Below the salary of each employee his name and this will be effective from the date drawn for the month of April 1949:—

D'Souza	95	0	
Thoudhury	90	0	
Aquiera	137	8	
de Abreu	70	0

L. Fernandez	165	0
E. B. Laurence	125	0
J. C. Banerjee	140	0

The clerks shall get dearness allowance according to the Bengal Chamber of Commerce scale.

Subordinate Staff.

The increments of pay are contained in the few lines of the Company quoted below:—

"Office chokras are taken on a salary of Rs. 16 per month, plus Rs. 38 dearness allowance and godown coolies on a salary of Rs. 20 per month, plus Rs. 49 dearness allowance, with an increment of Rs. 4 every second year for office chokras and Rs. 8 every second year for godown coolies. With regard to our senior menial staff, increments of Rs. 15, Rs. 10 and Rs. 8 have been given to them every second year, plus Rs. 49 dearness allowance. Free godown accommodation is also provided to our menial staff on the premises."

We fix that an employee above 18 shall not be classed as a "Chokra". Till that age, he cannot be expected to have wife and children to maintain. Payment of lower salary to them is justified. For chokras we do not interfere.

So far as the persons in other categories are concerned, the basic salary be raised to Rs. 30 with a corresponding reduction in dearness allowance. Their total emoluments shall never go below Rs. 60.

Their increments shall be at the discretion of the Company.

Issue No. 3.—Retiring benefits and benefits on termination of service.

There is a Provident Fund operating against which the staff contributes 7½ per cent. of the basic salary. The Company in turn contribute a similar amount. The amounts of contribution bear 4 per cent. compound interest. In view of the large increments in pay, the payment of bonus for two months and the guaranteed interest of the Provident Fund amount at 4 per cent., we do not disturb or add to the scheme.

Issue No. 4.—Bonus.

The following lines from the notes prepared by the Company for us will explain the stand:—

"**Bonus.**—We have no special grounds or reasons with regard to the matter of bonus which has been granted to our staff during the last few years as we have always regarded this as a matter of goodwill and appreciation for services rendered in any particular year, and it is not based on profits or amounts paid in dividend to shareholders."

We have been assured that there is no present intention for its discontinuance. We, in these circumstances, leave the matter outside adjudication.

Issue No. 5.—Canteen and tiffin.

This, according to our scheme, is discretionary with the Company.

Issue No. 6.—Accommodation allowance.

The claim under this head be refused.

Issue No. 7.—Children's education facilities.

The claim under this head be refused.

Issue No. 8.—Medical aid.

This, according to our scheme, is discretionary with the Company.

Issue No. 9.—Working hours and holidays and overtime.*Working hours.*

The usual working hours are:—

9-30 a.m. to 5 p.m. on Monday to Friday with one hour's break for tiffin.

9-30 a.m. to 2 p.m. on Saturday.

We confirm this.

The Company will arrange the working hours of subordinate staff. Their work must not exceed 44 hours in the week.

Holidays.

All the holidays under the Negotiable Instruments Act will be observed as close holidays.

Overtime.

When asked by the Company to work, overtime shall be paid as under Bengal Shops and Establishments Act.

Issue No. 10.—Leave.

We confirm the leave arrangements of the Company which are set out below:—

Privilege leave.—For persons having put in less than five years of service—Two weeks on full pay.

For persons who have put in five years or more—Three weeks on full pay.

Casual leave and sick leave.—Given on full pay at the discretion of the Company.

We direct that privilege leave shall accumulate for two years.

Issue No. 11.—Travelling allowance on duty as also on leave.

Travelling allowance, while on duty, shall be paid. Travelling allowance, while on leave, be refused.

Issue No. 15.—Uniforms and umbrellas for menials.
These are given for official work.**Issue No. 12.—Service conditions.***(a) Probation and confirmation.*

It is awarded that the period of probation shall not exceed 6 months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

*(c) Enquiry before punishment: And***Issue No. 14.—Dismissal, discharge and retrenchment or other punishments.**

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and facts on which this is based. The person proceeded against shall submit his explanation. The future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment awarded to be imposed. The person

get an opportunity again to plead about the matter only at this stage. If the enquiring officer himself is competent to inflict punishment and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to an authority competent to punish and that authority will hear the person again and then pass an order. If that authority be other than the head of the concern at Calcutta, an appeal shall lie with the head of the concern at Calcutta. In cases where the proposed punishment is dismissal or dismissal the papers must be laid before the head of the concern at Calcutta who will then decide. If a person proceeded against and then passes an order, the clerk proceeded against shall have all the rights to be defended by any other employee or any other retired employee. These are matters and bringing outside agencies is not to the person proceeded against. Any outside agency to defend a person proceeded against with the sanction of the enquiring officer.

We hope that the rules framed by us will allay apprehensions about abrupt termination of employment and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completion of 55 years. We do not favour extension of age thereby blocking the way for younger people for employment. In exceptional cases where the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any transfer. We feel however that transfer of work is necessary for two purposes: (1) to enable a particular clerk know work of the various departments; and (2) for stock-taking of arrears of work. One particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference shall be given to relations of employees, retired employees, or persons in service. Between relations of employees, appointment shall go to the more qualified.

(ii) Preference should be given to retired employees, if qualified.

(iii) In the matter of appointment to the lower grades of clerk, promotion from lower grades shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from clerical grade to the Officer's Grade. We decide that there should be no bar to promotion from clerical grade to the Officer's Grade or from the Officer's Grade to clerical grade. As selection is made by the management, we cannot dictate a certain percentage or a certain number of persons to be promoted to the Officer's Grade. It is left to the management. We, however, decide that such promotions do change the status of the person promoted.

17.—Recognition of the Union as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of and is not an industrial dispute within the scope of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

The person proceeded against shall have always the right to be defended by any other employee or other retired employee. These are domestic matters and bringing outside agencies is not to the person proceeded against. Any person may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient work.

We decide that a man shall retire on completion of 55 years. We do not favour extension of services, thereby blocking the way for other people to get employments. In exceptional cases where both the employer and the employee agree extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different departments. The Federation wants that there should be no such transfer. AWARD.

Issues Nos. 1 and 2.—Pay and dearness allowance

Clerical Staff.

We lay down the following grades:—

Special grade—Rs. 260 and upwards at discretion of the Company.

Grade A—Rs. 160—10—260.

Grade B—Rs. 110—7—180.

Grade C—Rs. 70—4—124.

Grade D—Rs. 70—3—120.

Ordinary Warehouse Sircars—Rs. 85-2-95
—E.B.—3—131.

Typists will not go below "C" grade and Stenographers will not go below "B" grade.

All the employees under this category be given a flat increment of Rs. 10 and if after this increment the salary of any person does not fall in any stage of the time scale, he shall be placed at the next higher stage.

They will get dearness allowance according to the Bengal Chamber of Commerce scale.

Subordinate Staff.

Those persons who get basic salary less than Rs. 30, be pulled up to Rs. 30 and the increment so given be deducted from the dearness allowance. In no case should the total emoluments fall below Rs. 60.

Issue No. 3.—Retiring benefits and benefits on termination of service.

As regards retiring benefits the Company makes the following statement:—

"Pensions up to the full basic retiring salary have been paid at the discretion of the Directors to all employees on reaching the age of retirement.

At present, the lowest pension paid to any retired member of the clerical staff is Rs. 90 per month inclusive of dearness allowance and to any member of the subordinate staff Rs. 50 per month inclusive of dearness allowance. In addition, pensions of Rs. 35 per month, inclusive of dearness allowance, are paid to the widows of six ex-employees.

We would emphasize that, being a comparatively small Company, the relationship between employer and employee has always been a personal one and the need for a detailed scheme of retiring benefits has not been felt.

Provident Fund.—There is at present no Provident Fund and this has of course been taken into consideration by the Directors in the past in the grant of bonuses, etc."

The above is a text of the advantages given by the Company. Though discretionary, the advantages are better than what we have prescribed for generality of mercantile firms. We do not at present want to disturb it. If, in future, there is substantial curtailment of the concessions put forward which may give rise to apprehension, the employees may then move the Government on the basis of this award for constitution of a Tribunal to introduce Provident Fund. For the present the system, as it is, should remain.

Issue No. 4.—Bonuses.

The Company had been paying bonuses, and in the years 1947 and 1948, the bonus amounted to three months' basic salary. The amount of bonus depends on the profits made by the Company. The present intention of the Company is to continue payment of bonus provided business condition so permits, and we leave the matter outside adjudication.

Issue No. 5.—Canteen and tiffin.

According to the scheme of our award this is discretionary, but the Company make free gift of certain quantities of tea. The Company have also tiffin room set apart for the clerical staff and cookery is provided as well as two servants.

We leave the matter outside adjudication.

Issues Nos. 6 and 7.—Accommodation allowance and children's education facilities.

Issue No. 8.—Medical aid.

This is discretionary with the Company
Issue No. 9.—Working hours and holiday overtime.

Working hours.—The working hours per by the Company are as follows:—

Usually 10 a.m. to 5 p.m. with about hour's interval for tiffin. Saturdays—10 2 p.m.

There is no desire for changing the arrangement and we confirm the same.

Holidays.—All holidays under the Instruments Act are observed as closed. We confirm the arrangement.

Overtime.—The Company have some regard to overtime payment, and there is no on the part of the employees to have the disturbed. The existing arrangements shall continue.

Issue No. 10.—Leave.

The existing arrangements are:—

Privilege leave of 28 days per year on full pay granted to the whole staff.

Casual leave on full pay may be granted in addition at the discretion of the Director. It is felt that some cause, such for example urgent private affairs, warrants it.

Sick leave, as stated above, is granted on full pay subject to a satisfactory doctor's certificate.

There is no desire on the part of the employees to have the arrangements disturbed. We confirm the arrangements.

Issue No. 11.—Travelling allowance on duty and also on leave.

Travelling allowance on leave is the same as on duty. Travelling allowance, while on duty, shall be as per the existing arrangements.

Issue No. 12.—Uniforms and umbrellas and other menials.

These shall be supplied for official work.

Issue No. 13.—Service conditions.

(a) Probation and confirmation.

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found satisfactory.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And

Issue No. 14.—Dismissal, discharge and other punishments.

In case of retrenchment, the principle of "last in, first out" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal. The employer has no doubt the right of punishing an employee but we frame following rules which must precede any punishment.

The first thing to be done is that a charge be framed and the person proceeded against be given a copy of the charge and a reasonable time to be given for his explanation.

into. If the person proceeded against is innocent, the matter ends. If, however, and guilty the employee concerned shall be punished with a copy of the findings and the punishment to be imposed. The employee will get an opportunity again to plead punishment only at this stage. If the officer himself is competent to inflict punishment on the person proceeded against, he will hear the person and order what he thinks fit. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the coming into force of the order punishing the employee. If the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. That authority be other than the head of the concern at Calcutta, an appeal shall lie with the head of the concern at Calcutta. In cases where the proposed punishment is dismissal, the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The person proceeded against shall have always the right to be defended by any other employee or by a retired employee. These are domestic matters and bringing outside agencies is not helpful. A person proceeded against. Any one who defends a person proceeded against with the sanction of the enquiring officer

that the rules framed by us will allay apprehensions about abrupt termination of service and will give to the employee a sense of security which is essential for efficient working.

(d) *Retiring age.*

that a man shall retire on completing 50 years of service. We do not favour extension of services, which would open the way for younger people to get appointments. In exceptional cases where the employer and the employee agree, extensions of service may be granted.

13.—Recruitment Rules: Recruitments, promotion and transfer.

Recruitment means allocation of different work. The management wants that there should not be any transfer. We feel, however, that transfer is necessary for two purposes: (1) a particular clerk know work of the different departments; and (2) for stock-taking of any one particular clerk working in a department for a sufficiently long period.

not approve of the idea that recruitments be done through the Union or the Federation. The employer will select his own men.

Recruitment.

When things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the preference shall go to the more qualified.

Preference should be given to retrenched employees, if qualified.

In the matter of appointment to the higher grade, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment shall be made from outside.

When the question of promotion from the lower grade to the Officer's Grade arises, the award should be made on the basis of the examination held for the purpose. The staff to be promoted should be selected on the basis of the examination.

dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Technicians will not go below C Grade and Scientists will not go below B grade.

All clerks be given a flat increment of 10 per cent. If after this the salary of any clerk is in any stage in the time scale, he shall at the next higher stage.

The clerks shall draw dearness allowance to the Bengal Chamber of Commerce

Subordinate Staff.

The total emoluments of no one is Rs. 60. The total emoluments are fair, though basic salary is less in certain grades which we do not go up to that figure. This shall be treated as an increment and the amount of increment shall be added from the dearness allowance. Grades go beyond Rs. 30 will earn increments the usual way.

Save what has been made above, no
turbance is made in dearness allowance.

Issue No. 3.—Retiring benefits and termination of service.

The Company have a Provident Fund for Indian staff to which the employee or 1/12th of his salary per month and the make a like contribution. This rule applicable to the subordinate staff. The Provident Fund was started in 1943 and the made provision for services prior to the putting in half month's salary for each completed service to the Provident Fund.

So far as the subordinate staff are concerned, they get better than what we have usually had.

The clerical staff do get a little less. The company pleaded strongly for confirming the award which is India-wide. In view of the dearness *gratia* awards, we accede to the request of the Company. If, however, the *ex gratia* salary is reduced from two months' salary, the Company shall raise the contribution of each to 10 per cent.

Issue No. 4.—BONUS.

The Company do not pay an annual to their staff. A special *ex gratia* award has been sanctioned by the Home Board of Directors each year to the Indian staff, both clerical and subordinate. So far this has consisted of a sum of two months' basic salary.

Trading conditions permitting, the Co have no intention to discontinue it. We leave matter outside adjudication.

(c) Enquiry before punishment: And

No. 14.—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last in, first go" shall be applied. Exceptions may be made in case of persons with exceptional services.

When comes the question about dismissal and punishment. The employer has no doubt the right to dismiss an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the order on which this is based. The person proceeded against shall submit his explanation. Then a date should be fixed for the matter to be heard into. If the person proceeded against is innocent, the matter ends. If, however, he is found guilty the employee concerned shall be provided with a copy of the findings and the punishment proposed to be imposed. The employee shall be given an opportunity again to plead about the punishment only at this stage. If the enquiring officer is competent to inflict punishment on a person proceeded against, he will hear his explanations and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with the head of the concern at Calcutta, an appeal shall lie within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority shall hear the person again and then pass orders. If the authority is other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. A clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. There are domestic employees and bringing charges against them is not helpful. The person proceeded against may defend himself or may defend himself by any other employee.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's Grade. We award that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Issue No. 29(b).—Reinstatement of Khageswar Nayak, Sayeed and Lal Chand, the three retrenched employees of the Company.

These persons have not appeared and no evidence has been placed before us.

The claim for reinstatement be refused.

And whereas the services of Sri Sudhir Chandra Dutta Gupta, one of the members aforesaid, having no longer been available, the said Chairman and Sri Sailesh Chandra Chakravarty, another member aforesaid, have given the award in respect of the industrial dispute between one of the firms mentioned hereinbefore, namely, Messrs. Kilburn & Co., Ltd., 4, Fairlie Place, Calcutta, being item No. 94 in list No. 1 aforementioned and their employees represented by the Federation of Mercantile Employees' Union, 102B, Netaji Subhas Road, Calcutta, as shown in the annexure hereto;

Now, therefore, in exercise of the powers conferred by sub-section (2) of section 15 read with sub-section (3) of section 19 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to make the following order and to direct with reference to section 17 of the said Act that the award be published in the *Calcutta Gazette*.

The award made by the said Chairman and the said Sri S. C. Chakravarty shall bind the Company and their employees aforesaid as specified therein and shall remain in operation for a period of one year with effect from the 17th February 1949.

ANNEXURE.

In the matter of reference No. 135Lab., dated the 17th January 1948, of the Government of West Bengal (Labour Department), and in the matter of industrial disputes between the employers and the clerical and subordinate staffs in the office of Messrs. Kilburn & Co., Ltd. (serial No. 94 of list No. 1 of the reference), 4, Fairlie Place, Calcutta.

SRI S. C. CHAKRAVARTY, *Member*.

AWARD.

Constitution of the Tribunal and reference.—A Tribunal with Sri A. Das Gupta as Chairman and Sri S. C. Chakravarty and Sri S. C. Dutta Gupta as members was constituted by the Government of West Bengal (Labour Department) under sections 7 and 10 of the Industrial Disputes Act, 1947, by order No. 135Lab., dated the 17th January 1948, to adjudicate upon the industrial disputes between the mercantile firms in Calcutta and the clerical and subordinate staffs in their offices, of which the

Sri S. C. Dutta Gupta had been absent, his services were no longer available, the disputes which are the subject-matter of the present award were heard by the Chairman and the other members present.

We decided in the earlier cases that we deal with the different firms separately. In view, we still adhere.

Appearance:

For the employers: Mr. P. P. Ginnwala, Counsel instructed by Messrs. Orr, Dignam and Solicitors.

For the employees: Sri Jitendra Nath Bar and Sri P. K. Ghosh of the Federation of Mercantile Employees' Unions.

Scope of the reference.—It transpired at hearing that the Company have at Majerhat Tarpaulin and a Card-board Factory with godowns attached thereto. Under the order of reference we can entertain the disputes only of clerical and subordinate staffs in the offices of several firms mentioned in the list annexed to order of reference. We are accordingly of opinion that the employees of the aforesaid factories and godowns are outside the scope of reference. The present award will apply only to the clerical and subordinate staffs in the office of Messrs. Kilburn & Co., Ltd. We may, however, note that the clerks employed at Majerhat given Head Office scales of pay. The only subordinate staffs at Majerhat are durwans. Their basic salary is not generally lower than that of the durwans in the Head Office. They are, however, paid dearness allowance at a lower rate. Majerhat is outside Calcutta. The Company have adopted the Bengal Chamber of Commerce scheme of dearness allowance which is based on the cost of living index in Calcutta. The cost of living index at Majerhat is not before us. Although factories and godowns at Majerhat are outside the present adjudication, we appreciate the Company's attitude to keep the basic salary of the staffs at Majerhat in line with that of the Head Office staffs as far as practicable. As we have already mentioned that the present award will relate to the clerical and subordinate staffs in the office of Messrs. Kilburn & Co., Ltd., 4, Fairlie Place, Calcutta.

Pay and dearness allowance.

Clerical staff.

The Company have generally adopted the Bengal Chamber of Commerce scheme about grades and scales as they existed prior to the recent award for the Bengal Chamber of Commerce. The grades and scales are:—

Special Grade—Rs. 250 and upwards at the discretion of the Company.

Grade A—Rs. 150—10—250.

Grade B—Rs. 100—7—170.

Grade C—Rs. 60—4—120.

Grade D—Rs. 30—2—80.

Under the existing scheme of the Company stenographers are placed in Grade B and typists in Grade C. There are at present 33 clerks in Grade C, of whom 22 are matriculates and have been placed in Grade C and 11 who are non-matriculates are placed in Grade D. The Bengal Chamber of Commerce scheme of pay grade starting with Rs. 60 and going up to Rs. 250. This was recent by us to abolish D Grade and to abolish D Grade in all through. In the circumstances present.

award for the India General Navigation and Railway Co., Ltd., in which Messrs. Kilburn & Co., the Managing Agents, the award for the Chamber of Commerce about grades and scales of pay was substantially adopted. Our idea was to maintain uniformity in the mercantile firms as far as possible. It is also desirable to maintain uniformity in the management of Messrs. Kilburn & Co., whether as Proprietors or as Managing Agents, should maintain uniformity in grades and scales of pay as far as practicable. The award for the India General Navigation and Railway Company, Limited, a special grade was laid down for the non-matriculate sircars. Rs. 46-1-50 (E.B.)—2-70. We accordingly lay down the following grades and scales for sircars:—

Special Grade—Rs. 260 and upwards (scales of increment and ceiling left to the discretion of the Company).
Grade A—Rs. 160-10-260.
Grade B—Rs. 110-7-180.
Grade C—Rs. 70-4-134.
Sircars (matriculates)—Rs. 65-2-85 (E.B.)—3-130.
Sircars (non-matriculates)—Rs. 46-1-50 (E.B.)—2-70.

A special grade was laid down for stenographers in the award for India General Navigation and Railway Co., Ltd. This was practically recommended by the Bengal Chamber of Commerce with a minimum of Rs. 10 throughout. Messrs. Kilburn & Co., however, give the stenographers Rs. 70 at the start instead of Rs. 70, as recommended by the Bengal Chamber of Commerce. We do not propose to withdraw the differential of Rs. 10 which the existing stenographers have been getting. The stenographers' grade in the award for India General Navigation and Railway Company is substantially a combination of Grades B and C with slight modifications. The lower salary has been compensated by higher increments in the first 10 years. In recasting the grades, we have proceeded with the idea of the minimum and maximum of each grade being Rs. 10. This was to compensate the employees for the accommodation allowance which appears to have been left out of consideration in the recommendation of the Bengal Chamber of Commerce. The starting salary of stenographers in Messrs. Kilburn & Co., Ltd., is higher than that in the India General Navigation and Railway Co., Ltd., the maximum in the latter grade is much higher than that of the former. The grade recommended for stenographers in the India General Navigation and Railway Co., Ltd., seems to be more attractive than the B Grade in which the stenographers of Messrs. Kilburn & Co. are placed. We accordingly adopt the grade already prescribed for stenographers of India General Navigation and Railway Co., Ltd. This is Rs. 80-8-160 (E.B.)—10. Future entrants shall start with Rs. 80. Sircars who are highly efficient shall be allowed to cross efficiency bar. Typists shall not be below Grade C.

The senior sircar's grade and the Grades C and D are practically overlapping. We accordingly place the D Grade altogether. Sircars shall be treated as clerks for the purpose of other amenities which the clerks in general are entitled to.

Section-holders in important departments shall be placed in the special grade and in other departments in Grade A. The Company may place two or three section-holders in small departments. Section-holders shall be regarded as clerks for the purpose of other amenities. A clerk who is promoted to a section-holder shall be compensated during the few years that he is in the section-holder's grade.

of the junior clerks does not become a section-holder. A clerk to whom is allotted the final stage of a particular work, the preliminaries of which are allotted to some other clerks, does not become a section-holder simply because he exercises some supervision over the works of the clerks who do the preliminaries, just to do his part of the work and to complete it. The principal duty of a section-holder is supervision and the section-holder alone is responsible to the Company for the works of the clerks of the department or departments of which he is in charge. By virtue of his office he must have the power to distribute the works among the clerks, to report against them for punishment or to recommend them for promotion, leave and other facilities and such other powers as are essential to have an efficient control over the department or departments in his charge.

Probationers shall get the lowest salary of the grades to which they are appointed. Graduates shall not generally be placed below Grade B. But when there is no vacancy in Grades A and B, graduates may be appointed in lower grades if the graduates concerned signify their consent in writing. We do not propose to lay down any detailed rules for grading the clerks, for in the absence of sufficient materials it is not possible to evaluate the different jobs properly. This is left to the discretion of the employers. With these recommendations that in placing the clerks in different grades, the Company should not, to the prejudice of any clerk, deviate from the practice hitherto followed and should follow the direction which we have laid down for grading stenographers, typists, sircars and section-holders.

We lay down the following rules for fitting the members of the existing clerical staff into the revised grades and scales:—

- (1) All members of the clerical staff including stenographers, typists and sircars shall be given a flat increment of Rs. 10.
- (2) If despite such increment, the salary of any clerk does not reconcile with any stage in the revised grades, he shall be placed at the next higher stage.
- (3) If despite such increment any graduate is below Grade B he shall be pulled up to Grade B, unless he has consented to accept a job in the lower grade at the time of his appointment.
- (4) Sircars in Grade D shall be transferred to the sircars' grade prescribed by us.

All other clerks in Grade D who are not graduates shall be transferred to the Grade C.

All employees must be told in which grade they are.

It was pointed to us that one Pulin Behari Dutta who was appointed in 1914 is at present getting Rs. 90; that one Adhir Chandra Dalui who was appointed in 1937 is getting Rs. 82; and that one Anil Kumar Bose who was appointed in 1934 is getting at present Rs. 84. According to the Company these three clerks were graded D in 1947. They are sircars. Under the rules of the Company, sircars cannot rise above Grade D. Pulin Behari Dutta is getting the maximum of the existing Grade D. About Adhir Chandra Dutta and Anil Kumar Bose who are appointed on a much lower salary as sircars are said to have been promoted to the clerical Grade D with some seniority in the latter grade calculated on the basis of ability, efficiency, respectability and length of service in each individual case. We are not in a position to say that any great injustice was done to these three clerks. Since they are raised to the present award to Grade C, they will be compensated during the few years that they are in the section-holder's grade.

For the subordinate staff under the Company, the minimum total emolument is much above Rs. 60. This is considered sufficient. The minimum basic salary is however too low. This has been compensated by a liberal dearness allowance although the total emoluments do not call for any interference, we feel that the minimum basic salary which is too low should be pulled up to Rs. 30. All members of the subordinate staff shall get a flat increment of Rs. 10 and adjustment should be made by a corresponding deduction from the present dearness allowance which we are told is according to the Bengal Chamber of Commerce scheme. We lay down the following grades and scales for the subordinate staff:—

Duffries, khanshamas, bearers, liftmen—Rs. 32—1—36 (E.B.)—1—42.

Peons and sweepers—Rs. 20—1—33 (E.B.)—1—40.

Ex-service durwans—Rs. 45.

Ex-service jamadars who are getting at present Rs. 60 and drivers who get Rs. 50—5—55—1—60 are left outside the present adjudication. Their basic salary shall be fixed by negotiation. It is not possible for us to lay down any rigid rule without having any idea about the efficiency and usefulness of these men. Every member of the subordinate staff shall get dearness allowance according to the Bengal Chamber of Commerce scale less the amount by which his basic salary has been increased.

Bonus.

The Company have assured this Tribunal that they would give the employees one month's basic salary as bonus provided the profits are not substantially less than that earned in 1948 when the Company became a limited Company. In view of this assurance we leave the question outside adjudication.

Retiring benefits and benefits on termination of service.

The Company have their own Provident Fund Rules. All clerks on confirmation have to contribute 5 per cent. of the salary to the Provident Fund, the Company adding an equal amount. Further voluntary contribution up to and not exceeding an additional 10 per cent. of the salary may be made by the employee. Non-clerical retirement fund is run for the benefit of the non-clerical staff who contribute at the rate of Re. 1 per month, the Company contribute an equal amount. In addition to the Provident Fund scheme, the Company have a gratuity scheme, which is entirely at the discretion of the Directors of the Company and gratuity is awarded to an employee for faithful and loyal service, good conduct and satisfactory work during an employee's period of employment with the Company. No employee can claim that he is entitled to a gratuity by virtue of long service only. The head of any department can recommend to the Directors of the Company the award of a gratuity on the retirement of an employee subject to the conditions already stated. There is no hard and fast scale of gratuity laid down by the Company but usually the following precedent is followed provided the abovementioned conditions are fulfilled:—

(1) For first 10 years' service—Nil.

(2) Below 20 years' service but not less than 10 years—On a pro rata basis of 1 month's salary for each completed year.

Provident Fund in the mercantile firm "Concutta with the contribution of 10 per cent. basic salary of a clerk and 6½ per cent. of salary of a member of the subordinate staff of the award for India General Navigation Railway Company, Limited, the contribution both sides was raised to 8½ per cent. for member of the clerical staff and 6½ per cent. member of the subordinate staff, and the rules which the said Company have by implementing the Provident Fund Scheme which were almost similar to those of Ma burn Co., Ltd., were recast. We accordingly the contribution on both sides to 8½ per cent. the basic salary of the clerk and 6½ per cent. the basic salary for a member of the subordinate staff. So far as the existing gratuity is concerned we direct that instead of allowing one month's salary for each completed year over 10 years, calculations shall be made on the basis of 15 months' salary for each completed year from the very beginning subject to a maximum of 15 months' salary in the whole service, or at the salary last drawn by the employee. It shall be payable to the employees on the following conditions:—

- (1) On the death of an employee while in service of the Company or on his physical or mental disability to continue in service—Half month's salary for each completed year of service subject to a maximum of 15 months' salary to be paid to the employee or assignees or to the disabled employee in the case may be.
- (2) On voluntary retirement or resignation of an employee after 20 years—Half month's salary for each completed year of service subject to a maximum of 15 months' salary.
- (3) On termination of service by the Company on completion of 10 years of service—Half month's salary for each completed year of service but not more than 15 months' salary.

We are told that the gratuity scheme of the Company is available to the members of the clerical and subordinate staffs. The Company want to retain the discretion and as there was a complaint laid before us that the discretion was any time arbitrarily exercised, we do not intend to withdraw the discretion.

Canteen, toilet and children's education

According to our scheme these are all matters of concession. We have left the question of canteen, toilet and children's education to the Company for their discretion. We may note here however that the Company have made some provisions for the canteen which is bought by the employees at cost. We hope that this concession will not be withdrawn.

Accommodation allowance.

In calculating the basic salary we have taken into account the accommodation allowance. The Company have fixed a scale of accommodation allowance which we have fixed included in the basic salary. No further allowance under this head is payable.

Now comes the question about dismissal and
punishment. The employer has no doubt the
right of punishing an employee but we frame
the following rules which must precede any
punishment:—

The first thing to be done is that a charge
shall be framed and the person proceeded against
shall be furnished with a copy of the charge and
the facts on which this is based. The person
proceeded against shall submit his explanation.
Then a future date should be fixed for the matter
to be enquired into. If the person proceeded
against is found innocent, the matter ends. If,
however, he is found guilty the employee con-
cerned shall be supplied with a copy of the find-
ings and the punishment proposed to be imposed.
The employee will get an opportunity again to
plead about the punishment only at this stage.
If the enquiring officer himself is competent to
inflict punishment on the person proceeded
against, he will hear his pleadings and order
what he thinks best. If the enquiring officer is
anybody other than the head of the concern at
Calcutta, an appeal shall lie with him within
seven days of the communication of the order
punishing the employee. In case the enquiring
officer is not competent to inflict punishment, he
will forward the proceedings to the authority
competent to punish and that authority will hear
the person again and then pass orders. If that
authority be other than the head of the concern
at Calcutta, an appeal shall lie likewise with the
head of the concern at Calcutta. In all cases
where the proposed punishment is discharge or
dismissal the papers must be laid before the
head of the concern at Calcutta who will hear
the person proceeded against and then pass
orders. The clerk proceeded against shall have
always the right to be defended by any other
employee or by any other retired employee.
These are domestic matters and bringing outside
agencies is not helpful to the person proceeded
against. Any outsider may defend a person pro-
ceeded against with the permission of the enquir-
ing officer.

We hope that the rules framed by us will
remove apprehensions about abrupt termination
of services and will give to the employee a sense
of security which is essential for efficient work-
ing.

(d) Retiring age.

We decide that a man shall retire on com-
pleting 55 years. We do not favour extension of
services, thereby blocking the way for younger
people to get employments. In exceptional cases
where both the employer and the employee agree,
extension of services may be granted.

Recruitment Rules—Recruitment, promotion and transfer.

Transfer means allocation of different work.
The Federation wants that there should not be
any such transfer. We feel, however, that
transfer of tables is necessary for two purposes:
(1) to make a particular clerk know work of the
various departments; and (2) for stock-taking of
arrears of any one particular clerk working in a
department for a sufficiently long period.

We do not approve of the idea that recruitments
should be done through the Union or the Federa-
tion. The employer will select his own men.

Recruitment.

(a) Other things being equal, preference should
be given to relations of employees, retired or in
service. Between relations of employees, the
appointment shall go to the more qualified.
Preference should be given to the
most qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's Grade. We award that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Reinstatement of Sri Biswa Bandhu Pal.

He has already been reinstated by the Company as will be evident from the letter of the General Secretary, Federation of Mercantile Employees' Union, dated the 17th January 1949.

APPENDIX A.

The business carried on by our firm comprises exports and imports. Before and during war our firm was one of the largest exporters of oilseeds from India, but owing to high internal consumption and export control business has diminished drastically.

At present time we export gunny bags, cloth, oilseeds and oils (the latter two in a vastly reduced extent, by force of circumstances beyond our control).

We import yarn from Japan (when controls are relaxed) and from the United Kingdom, but our business is extremely small.

Wages.—The minimum basic wage paid by us is Rs. 70 per month for clerical staff; Rs. 60 per month for sircars; and Rs. 30 per month for unskilled staff.

There is no specific scale of grading adopted by us. An employee's promotion and up-grading of salary depending purely and simply on his age, intelligence and co-operative spirit to the firm's interests, and our staff prefer this system.

Types of clerks we employ are used for book-keeping, calculations, supervision of ship-ments, etc. No academic qualifications are insisted upon by us.

Every applicant for employment is interviewed by a high ranking officer of this Company.

Earnings allowance.—The Chamber of Commerce scales apply. No other allowance by way of cheap rations, etc., are granted.

Bonus.—It has been the custom in our firm to grant an annual bonus at the end of each year. It is an *ex-gratia* payment.

The reason for paying it is in appreciation of the services rendered by the individual during the year. No special reservation is made when granting it.

It has been paid every year since the firm was established in India.

The global amount of bonus varies at the discretion of our Directors and takes into account the firm's financial result for the whole year. In any year it has been not less than one month's salary.

As stated above, the bonus is not a fixed amount.

5. Canteen and tiffin.—Time off is allowed—one hour every week day for tiffin. As the hours of work on Saturday are from 9-30 a.m. to 1-30 p.m. only, no time off for tiffin is allowed. We have no special arrangements for eating. The staff usually go down to a local cafe, or have their tiffin at their individual desks.

6. Working hours.—On week days from 9-30 a.m. to 5 p.m., with an hour off for tiffin. On Saturdays from 9-30 a.m. to 1-30 p.m.

7. Dismissal, discharge, retrenchment and punishment.—There is no particular system which we have for the above. If an employee is found inefficient or incapable of satisfying the management in the work entrusted to him, or if retrenchment becomes the logical sequence of a decline in the turnover of our business, dismissals take place.

Should the employee or employees in question be serving their probationary period at the time our decision is made, then, according to the terms of the firm's Rules of Service, no notice is necessary and he gets paid up to the day he works. In the case of our permanent employees, it is our usual practice to serve at least one month's notice. Our employees are always afforded opportunity to state their case to the management.

8. Retiral benefits.—There is a voluntary Provident Fund for the staff according to which a contribution is made by every permanent employee of 10 per cent. of his basic salary. The firm contributes a like amount.

Compound interest at the rate of 3 per cent. per annum is allowed by the firm on the total sum arrived at.

As requested, we assess below the value of such allowance on a monthly basis:—

	Rs. a.
Minimum basic wage	70 0
Present dearness allowance	59 8

(b) *Service record.*

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) *Enquiry before punishment: And*

Issue No. 14—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the Enquiring Officer himself is competent to inflict punishment on the persons proceeded against, he will hear his pleadings and order what he thinks best. If the Enquiring Officer is anybody other than the Head of the Concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the Enquiring Officer is not competent to inflict punishment, he will forward the proceedings to an authority competent to do so. The authority will hear the employee and the person proceeded against.

likewise with the Head of the Concern. In all cases where the proposed person is discharged or dismissed the papers will be before the Head of the Concern at Calcutta. The person proceeded against will hear the person proceeded against at Calcutta. The clerk proceeded against will have always the right to be defended by an employee or by any other retired employee. These are domestic matters and bringing agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the Enquiring Officer.

We hope that the rules framed will remove apprehensions about abrupt termination of services and will give to the employee security which is essential for efficiency.

(d) *Retiring age.*

We decide that a man shall retire on 55 years. We do not favour extension thereby blocking the way for younger men to get employments. In exceptional cases both the employer and the employee may be granted extension of services.

Issue No. 13—Recruitments rules: promotion and transfer.

Transfer means allocation of duties. The Federation wants that there should be no such transfer. We feel however that of tables is necessary for two purposes: (1) to make a particular clerk know work of departments; and (2) for stock-taking of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that retirement should be done through the Union Federation. The employer will select men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired employees, and relations of employees. Between relations of employees appointment shall go to the more qualified.

(ii) Preference should be given to retired employees, if qualified.

(iii) In the matter of appointment to higher grades of clerk, promotion from lower grade should be the rule. Only in exceptional cases appointment may be made from outside.

Then comes the question of promotion from clerical grade to the Officer's grade. We think that there should be no bar to promotion from clerical grade to the Officer's grade or from subordinate staff to clerical grade. As selection depends on the management, we cannot decide a certain percentage or a certain number must be promoted to the Officer's grade. It must depend on suitability according to the standard of the management. We, however, remind that such promotions do not affect the outlook of the clerk and are conducive to efficient work by the clerical staff.

Issue No. 17—Recognition of the Union and the Tribunal to be established.

Recognition of the Union is not a condition for the establishment of the Tribunal. It is not an industrial dispute within the meaning of Industrial Disputes Act. It is a business of that Court to establish the Tribunal.

INDUSTRIAL TRIBUNAL, CALCUTTA.

PRESENT:

MATISH CHANDRA BANERJI,

District Judge, Tribunal.

A dispute between the Titagarh Paper
Co., Ltd., and their employees in Mills
1 and 2 at Titagarh and Kankinara,
Parganas.

AWARD.

Titagarh Paper Mills Nos. 1 and 2 are two
paper mills in Bengal. The other two
the Indian Paper Pulp Co., Ltd., at
Naihati, and the Bengal Paper Mills
Union, Hajinagar, Naihati, is only 6 miles
in Kankinara.

Mill No. 1 is situated at Titagarh about 13 miles
north of Calcutta and Mill No. 2 is at
about 10 miles further north. The
Mill No. 1 was first started by the Company on a
scale in 1884 and the Mill No. 2 was
in 1902. Since then both the mills
have undergone considerable development, in size,
and technique. At the present time
they are the largest units of the industry in India.
It is remarkable that these mills have made great
contributions to the manufacture of paper from
jute and sabai grass which are the princi-
pal materials in the industry at the present
time.

These mills are located in the industrial belt of
the banks of the Hooghly with a pro-
duction of jute mills. The two mills employ
10 workmen and are the largest units of the
industry in the area.

produce about 60 per cent. of the total outturn of
paper in the entire industry in Bengal. They
supply about 34 per cent. of the total production
to the Government of India. The importance of
these two largest units in the industry cannot,
therefore, be over-estimated.

The workmen in Mill No. 1 owe allegiance to two
Unions, being the Paper Mill Employees' Union and
the Titagarh Paper Mills Workers' and Employees'
Association, and those in Mill No. 2 at Kankinara
have only one Union styled as the Bengal Kagazkal
Mazdoor Union. All the three are registered
Unions under the Trade Unions Act. In Decem-
ber 1946 the Paper Mills Employees' Union for
the workers of Mill No. 1 made certain demands
for increase of wages and other terms of employ-
ment and conditions of labour. The same were
also the demands of the workers of the other mill, as
it appears, that the Bengal Kagazkal Mazdoor
Union of the workers in Mill No. 2 joined the
Paper Mills Employees' Union of Mill No. 1 in
forming a joint strike committee to effect a joint
strike in both the mills with a view to enforce the
demands made by the Paper Mills Employees'
Union in December 1946. The Company declined
to accede to the demands and in spite of the efforts
of the Labour Commissioner to the Government of
Bengal for effecting a settlement of the disputes,
the workers of both the mills struck work on 14th
March 1947 for redress of their grievances. This
strike continued for 70 days till 22nd May 1947
and the workers resumed work on 23rd May 1947.
In the meantime, the Industrial Disputes Act
came into operation and the Government of Bengal
referred the disputes under sections 7 and 10 of
the Industrial Disputes Act, to Mr. E. S. Simp-
son as the Tribunal for adjudication. As Mr.
Simpson's services were not available, the Govern-
ment of Bengal on 4th June 1947 appointed
Dr. H. G. Waight as the Tribunal for the adju-
dication of the said disputes.

The Award of Dr. Waight was published in the
Calcutta Gazette on 28th August 1947. By a
Government notification, it was made effective for
one year with effect from 23rd May 1947. By this
Award, the wages and dearness allowance of the
operatives and clerks were increased and other
terms of employment and conditions of labour
were revised to the advantage of the workmen.
In this Award the learned Adjudicator decided not
to revise the piece-rates, which apply to the
Finishing Department, or to introduce a system
of grading of the operatives. During the period
of operation of the Award, the Unions complained
that the Company failed and neglected to give
full effect to the directions of the Award in regard
to wages of the women workers, the bungalow
servants, the sweepers and the gardeners, and the
questions were duly taken up by the Labour Com-
missioner to the Government of West Bengal for
conciliation.

After the operation of the Award ceased on 22nd
May 1948, the workmen of the mills through
their Unions made renewed demands for increase
of wages and other terms of employment. Such
a demand was made by the workers of Mill No. 2
through their Union, the Bengal Kagazkal Maz-
door Union, on 15th July 1948 and the claims for
grade scale of wages for the operatives with auto-
matic annual increase, increase of piece-rate of
workers in the Finishing Department at the scales
of rates paid to the Finishers in the Indian Paper
Pulp Co., Ltd., at Naihati and also for increase
of the dearness allowance were made. It is need-
less to mention that the claims made by a Union
in either of the mills were also supported by the
Unions in the other mills and the Paper Mills
Employees' Union in the Mill No. 1 and the
Bengal Kagazkal Mazdoor Union in Mill No. 2
agreed to have worked all along in union.

For the Company.—Sri S. Ghoshdury, Counsel,
assisted by Sri S. C. Sen, Advocate, Sri
J. N. Ghosh, Pleader and Messrs T. &
McAuliffe, Cost Accountants and
Partners, Chartered for the Company.

Mr. Sannayal for the Unions based his claim on this item on two grounds; first, that the cost of living index had gone up; secondly, that the data of family budget of factory workers were not available at the time of the proceedings in the last Tribunal since then there were enquiries by the Government of India and family budgets in Howrah and Kharagpur had published. He contended that the cost of living index had risen considerably after the Tribunal's Award. It was further contended on the basis of this Report on an enquiry into the conditions of industrial workers in Howrah by S. M. Deshpande, Director of Labour, Calcutta, published on 30th March 1947, that the average family expenditure was higher in Howrah than in

7 pies excluded a sum of 9 annas 2 pies in the average budget. Similar were also made in regard to family investigations for workmen in Kharagpur was also pointed out that in the Vacuum Company, the dearness allowance is more than Rs. 44 per month.

Mr. Mukherji for the Unions argued that the principles on which the increase of allowance is called for is a rise of cost index since the last Award. He called of the Tribunal to the increase of dearness granted by the Award over the in the Calcutta Tramways Company and workmen and also the Jute Award.

Mr. Houdhury for the Company maintained there was no evidence to show that there had been a rise in the cost of living and assuming there has been a rise that alone could justify a rise in the dearness allowance. The dearness allowance could not be taken from the total emoluments paid to the worker and it could not also be separated from the cost of production of commodity. The Counsel did not agree that the recommendations of the Pay Commission could be taken to the case of a private employer. He pointed out that the industry was of a small scale, with competitors in Canada, Switzerland, Holland, and Norway. Very large quantities of paper are coming to this country from abroad. If the cost of production be in the imported commodity will get an edge over the indigenous product. He referred to the Award of the Jute Textile Disputes Tribunal, where a minimum basic pay of Rs. 26 and a dearness allowance of Rs. 32-8 were granted. He further stated that as these two mills were in a jute area the workmen of these mills were getting a minimum basic pay of Rs. 30, a dearness allowance of Rs. 30 and a house allowance of Rs. 10 in receipt of wages somewhat above the prevailing wages at the locality. The learned Counsel drew attention of the Tribunal to the fact that the Cotton Textile Industry and the Oil Industry which were monopoly industries, without competition from abroad, had no parallel in the industry in Bengal. In conclusion, it was his contention that no case for raising the dearness allowance had been made out by the Unions.

The scales of dearness allowance laid down by the Pay Commission are related to the all-India cost of living index, as determined by the Economic Adviser to the Government of India. The index for January 1947 was 285. The index for August 1947 or for the present time is not available. The cost of living index for middle-class and the manual workers in Bengal, are determined by the Provincial Bureau of the Government of West Bengal.

It is needless to mention that these scales cannot be the same as the all-India average and are to be determined by the Economic Adviser. The scales of dearness allowance laid down by the Pay Commission are to be applied. The Reports of the West Bengal Provincial Bureau it appears that in August 1948 the cost of living index for the middle-class and the working class were 322.4 and 331.3 respectively. These figures fluctuated up to the month of October 1948, and went on decreasing in February 1949, coming to 337.1 for the middle-class and 353.8 for the working class. In March 1949 for which month the latest figures are available, these figures appear as 342.6 for the middle-class and 359.6 for the working class. The index in the cost of living index from that in 1947 is less than 25 in one case and more than 25 in the other. The figures for May 1947 are 285 and 285 respectively. The period required for the award is 25 months.

middle-class and the working class respectively. Taking the figures of February or March 1949 they do not show any appreciable increase above the figures in May 1948. In view of these circumstances it does not appear to me that there has been such a substantial rise in the cost of living index as to justify a reconsideration of the dearness allowance.

As to the average family budgets for Howrah to be Rs. 20 in total in a week, it appears that this is the expenditure of an average family of 4.83 members consisting of 1.63 earners in the family. These family budgets do not support the claim of the Unions, inasmuch as the minimum emoluments of 1.63 earners in the Titagarh Paper Mills at Rs. 62 per earner per month is more than Rs. 20 per week.

Considering all the circumstances and in view of the total emoluments that are paid to the lowest paid worker in the mills and also the fact that I have extended the benefit of the house allowance to all the operatives and to a large number of the clerical staff, I am of opinion that the circumstances of the case do not justify an increase in the dearness allowance and it is awarded accordingly.

Issue No. 2.—Grade scale of (1) Operatives and (2) the Clerical Staff.

The Union states that the Adjudicator in the previous case was pleased not to attempt at a revision of the grading system of wages prevalent in the Company as it felt that the subject matter required elaborate enquiries, for which it had neither time nor the qualifications. The Union further states that although at the time of the previous case the Union and the Company came to a compromise in respect of the grades and scales of pay of the clerical staff, the adjustment was of a temporary character and did not result in justice to the clerks. The Union, therefore, claimed for a revision of the wage system and fixing the following grade scales of salaries for the operatives and the clerical staff:—

“Gradation Scale and fitting in:—

(i) Operatives—

A—Highly skilled—Rs. 120—7—190.

B—Skilled—Rs. 70—5—120.

C—Semi-skilled—Rs. 55—3—70.

D—Unskilled—Rs. 32—2—52.

(ii) Clerical Staff—

A—Rs. 180—8—260.

B—Rs. 120—7—176.

C—Rs. 70—5—120.

Every workman including clerical staff should in the first instance be placed in a proper grade and his pay in his grade should be then fixed by adding to the initial pay of the grade such amounts of increment as may be found to be due to him by allowing one increment for each three years of service.”

The Company states as follows: The clerical workers are all graded and normally receive automatic annual increments up to certain maximums. At No. 1 Mill the Engineering Department recently accepted through their Union a certain system of grading based on a classification of the workers according to their trades, but the system did not contain any provision for automatic annual increments. A similar scheme was prepared for the Engineering Department at No. 2 Mill, but was not accepted by the Union. The Company agrees with the principle of grading for all employees provided that the term be interpreted as meaning classification in the case of operatives. The Company does not consider that the labourers should receive automatic annual increments.

Operatives.—The learned Advocate for the Union pressed that the wage of the operatives should be increased yearly as it was not possible for a worker to rise from the unskilled or semi-skilled to the skilled grade. It was pressed that the company should classify the operatives into 4 grades of highly skilled, skilled, semi-skilled and unskilled workmen, and there should be a time-scale of salary for each category, as suggested by the Union. The awards in the disputes of Ford Motor Company of India, Bombay, *versus* their workmen (Industrial Court Reporter, 1948, page 419), Bassein Motor Service Company *versus* their workmen (Industrial Court Reporter, 1948, page 447), and the Ford Motor Car Company, Ltd., of India, Bombay, *versus* its workmen (Indian Labour Gazette, February, 1949, page 567) were cited to support the claim for a time-scale of pay for operatives in the mills.

The learned Counsel for the Company pointed out that if any grades were made, it would be difficult for the Tribunal to fit the workmen into these grades without expert assistance. He further stated that the Company had valued the jobs and fixed their pay accordingly and referred to the observations of the Adjudicators in the Award of the industrial dispute in the Jute Textile Industry in West Bengal, at page 25, where the learned Adjudicators disallowed the claim for time-scale grades of wages for the operatives in the Jute Mills.

The Award reported at page 419 of the Industrial Court Reporter, 1948, grants time-scale of salaries only for Clerks, Typists, Stenographers, Field Mechanics, Drivers, Sepoys, Wafer-boys and Tea-boys. It does not touch the question of payment of time-scale grades of wages to operatives in a factory. Time-scale grades of wages have been allowed by the Award in Bassein Motor Service Company (Industrial Court Reporter, 1948, page 447) and the Ford Motor Car Company of India, Ltd. (Indian Labour Gazette, February 1949 page 567), and in W. & T. Avery, Ltd., Bombay (Indian Labour Gazette, February 1949, page 568). All the companies in these Awards are engineering concerns and it appears that the rates in the Ford Motor Co., Ltd., of India and W. & T. Avery, Ltd., Bombay, were the results of agreement by the Company.

In a job in the mechanical workshop it is reasonable to accept that the skill of the workmen increases with time because the machine is only an aid to the skill of the mechanic in the performance of the work. This consideration can hardly apply to workers in the factory where the workman acts as a feeder to the machine. There the machine does the work and the workman only helps it. There can, therefore, be no justification for the application of the provision of time-scale grades of pay in engineering jobs to the case of workers in a factory. It is noticeable that no time-scale grades for manual workers in the Bombay Cotton Textile Industry has been fixed by the Tribunal concerned. Under similar circumstances no time-scale grades of wages were also allowed in the case of workmen in the Jute Textile Industry in Bengal (*vide* Award of the dispute in the Jute Textile Industry in West Bengal, pages 25-26). In the circumstances, the claim for a time-scale grade for a manual worker in the Titagarh Paper Mills Nos. 1 and 2 is disallowed.

As to the Union's claim of making only four categories of workmen according to the degree of skill required for the job, being unskilled, semi-skilled, skilled and highly skilled, there can be no doubt that an enunciation of four categories of workmen classifying degrees of skill will serve a useful purpose for the Company in the work. Unless all the workmen are fitted into these four categories, the claim for a time-scale of pay for operatives in the mills.

Issue No. 3 (Case No. 17/49).—Revision of Piece-Rates.

I now take up the question of the revision of
piece-rates which are availing in the Finishing
Department of the mills. There are about 174
workmen in Mill No. 1 and 102 in Mill No. 2 in
this department. The duty of the workmen in this
department is to put the product of the machine
in a marketable form. The continuous sheets of
paper recovered from the machine are cut into
definite sizes and every sheet is examined and they
are packed in quires and reams in separate labelled
packets. In the previous Award, the learned
Adjudicator opined that the piece-rate workers
were already earning very considerably higher
average wages than the time-scale workers and
that there was no case for a further increase in
the piece-rate, although they were given the bene-
fit of the increase in the dearness allowance. It
may be mentioned that the previous dispute
between this Company and its workers and that
between the India Paper Pulp Co., Ltd., a sister
organisation situated at Naihati, only six miles
to the north of No. 2 Mill of this Company at
Kankinara, and their workmen, were heard
together by the learned Adjudicator, although two
separate Awards were made for the two disputes.
The Union contends that the piece-rates prevailing
in the India Paper Pulp Co., Ltd., which carries
on the same industry in the same locality are
considerably higher than the rates paid by the
Company. The Union, therefore, demands the
introduction of identical rates as prevailing in the
India Paper Pulp Co., Ltd. It may be mentioned
that these rates in the India Paper Pulp Co., Ltd.,
were also prevailing at the time the Award of
the learned Adjudicator was made, which was
published in the *Calcutta Gazette* on 4th Septem-
ber 1947. This Award shows that the piece-rates
in the India Paper Pulp Co., Ltd., were increased
by 45 per cent. in January 1947. The learned
Adjudicator, therefore, did not consider it fit to
further increase the rates.

It appears that on the 9th January 1949, the
Bengal Kagazkal Mazdoor Union of Mill No. 2
made a demand for revision of the piece-rates on
the lines of the rates of the India Paper Pulp Co.,
Ltd., and that as there was no revision of these
rates by the Company, the workmen of both the
mills started "go slow" tactics on the 24th of
January in Mill No. 2 and on 25th of
January in Mill No. 1, that resulted in accumula-
tion of vast quantities of unfinished papers in the
godowns of the mills. It has been already stated
above that the Labour Commissioner for the
Government of West Bengal took up the matter
for conciliation and succeeded in raising the pro-
duction of the Finishing Department to some
extent, much below the normal level, and there-
after recommended to Government for the
reference of the disputes to the Tribunal. It may
be stated that the revision of piece-rates has been
the central point of dispute between the Company
and its workmen in both the mills at the present
time. The accumulation of vast quantities of
paper carrying a market value of several lacs of
rupees in the godowns of the Company is itself
a matter fraught with dangerous potentialities,
inasmuch as the commodity is a highly combustible
material. The importance of this part of the
dispute cannot, therefore, be over-estimated.

The Company states in reply to the statement of
the Union that it received a letter on 9th January
1949 from the Bengal Kagazkal Mazdoor Union
that they were not satisfied with the rates given
for piece-work, which they demanded should be
revised on the lines of the alleged rates at the
India Paper Pulp Co., Ltd., of which a copy was
supplied. It is further stated that before this
could be properly considered by the Tribunal,
the finishing house workers started
at No. 2 Mill on 24th January.

this was followed by similar tactics by the Mill No. 1 on the following day. The Company also states that the gross remuneration which were being earned before the "go slow" movement compared favourably by workers performing work of a similar nature elsewhere in the mill. The Company, therefore, submits that no revision of piece-rates is called for.

Some papers as to the piece-rates paid to the workers in the India Paper Pulp Co., Ltd., were called for by me, at the instance of the Union, and these can be profitably used in comparing the rates paid by that Company and the Titagur Paper Mills to the Finishers.

The learned Counsel for the Unions, pressed for increase in the piece-rates of the Finishers to make it approach the rates paid by a sister concern in the same locality and pointed out that labour costs in the paper industry was insignificant, in comparison with the cost over the raw materials and that the industry had a ready market in the country.

Mr. Choudhury, Counsel for the Company, argued that the Union could not make out a case for increase in the rates of the Finishers and it was not enough to show that the rates of the Finishers, in only one of the numerous departments in the industry, were higher in the India Paper Pulp Co., Ltd., than in the Titagur Paper Mills. It was contended that the Tribunal should compare the rates paid by the two companies in question in all the departments and if it could be proved that the Titagur Paper Mills paid a lower emolument to the worker in all the departments, the Union could have a justification of claiming for a rise in the emoluments in any of the departments, including the Finishing Department. The learned Counsel stated that the Titagur Paper Mills might consider that it was wiser to lay out a comparatively larger amount of funds over the actual manufacture of good paper, than over the finishing of these papers, which consisted mainly of the task of conditioning the paper into a marketable form. It was further stated that the Tribunal was to value the job and the fact that another Company paid higher wages to a certain set of workers did not justify the claim of the workmen for increase of rates. As it is, the emoluments of the Finishers were quite reasonable and that was the opinion of the previous Adjudicator Dr. H. G. Wright.

It is true that a workman is to be paid on the value of the job. It is also a fact that the Titagur Paper Mills comprise the two largest units of the industry and the India Paper Pulp Co., Ltd., has a smaller dimension than any of these two mills. The annual production of the India Paper Pulp Co., Ltd., appears to be about 6,600 tons of paper, as it appears from the Award of the previous Tribunal that the monthly output was fixed at 550 tons of paper. The production of the two mills of the Titagur Paper Mills was more than 30,000 tons in 1947 and 25,000 tons in 1948. The financial year of the Company is from April to next March. There was a strike in both the mills for 70 days from 14th March 1947 to 22nd May 1947. That accounts for the lower production in 1948. As a matter of fact these two mills are capable of producing annually 36,000 tons of paper, which is more than a third of the manufacturing capacity of the whole of India. The India Paper Pulp Co., Ltd., is situated within 6 miles of Mill No. 2 at Kankinara and it may be considered that the workmen in both the mills have to work and live under similar conditions. It appears from the file of the Labour Commissioner that 59 per cent. of the production of the India Paper Pulp Co., Ltd., and 34 per cent. of the Titagur Paper Mills are supplied to the Government of India. The two companies are

regard to Government contracts. The Dr. H. G. Wright in the previous award over both the Companies show first same minimum wages for operative clerical staff. The grade scale of operative clerical staff in the India Paper Pulp Co. in the Award appears to be a little that agreed to by the parties in the Titagur Paper Mills. From these it I do consider that the India Paper Pulp Co. has to pay almost similar wages as the Titagur Paper Mills in all other although the piece-rates of the India Paper Pulp Company appear to be higher than those in the Titagur Paper Mills. Bestowing my earnest consideration to the question and the facts that this difference in the two mills resulted in loss of production for several months in the mills, in opinion, that for the sake of ensuring peace, the piece-rates of the Finishers in the Titagur Paper Mills should be revised to approach, as far as practicable, the rates in the India Paper Pulp Co., Ltd.

It appears that there are three Finishers in the India Paper Pulp Co., Ltd. There are 30 "A" Class Finishers, 1 "B" Class Finisher, and 21 "C" Class Finishers called Sorters, at the present moment in the Company. The rates of these Finishers are the following data:—

A Class Finisher—Rs. 3 for 54 reams of perfect paper, 18" x 22"—16 lbs. (with minimum wage Rs. 52)

B Class Finisher—Rs. 2-11 for 48 reams of perfect paper, 18" x 22"—16 lbs. (minimum wage Rs. 47).

C Class Finisher—Rs. 1-15 for 36 reams of perfect paper, 18" x 22"—16 lbs. (with minimum wage Rs. 34)

Plus Rs. 30 per month dearness allowance.

It appears from the statement of the Company that the most common types of paper manufactured in both the Titagur Paper Mills and the India Paper Pulp Co., Ltd., are 18" x 22" (20 lbs.), 18" x 22" (16 lbs.) and 20" x 22" (16 lbs.). These qualities account for the bulk of the production in the mills. It is, therefore, to compare the finishing rates of the two mills—the Titagur Paper Mills Co., Ltd. and the India Paper Pulp Co., Ltd.—in regard to three common types of paper. In the India Paper Pulp Co., Ltd., the finishing is usually done in the finishing department and the rates supplied relate to the finishing of the paper. In the Titagur Paper Mills, the finishing is usually done in the finishing department and the rates supplied relate to the finishing of the paper. I understand that single sheet finishing is done in that Company on very rare occasions. The total earnings of the Finishers in the Titagur Paper Mills appear to be less than those in the India Paper Pulp Co., Ltd. It is explained by the Company that in the India Paper Pulp Co., Ltd., a Finisher has to work every day while in the Titagur Paper Mills a Finisher has work sufficient to engage him for not more than 5 hours, in view of the large complement of Finishers working in the Titagur Paper Mills. The Company chooses to retain the existing rates without resorting to revision, although it entails a somewhat lower standard of living for the Finishers. To my mind, the attitude on the part of the Company is to be appreciated by the fact that the rates in the two concerns do not differ by more than 10 per cent. in the rates.

It appears from the file of the Labour Commissioner that 59 per cent. of the production of the India Paper Pulp Co., Ltd., and 34 per cent. of the Titagur Paper Mills are supplied to the Government of India. The two companies are

these types of paper the Finishers get wing rates:—

- 1st Finisher—Rs. 2 for 36 reams.
- 2nd Finisher—Rs. 1-12-8 for 36 reams.
- 3rd Finisher—Rs. 1-5-4 for 26 reams.
- 4th as Rs. 1-12-8 for 36 reams).

In Titaghur Paper Mills there is no classification of the piece-rated Finishers. The average head of Finisher paid by the India Paper Pulp Co., Ltd., therefore, appears to be Rs. 1-14.

In Titaghur Paper Mills there are different rates for fly finish and single sheet finish. It is stated that 25 per cent. of the work is done in single sheet finish and 75 per cent. in fly finishing. From the table of rates supplied by the Company (Appendix A) it appears that in Titaghur Paper Mills, a Finisher gets, for 36 reams of paper, Rs. 1-5 and with the 25 per cent. increase granted in 1946, the rates appears to be Rs. 1-13, whereas the same amount of work draws an average remuneration of Rs. 1-14 in the India Paper Pulp Co., Ltd.

For 36 reams of 18" x 22" (16 lbs.) size the worker in the Titaghur Paper Mills gets Rs. 1-4-6, whereas in the India Paper Pulp Co., Ltd., he gets an average remuneration of Rs. 1-14.

For 32 reams of paper of 22" x 30" (24 lbs.) the India Paper Pulp Company Finisher gets Rs. 2 for 32 reams, Rs. 1-12-8 for B Class Finisher and the same amount for Class C Finisher and the payment per Finisher appears to be as Rs. 1-14. The Titaghur Paper Mills workmen get 25 per cent. of single sheet finishing the remuneration paid to a worker for finishing 32 reams of paper appears to be Rs. 1-11-3.

Considering the difference in rates in the two mills as detailed above and remembering that the India Paper Pulp Co., Ltd., granted an increase of 12½ per cent. in rates in 1947 while the Titaghur Mills granted an increase of 25 per cent. in rates, it is the opinion of the Union that the Finishers in the Titaghur Paper Mills should be given a further increase of 12½ per cent. in their rates, so as to bring them up to the level of the India Paper Pulp Co., Ltd. Further, the rates for finishing the group with 18" x 22" in the Titaghur Mills should be increased to the rates of the group with 17" x 27"; in other words, with areas of 357 square inch to 476 square inch should be paid at the same rates as for paper of area of 459 square inch to 476 square inch.

Rates for reel packing, special stamp cap, and the festival holidays should be increased by 12½ per cent. The daily rate of Rs. 1-8 should be increased to Rs. 2 with percentage addition.

It must be remembered the Finishers will also get a house allowance as allowed in the following table with the increased emoluments as detailed above. The Finishers should have no further increase for the rates of their remuneration. It may happen that the total earnings of an A Class worker in the India Paper Pulp Co., Ltd., may be higher than a Finisher in the Titaghur Paper Mills where there is no classification of Finishers. It should not be made a grievance, inasmuch as the Finishers in the Titaghur Paper Mills get a lower wage, whereas less than 50 per cent. of the workers in the India Paper Pulp Co., Ltd., are Class A Finishers.

There are some Head Mistries and Assistants in the Finishing Department in both mills who get time rates. Between the Rs. 50 and Rs. 100 per month. In Mill No. 1, the rates are Rs. 12 and Rs. 14.

rates granted to the piece-rate Finishers, the emoluments of the Mistries in the Finishing Department are directed to be increased by 10 per cent. of their pay, in the circumstances of the case. This direction, however, does not apply to the case of the clerks (Babus) who are working in the Finishing Department in Mill No. 2.

In connection with the present issue I have to refer to the trouble about reel packing that appears to have reared its head in Mill No. 1. In supplying the orders of the Government of India for post card papers, the mills have to make reels of post card papers which are done by the Finishers in Mill No. 1 and by special reel packers, 6 or 7 in number, in Mill No. 2. The Finishers have for some time been objecting to do the work of reel packing on the ground that this is an unskilled job, which is beneath their dignity as skilled workers to perform. Normally, an individual Finisher has got to do reel packing for one or two days in a month and there are 174 Finishers in Mill No. 1. If the work of two days in a month for 174 workers be separated, the work of Finishers will diminish by the full work of 13 men and the Company will be no loser if it dispenses with the service of 13 Finishers and appoints a fresh batch of 13 men as reel packers. I do consider that this is not in the interest of the workers themselves. The Company, it appears, has not sufficient work for 174 Finishers in Mill No. 1 and if the Finishers refuse to do the work of reel packing the total quantity of work for the Finishers will further diminish. The rate of reel packing has been enhanced by 12½ per cent. of the old rate. It is, therefore, awarded that in Mill No. 1 the Finishers should do the work of reel packing but not for more than two days in a month. The Union is requested to explain, to the workmen in the Finishing Department in Mill No. 1, that in their own interest they should not refuse to do the work of reel packing which is but an insignificant portion of the total work they have to do. It is also to be considered that reel packing of post card paper supplied to the Government of India should not be made to suffer in public interest.

Issue No. 4 (Case No. 17/49).—House allowance.

The learned Adjudicator in the previous adjudication allowed a house allowance of Rs. 2 per month to the lowest paid worker, to be reduced to Re. 1 at the basic pay of Rs. 32-8 and to vanish at Rs. 36. The award granted a total increase of Rs. 8 in basic pay and dearness allowance to all time-rated workmen including the lowest paid worker. Over and above these increases in emoluments the lowest paid worker got a house allowance of Rs. 2 per month which is reduced in stages as above. The house allowance for the clerical staff as allowed by the learned Adjudicator in the previous Award is at Rs. 5 for the lowest paid clerk to be reduced by Re. 1 at each of 5 equal stages along the scale from Rs. 60 to Rs. 80, until it is extinguished at the basic pay of Rs. 80.

The Union demands a house allowance of Rs. 5 per month for all workers in view of the severe scarcity of housing accommodation and the exorbitant rates of house rent prevailing in the locality.

The Company states in answer to this claim that in assessing reasonableness or otherwise of these demands, the total wage position must obviously be taken into consideration.

At the time of the address, the learned Counsel for the Unions suggested a house allowance of Rs. 3 for all operatives and Rs. 5 for all clerks.

The learned Counsel for the Company pointed out to me that the wages and earnings were the highest in these two mills out of the entire industry.

1949, pages 467 to 475). It was argued that Dr. H. G. Waight in the previous adjudication fixed the house allowance only for the lowest paid workers and there was no change of circumstances since the date of the previous Award and there was no justification for a demand of an enhanced house allowance.

The learned Counsel also referred me to the Award of the Jute Textile Disputes Tribunal at pages 81-82 where the claim of house allowance was rejected by the Tribunal.

On a careful consideration of this matter, I am of opinion that the house allowance of Rs. 2 for the operatives should be extended to all categories of manual workers and it is awarded accordingly. As to the clerical staff the house allowance is revised as follows: The house allowance should fall by Re. 1 per month at each of 5 equal stages along the scale from Rs. 60 to Rs. 100, until it is extinguished at a basic pay of Rs. 100.

All the other directions in the previous Award as to the house allowance shall continue to operate.

Issue No. 5 (Case No. 17/49).—At what rate the female workers, gardeners and bungalow workers entitled to wages?

In the previous Award the learned Adjudicator fixed the basic pay of the lowest paid workers at Rs. 30 and also allowed a dearness allowance of Rs. 30 and a house allowance of Rs. 2 per month. While implementing the directions in the Award the Company did not allow the basic wage of Rs. 30 to the female workers, although they were granted the dearness allowance of Rs. 30 and the house allowance of Rs. 2. The Company did not also grant the basic pay or the dearness allowance or the house allowance as fixed by the learned Adjudicator to the bungalow servants of the officials of the Company, of the categories of masalchis, malis, cooks and sweepers. During the period of operation of the Award the Union claimed that the female workers as well as the bungalow servants were entitled to the minimum emoluments of workmen as settled by the learned Tribunal and there was a long standing dispute over this matter which was never solved. The Union, therefore, renewed its claim on this question before this Tribunal.

In paragraph 17, the Union contends that the Company, in violation of the directions of the previous Tribunal, failed and neglected to pay the female workers, gardeners and the bungalow servants at the rate fixed by the Tribunal and these workers have so long been paid at a lower rate. The Union claims that these categories of workmen are entitled to get wages and allowances as fixed by the learned Adjudicator in the previous Award for the unskilled workmen. The Company, on the other hand, contends that the gardeners and the bungalow servants were the personal servants of officers of the Company and should not be classified as mill workers, that they enjoy certain amenities not open to mill workers, such as free quarters, and that their service is essentially of a personal nature. As to female workers, it is said that the minimum basic wage fixed by the Tribunal was intended to apply only to adult male workers and not to women workers, whose case was presented by the Unions but not pressed. The Company maintains that it had never been the intention of the learned Adjudicator to apply the fixed minimum basic wage to women workers or that he would have specifically expressed so. The Company stated that the work performed by the female workers did not warrant them in receiving the rates as at present paid to the male workers. The Company opposed the claim of application of the minimum basic wage or the minimum basic pay of the learned Adjudicator in regard to the female workers, gardeners and bungalow servants.

Female workers.—The previous Award fixed minimum emoluments of a workman without mentioning the age or the sex of man. The Union, therefore, claims that in the mills is entitled to the fixed minimum emoluments irrespective of sex and that, if a female worker was equally entitled to minimum emoluments as an adult male, statement filed by the Company (vide B) it appears that the female workers were employed in grass picking, welfare, finishing and other departments of the Company and wage for a month of 26 days varies from Rs. 19-1-6 in the case of all workers in the Sanitation Department who get of Rs. 24-12. In addition to the basic female workers are given a dearness allowance of Rs. 30 and a house allowance of Rs. 2 by the learned Adjudicator.

Mr. Choudhury for the Company urged that a useful purpose would be served by the Company by advertising to the intention of the learned Adjudicator in the previous Tribunal fixation of the basic wages of the female workers as this present Tribunal was not competent to interpret the previous Award or to make deductions in wages alleged by the Company. It also contended that the value of the job done by a female worker could never be equal to that done by an adult male and an equalisation of basic wage of a female worker to that of a male worker would gradually tend to the extinction of the former from the industry. It would, therefore, be well-advised not to give the same wages for the female workers as for the adult males. It was further contended that in most cases the female workers were wage earners at home, the husband or that there were also instances where the female relations of a workman in the industry were provided, out of compassion, by the Company with such advances for the female workers as they were bound to be restricted, if it had to pay wages to a female worker as her male. In these circumstances, it is proposed that the wage of a female worker should be fixed at a level lower than that of an adult male worker at Rs. 30 per month. The Company proposed to raise the basic wage of the female workers to Rs. 20-8 per month of 26 days, i.e., a basic pay of Rs. 20-8 per day except in the case of two workers in the Sanitation Department, who it is asserted, should continue to get their wage of Rs. 24-12. With a basic pay of Rs. 20-8 and a dearness allowance of Rs. 30 and a house allowance of Rs. 2, the total emoluments of a female worker would amount to Rs. 52-8, which is about 80% of the total emoluments of an adult male worker. Considering all the circumstances of the case, the learned Adjudicator is of opinion that this offer of the Company should be accepted and it is awarded accordingly that the female workers in the Sanitation Department who are getting a basic pay of Rs. 24-12 per month, shall continue to get this wage and all the other female workers shall get a basic pay of Rs. 20-8 and a monthly wage of Rs. 12 annas.

Bungalow servants and gardeners.—The learned Adjudicator in the previous Award fixed the wages of the gardeners and the bungalow servants at Rs. 21 to Rs. 44 per month. They generally get a dearness allowance of Rs. 30 per month except in the case of those who get a basic pay of Rs. 44 per month who get a dearness allowance of Rs. 18 per month. It is proposed that the gardeners and the bungalow servants should get a special allowance of Rs. 12 per month. The total emoluments of the gardeners and the bungalow servants in the mill would be Rs. 33 per month. These workers are employed in the mills, cooks and sweepers in the bungalows of the high officials of the Company.

The learned Adjudicator is of opinion that these workers should be treated as unskilled workmen and their wages should be fixed accordingly.

An unskilled workman engaged in the operation of the mills. The Company states that these categories of mill servants are personal servants of the officials of the Company and are paid by the Company as a consequence of that as a matter of fact they were not employees engaged in the work of the Company. It was also stated that the appointment and discharge of these men depended mostly on the will of the official to whom they served. It was, therefore, suggested that these men were different in status from the workmen of the mills.

In consideration of this matter, I am of opinion that the status of the bungalow servants including the workmen cannot have any semblance of that of the workmen engaged in the work of the Company. It cannot, therefore, be advanced that they are entitled to the same scale of emoluments as the workmen of the Company. It is clear that there are officers who supplement their earnings in various ways. It is doubtful that these men are not workmen of the essential processes of the industry. They are workmen employed by the Company in terms of their employment make them workmen in the wishes of the officials with whom they are attached, but they remain employees of the Company.

Emoluments received by these categories of workmen will appear from Appendix C to this report. The minimum emoluments being only Rs. 21 per month, is much below the poverty line, considering that they get an extra allowance as officials under whom they serve. The minimum of the malis (gardeners) Rs. 24, and of the sweepers also Rs. 24. They all get an allowance of Rs. 24 per month. On a consideration of this matter, I am of opinion that the workmen of these categories of servants should be given 12½ per cent. or 2 annas in the rupee as a minimum of Rs. 26 per month, and a dearness allowance should also be raised every month and it is awarded accordingly. It is stated that the remuneration of these workmen will be supplemented as before by the official to whom they serve.

8 (Case No. 17/49).—Should the night workmen be given any extra allowance for night work?

The manufacture of paper in these mills is a continuous process and the Company employs 3 shifts of workmen at 8 hours for each shift. In the result, each man does one night shift of three. The work on the night shift is between 10 p.m. and 6 a.m.

Paragraph 18 of the Union's written statement stated that the work in the night is exhausting and detrimental to the health of the workers and the workers working at night should be given a special allowance to provide for recuperation.

The Company states that the nature of the work involving continuous processes, makes night work inevitable and accordingly various shifts are operated throughout the day which are changed at regular intervals. It is stated that the Company does not oppose the claim for an extra allowance for night work.

The Advocate for the workers has accepted the recommendation of the Health Survey and Development Committee for a 45-hour week.

hardship and should be compensated for by additional wages. It is important to note that subsequent to the publication of the Report of the Health Survey and Development Committee, the Factories Act was amended and the maximum weekly working hour was reduced from 54 to 48 (Act X of 1946) with effect from 1st August 1946. The Factories Act was again revised and the new Act No. LXIII of 1948 which came into operation on 1st April 1949, also permits a maximum weekly period of 48 hours. It cannot, therefore, be argued that the recommendation of the Health Survey and Development Committee for a 45-hour week justifies an extra allowance for night work, on the ground that the weekly work hour of the workmen in the mills was 48 hours. As a matter of fact, the workers in these mills cannot be made to work for more than 45 hours in a week, in view of the fact that the Company has to carry on a continuous process and to keep 3 shifts working during the period of 24 hours. Each shift in these mills works for a continuous period of 8 hours and they are given an interval of rest for at least half-an-hour after a period of 5 hours, as is enjoined by section 55 of the Factories Act. In the result, each workman has to put in a period of work for 7½ hours in a day, and, therefore, 45 hours in a week. Taking one night shift in every three, is but a normal incident of service in this paper manufacturing industry. It cannot, therefore, be claimed that the periodical work in night shifts should carry an extra remuneration.

It also appears that about one-third of the workmen works in the general shifts and near about two-thirds of the total number of workmen who are on the manufacturing side have to take the night shifts in rotation. Such a claim was also made by the workmen of the India Paper Pulp Co., Ltd., in the dispute adjudicated on by Dr. H. G. Waight, I.C.S., and the Award of that adjudication (published in the *Calcutta Gazette* on 4th September 1947) shows that the learned adjudicator concluded that he did not find any substance in the claim and disallowed it. The India Paper Pulp Co., Ltd., is a sister concern which is situated only about six miles to the north of the Mill No. 2 at Kankinara. I do not find any ground for conceding this claim and it is disallowed.
